

Regional / country data

This table provides an indication of the number of people in each region who may be eligible for the Warm Home Discount through their claiming of Pension Credit. Due to the differing criteria of the energy suppliers, it is not possible to provide regional estimates of the additional (non-Pension Credit claiming) customers who will also be eligible.

Table notes

1. The data series is of Pension Credit customers who are potentially eligible for a Warm Home Discount and not actual volumes.
2. Caseload volumes may differ. The Pension Credit data series is from Feb 14, whereas the Warm Home Discount qualifying date is July 14.
3. A customer may not be entitled to the Warm Home Discount if they do not get their electricity from a participating energy supplier or the customer's name is not on the energy bill.
