

Annex B: Hadlow Rural Community School Impact Assessment

School name	School type	Capacity	Attainment in 2010/11	Ofsted grade	Impact rating
Hugh Christie Technology College	11-18 Foundation with mixed intake.	1242. Surplus of 6%. Undersubscribed for entry in 2011/12.	47% 5A*-C inc. English and maths. Well below national average of 58%.	Satisfactory	Moderate. Poor results and an existing surplus could mean that the free school has a high impact. However, the school has a specialist technology (vastly different from the focus on rural studies proposed at the Free School) and is not expected to lose significant numbers to the free school. The free school may affect the long term viability of this school.
