

## ESF Programme Summary – Maths and English for the Employed

### Overview

English and Maths provision for the Employed will deliver English and Maths qualifications to adults (aged 19 and over), who:

- are in employment or who have a ‘volunteer agreement’, for a minimum of 8 hours per week; and
- who have been assessed as having English and Maths skills below level 2.

The contract will allow delivery of a maximum of 2 accredited qualifications of either English and/or Maths. This could be: 1 English and 1 Maths qualifications; 2 Maths qualifications; or 2 English qualifications. Where a participant is undertaking 2 English/Maths qualifications, the second qualification must be at a level higher than the first. The contracts will aid participants into in-work progressions, apprenticeships or further accredited learning at a level higher than supported through the project.

Additional funding is available to enable small and medium sized enterprises (SMEs) to release participants to undertake accredited English and Maths qualifications during work time. Funding for a maximum of 3 eligible participants is available to individual employers and is made up of two separate payments: one when the participant has been in learning for two weeks (14 days); and the second on the successful completion of the qualification should they remain on the programme.

All of these contracts will end by 31 July 2015.
