

## Annex B: Impact Assessment Falcons Primary School

We have looked at Six schools within a 2.5 mile radius from the site of FPS. We have concluded that the impact will vary between minimal and moderate, details are set out below.

### Primary Schools

School name	School type	Capacity	Attainment in 2012/13  KS2 2013 (% achieving level 4 or above in Reading, Writing, Mathematics)	Ofsted grade	Impact rating
Merrydale Infant School	Community School (3-7)  Non Faith  Mixed	270  90 places at entry point  Overall surplus of 4 places	This is an infant school and pupils move onto junior school for Key Stage 2	Good  (March 2013)	<b>Minimal</b> – This school is 0.4 miles from FPS. Falcons Primary should have a minimal long term impact on this school in the context of its current Ofsted grading. Levels of basic need in the area are severe and set to increase over coming years. This will further mitigate any potential impact the free school will have on this school.
Merrydale Junior School	Community School (7-11)  Non Faith  Mixed	354  90 places at entry point  Overall surplus of 57 places	50%  Well below average	Requires Improvement  (July 2013)	<b>Moderate</b> – This school is 0.4 miles from FPS. While the short term impact may be minimal due to levels of basic need in the area, if this school does not improve after levels of basic need reduce, the long term viability of this school may be impacted when parental choice becomes a determining factor. This assessment is based on the school's current Ofsted rating, there is

					evidence that this school is improving.
Northfield House Primary School	Community School (3-11) Non Faith Mixed	314 50 places at entry point No surplus	33% Well below average	Inadequate (September 2013)	<b>Minimal</b> – This school is 0.4 miles from FPS. While the short term impact may be minimal due to levels of basic need in the area, if this school does not improve its Ofsted rating of inadequate in 2013 and KS2 results after levels of basic need reduce, the long term viability of this school may be impacted when parental choice becomes a determining factor.
Humberstone Junior School	Academy Converter (7-11) Non Faith Mixed	345 90 places at entry point Overall surplus of 15 places	91% Well above average	Good (Feb 2011)	<b>Minimal</b> – This school is 0.6 miles from FPS. Both short term and long term impact are judged to be minimal due to the Ofsted rating and high performance of this school.
Humberstone Infant School	Community School (3-7) Non Faith Mixed	270 90 places at entry point Overall surplus of 4 places	This is an infant school and pupils move onto junior school for Key Stage 2	Requires improvement (September 2013)	<b>Moderate</b> – This school is 0.6 miles from FPS. There will likely be no short term impact on this school due to severe levels of basic need over the next few years. However once levels of basic need reduce, parental choice may be a determining factor and impact is likely to increase. Ofsted rated a Requires Improvement in September 2013 but the report does indicate that that this school is improving.
St Barnabus CofE Primary School	Voluntary Aided (3-11) CofE Mixed	280 40 places at entry point No surplus	72% Below average	Good (March 2013)	<b>Minimal</b> – This school is 0.7 miles from FPS. Short and long term impact is judged to be minimal due to the current Ofsted rating, levels of basic need and the exam performance hovering around the average.
