porated as manager of PSAR applications. Other additions at EI include: F. R. KELLER, project manager, and J. A. McCLURE, senior systems scientist.

RICHARD H. KIDDER has been named manager, Mechanical & Nuclear Service, Apparatus Installation & Service Engineering Overseas Operations, General Electric Technical Services Company, Inc., a subsidiary of General Electric Company. Kidder previously was manager of projects for I&SE.

The Atomic and Space Development Authority of New York has announced the appointment of LEONARD GALANTER as director of nuclear power siting. Galanter previously served as environmental projects manager with the USAEC in Washington, D.C.

ALEX G. FREMLING has been named manager of the AEC's Richland Operations Office. Replacing him as deputy office manager is ROBERT P. FASULO. Other news from Richland includes the appointment of ROBERT H. LINDSEY as assistant manager for program support and plans. He succeeds RUSSELL RITCHIE, who has become assistant director for administration of the AEC's Division of Reactor

Research & Development at Germantown, Md.

At Pioneer Service & Engineering Company WALTER E. RIEGEN has been promoted to quality assurance supervisor of the Mechanical & Nuclear Divisions.

The appointments of HENRY F. COFFER and CHARLES R. BOARDMAN as vice president and senior staff engineer, respectively, were announced by Western Oil Shale Corporation of Texas. Coffe previously served as director of production research for Continental Oil Company, and was affiliated with its subsidiary CER Geonuclear Corporation as vice president of engineering and research. Boardman was also associated with CER Geonuclear as senior staff engineer, and prior to that with Lawrence Livermore Laboratory in the commercial uses of nuclear explosives.

JAMES A. REAFSNYDER has received a promotion to chief of the Materials Management Branch within the Materials Management Division of the AEC's Oak Ridge Operations.

C. R. (CHET) MCFARLAND, former deputy director of Power Engineering

Services for Burns and Roe, Inc., has been appointed director of that division.

DENNIS F. LAI has joined Dames & Moore as a projects hydrologist. He will be based at the firm's Cranford, N.J., office. Prior to this position, he was principal environmental engineer with Ebasco Services, Inc., New York.

The AEC has appointed KAYE E. LATHROP, a staff member at the Los Alamos Scientific Laboratory, to its Advisory Committee on Reactor Physics.

WILLIAM G. BENZ has been named director of the manufacturing service Department in the C-E Combustion Division of Combustion Engineering, Inc. He will be located in C-E's Windsor Conn., offices.

Managing director of Rockwell Valves International, Inc., JACK B. WALTERS has been named director of operations for Europe, the Middle East, and Africa for Rockwell International's Flow Control Division.

BEN C. RUSCHE, director of the Environmental Analysis and Planning Group for the past two years at D

**UNITED NUCLEAR INDUSTRIES, INC.**  
(Formerly Douglas United Nuclear, Inc.)

Now a wholly owned subsidiary of:  
**UNITED NUCLEAR CORPORATION**  
**UNI—the brand new company**  
**with 28 years of**  
**nuclear plant experience**

**PROVIDES**

- Radwaste Solidification Systems
- Off Gas Treatment Systems
- Maintenance and Health Physicist Training
- Environmental Evaluation Service
