## **MRRS 4104 Infection Prevention Solutions – ICAT Web Infection Control Audit Technology**

06 October 2014

**Recommendation 4a:** Not a significant improvement on equipment/materials/products already available which claim to contribute to reducing health care associated infection; no further consideration needed

*This product is a web or tablet based infection prevention and control (IPC) audit tool with an integrated reporting package to support local IPC improvements. The RRP noted ability for non-specialists to perform audits, but required evidence to demonstrate an improvement over current practise.*
