Appendix A: Background Information	14
Appendix B: Rates of Child Benefit, 1992 to 2009	17

## **Introduction**

### **What is Child Benefit?**

Child Benefit is a tax-free payment that you can claim for your child. It is usually paid every four weeks but in some cases can be paid weekly. The payment can be claimed by anyone who qualifies, whatever their income or savings.

Child Benefit is paid to those responsible for children (aged under 16) or qualifying young people. The latter includes:

- a) those in full-time non-advanced education or (from April 2006) on certain approved vocational training courses and who are under 19, or are aged 19 and have been on the same course since their 19th birthdays. (Note: those reaching 19 up to 9 April 2006 ceased to qualify on their 19th birthdays);
- b) those entered for future external examinations, or are in the period between leaving education (or exams finishing) and the week containing the first Monday in September (or similar dates after Easter and in early January, if earlier), and are not in work (there are slight variations for Scotland);
- c) those aged under 18 who have moved directly from full-time education to being registered for work or training with the Careers service or with Connexions.

You can get Child Benefit even if your child doesn't live with you. However, if they live with someone else, you can only get Child Benefit if:

- a) you pay towards the upkeep of your child
- b) what you pay is at least the same as the amount of Child Benefit you get for your child
- c) the person bringing up your child is not getting Child Benefit for them - if you and another person both claim Child Benefit for the same child, only one of you can get it

You can also claim Child Benefit for a child even if you're not their parent, but you have to be responsible for them to qualify.

Awards are also subject to residence criteria being satisfied.

There are two separate amounts, with a higher amount for your eldest (or only) child and a lower amount for each of your other children.

[For further information about who can claim please refer to the HMRC website.](#)

### **What does this publication tell me?**

The statistics are as close to real-time as possible and represent the complete picture as at the 31st August, including back-dated awards. As these statistics are classified as National Statistics the exact date of publication is pre-announced at least a month in advance with the month published a year ahead in the previous publication.

This publication includes details of the children within families claiming Child Benefit as at 31st August 2009 by local authority.

Previously and up until April 2003, Child Benefit was administered by the Department of Social Security (now the Department for Work and Pensions), statistics for previous years are available on the DWP website:

<http://research.dwp.gov.uk/asd/cb.asp>

We also aim to publish more detailed small area statistics for Great Britain, at Lower Layer Super Output Area (LSOA) for England and Wales, and Data Zone for Scotland. These statistics are based on the same source data and totals for higher level geographies will match up. The timescales for producing the small area data are longer and therefore the statistics won't be available until some time after the National Statistics release of these statistics. Currently the small area data is not badged as National Statistics and only appears on the Neighbourhood Statistics website.

Further geographical statistics, down to Lower Layer Super Output Area (LSOA) in England and Wales, Data Zones in Scotland and Output Areas in Northern Ireland are available from the following sites:

- [Office for National Statistics: Neighbourhood Statistics](#)
- [Scottish Government: Scottish Neighbourhood Statistics](#)
- [Northern Ireland Statistics and Research Agency \(NISRA\): Northern Ireland Neighbourhood Information Service](#)

### **Who might be interested?**

The statistics contained in this publication will be of interest for anyone that is looking for the latest possible data on children. Specifically the number of children by individual age for each local authority. These statistics may be of interest to academics, think tanks as well as Local Government in terms of identifying specific child populations by age for schools entry analysis or wider issues such as comparing the statistics to comparable Tax Credits statistics.

The take-up rate of Child Benefit has held fairly constant over the past few years at around 96/97%, therefore the child population (up to 16) within Child Benefit is a useful proxy for the child population as a whole.

[For more information see the published take-up statistics on the HMRC website.](#)

### **What do the tables contain?**

At end-August 2009 there were 13.60 million children within and qualifying young people ("children"), in families receiving Child Benefit (CB). The figures cover backdated awards, and so include children from all awards now reckoned to have entitlement spanning that date.

## **User Engagement**

Bespoke analysis of Child Benefit data is possible although there may be a charge depending on the level of complexity and the resources required to produce. If you would like to discuss your requirements, to comment on the current publications, or for further information about the Child Benefit statistics please use the contact information at the beginning of this publication, or from the HMRC website:

[http://www.hmrc.gov.uk/stats/update\\_calendar/enquiry\\_2.htm](http://www.hmrc.gov.uk/stats/update_calendar/enquiry_2.htm)

We are committed to improving the official statistics we publish. We want to encourage and promote user engagement, so we can improve our statistical outputs.

We would welcome any views you have using the link to the feedback form below. We will undertake to review user comments on a quarterly basis and use this information to influence the development of our official statistics. We will summarise and publish user comments at regular intervals.

<http://www.hmrc.gov.uk/stats/user-engagement.htm>

## **Explanation of the delay and future publications**

Following the Child Benefit data loss that occurred in November 2007, all feeds of Child Benefit administrative data were suspended pending a full review of data security and transfers. Historically Knowledge, Analysis and Intelligence (KAI - HMRC's analysis directorate) received two different feeds of Child Benefit data, a 5% sample on a quarterly basis that was used to produce the quarterly statistics, and two annual 100% extracts (August and November) that were used to produce the more detailed annual geographical estimates for August, both of these publications were suspended.

Our plans for future publications are to resurrect only the annual geographical publication, this is because of the time taken to process the data and produce the complete August dataset ready for analysis and publication. Also given the length of available time series from the quarterly publications, and the known seasonal effects, one detailed annual August publication should provide enough information.

This publication covers the delayed August 2009 publication and brings us up to date on the series. The next publication will be for statistics covering August 2010, this will be published in February 2011.

## **Rounding**

The figures have been independently rounded to the nearest 5. This can lead to components as shown not summing to totals as shown.

Table 1: No. of children at 31st August 2009 for whom Child Benefit is received in each local authority by their single year of age

## **Appendix A: Background Information**

### **Administrative Data**

The data refers to the number of families receiving Child Benefit (CB) (and their eligible dependents) and is derived from two 100% scans from the Child Benefit Computer System (CBCS).

The August 2009 data represents a snapshot at a point in time of all claimants and eligible dependents in England and Wales present on the CBCS at 31st August 2009 plus awards for new families and children made by 30th November 2009 and backdated (CB awards can be backdated for up to 3 months). It excludes a small number of cases that are held clerically.

As well as family counts, the number of children in the family and the age and gender of the children are also given. Counts are provided for Countries, Government Office Regions (GORs) and Local Authorities (LAs).

Although the information is collected for administrative purposes, the data is used for a variety of statistical purposes for example, child population estimations, by HM Revenue and Customs (HMRC), other government departments and relevant stakeholders.

### **Further information on Child Benefit**

Child Benefit (CB) was introduced in 1977. It replaced Family Allowance, which was a benefit payable to families with 2 or more children whereas CB includes all families with 1 child or more.

CB is designed to help with the extra costs of bringing up a child. It is a universal benefit payable to all parents/guardians in the United Kingdom. The benefit is not income related, is not taxable and is not based on National Insurance Contributions.

CB is payable to one parent or guardian of all children under 16 years of age other than children in local authority care, and subject to residence conditions. Detailed current eligibility conditions and rules for claiming CB are available from the HMRC website. There is a higher payment for the eldest child and a lower rate for each subsequent child. From 2006-07 new eligibility rules were introduced for families claiming in respect of young persons aged 16 to 19.

A further addition, Child Benefit (Lone Parent), was paid for the eldest or only child of a lone parent up until 1998. Since then, new lone parents are not entitled to this extra benefit. However, those who were in receipt of the Child Benefit (Lone Parent) before this time may continue to receive it.

CB is administered by HMRC (formerly Inland Revenue). Prior to April 2003 CB in England and Wales was administered by the Department of Work and Pensions (DWP).

Data are believed to be of a high standard as they are based on a scan of the computer systems used to administer and pay CB. If anyone attempts to wilfully supply false information, they may be liable to prosecution.

## **Definitions**

Child Benefit is paid to those responsible for children (aged under 16) or qualifying young people. The latter includes:

- a) those in full-time non-advanced education or (from April 2006) on certain approved vocational training courses and who are under 19, or are aged 19 and have been on the same course since their 19th birthdays. (Note: those reaching 19 up to 9 April 2006 ceased to qualify on their 19th birthdays);
- b) those entered for future external examinations, or are in the period between leaving education (or exams finishing) and the week containing the first Monday in September (or similar dates after Easter and in early January, if earlier), and are not in work (there are slight variations for Scotland);
- c) those aged under 18 who have moved directly from full-time education to being registered for work or training with the Careers service or with Connexions.

Full-time non-advanced education: Full-time education is more than 12 hours supervised study a week in normal term-time, not counting breaks for meals and homework.

Non-advanced is not above the Advanced Level of the General Certificate of Education (GCE A-Level) or the Advanced Higher Grade and Higher Grade of the Scottish Certificate of Education (SCE Advanced Highers/Highers) or SCOTVEC National Certificate/Diploma (ONC/OND) or GNVQ level 3 or equivalent.

## **Validation and quality assurance processes**

Child Benefit data is extracted directly from the Child Benefit Computer System (CBCS) and sent securely and electronically to HMRC. Throughout the transfer process accompanying header and footer records ensure that no records go missing during the extraction process.

When the data is loaded into HMRC's computer environment additional checks are put in place to ensure duplicate records are removed. A further suite of quality assurance takes place to ensure consistent numbers of claimants and children are in receipt of child benefit compared with previous data.

Finally the data is cross checked against other administrative sources, notably registrations of new born children and population estimates compiled by the Office for National Statistics. Quality assurance is carried out at the UK, country, region and local authority level.

## **Coverage and compilation of the figures**

The tables are based on an extract from the Child Benefit Computer System taken on 31st August 2009 and supplemented with additional cases as identified from a further extract on 30th November 2009. This identifies new claims that started between 31st August 2009 and 30th November but are in relation to a child born prior to 31st August 2009.

## **Geographical allocation**

For August 2009, we have remained with the process introduced for August 2007. In publications prior to August 2007 the postcode on the Child Benefit computer system was used wherever possible and, where missing or invalid, was supplemented with postcodes from the previous year.

Due to the increasing demand for low level geographical analysis, greater scrutiny is required when comparing information across different administrative systems. In respect of Child Benefit, as a significant proportion of CB claimants also claim tax credits, it is essential that everything is done to ensure that a family is treated equally within both systems and both sets of small area statistics. From August 2007 we have individually matched the Child Benefit and tax credits data together and in the event that there is a discrepancy we have used the postcode as recorded on the tax credits system in the first instance, and then the postcode as recorded on the Child Benefit system.

At national level this does not have a huge effect, and even down to Local Authority or Parliamentary Constituency level the effect is minimal, but with the increasing demand for very small area statistics, such as Lower-layer Super Output Area (LSOA) and Data Zone (the Scottish equivalent of LSOA), we have done everything we can to ensure that where a family appears in both systems, for the statistics we will be assigning them the same geographical details.

Once the postcode had been identified, the geographical details were obtained from the August 2009 National Statistics Postcode Directory, which reflects geographies and administrative boundaries that were live as at August 2009 and includes the Local Authority changes that were introduced in April 2009.

## Appendix B: Rates of Child Benefit, 1992 to 2009

	<b>£ per week</b>		
	Eldest child	Subsequent children	Lone parent <sup>1</sup>
April 1992	9.65	7.80	15.50
April 1993	10.00	8.10	16.05
April 1994	10.20	8.25	16.35
April 1995	10.40	8.45	16.70
April 1996	10.80	8.80	17.10
April 1997	11.05	9.00	17.10
April 1998	11.45	9.30	17.10
April 1999	14.40	9.60	17.10
April 2000	15.00	10.00	17.55
April 2001	15.50	10.35	17.55
April 2002	15.75	10.55	17.55
April 2003	16.05	10.75	17.55
April 2004	16.50	11.05	17.55
April 2005	17.00	11.40	17.55
April 2006	17.45	11.70	17.55
April 2007	18.10	12.10	-
April 2008	18.80	12.55	-
January 2009	20.00	13.20	-

### **Notes:**

<sup>1</sup> This was payable instead of the standard eldest child rate to most people bringing up children on their own until 6 July 1998. From that date it has continued to be payable to recipients at that date. It is also payable to lone parents who were receiving the lone parent rate of family premium in Income Support or Jobseekers' Allowance and move into work; and lone parents ceasing to receive a "specified" benefit (Child's Special Allowance for the eldest dependent child; the higher rate of Industrial Death Benefit for the child; or an increase for the eldest dependent child with either Widowed Mother's Allowance, War Widow's Pension, Retirement Pension, Industrial Disablement Pension - which includes Unemployability Supplement - or Invalid Care Allowance). In April 2007, this transitionally protected rate of Child Benefit for lone parents was extinguished when the standard rate for the first eldest child increased to £18.10 per week.
