

08 August 2013

# Cereals usage by Millers, Brewers, Distillers and Maltsters & Distillers UK - June 2013

This statistical release contains information on the use of cereal grain, flour production and stocks of cereal by these cereal processors on a monthly and crop year basis (July to June) and includes use of wheat for starch and bioethanol production. The Oatmeal Millers data is now collected and reported on a quarterly basis.

The results for the usage of wheat, barley and brewers and maltsters are released monthly and will next be updated at 9:30am on 05 September 2013.

The Oatmillers survey will be updated quarterly, the next update will be at 09:30 on 5th Sep 2013.

#### **Contents**

## Wheat Usage Statistics

Flour milling including production of starch and bioethanol Page 2 Brewing, malting and distilling industry Page 3 Wheat usage charts Pages 5 & 6 Barley Usage Statistics Brewing, malting and distilling industry Page 3 Barley usage charts Page 7 Oats Úsage Statistics Oatmeal milling industry and usage chart Page 4 Methodology, notes and revisions policy Page 8

#### Key Points for Wheat & Barley in June 2013 compared with June 2012:

# Wheat Usage:

- The total amount of wheat milled was 588 thousand tonnes, up 5%.
- The total amount of home grown wheat milled was 363 thousand tonnes, down 27%.
- The total amount of imported wheat milled was 225 thousand tonnes, up 272%. The poorer quality 2012 UK crop has meant greater use of imported wheat.
- Brewers, maltsters and distillers total wheat usage was 79 thousand tonnes, up 16%.

## Barley Usage:

• Brewers, maltsters and distillers total barley usage was 160 thousand tonnes, up 3%.

## Key Points for Oats usage in January to March 2013 compared with January to March 2012 :

• The total amount of oats milled was 129 thousand tonnes, up 4%.

#### **Data, Notes and Revisions**

**Oats**: Please note April - June 2013 data will now be published on 5th September 2013. Figures for total milled and closing stocks incorporate DEFRA estimates which account for approximately 20% of total production and total oats milled. These and are subject to future revision.

This statistical notice includes final 2012 data for those smaller mills which are only surveyed annually (please refer to the methodology). This statistical notice includes revisions to previous months data.

The latest version of this notice and historic datasets are available at: https://www.gov.uk/government/publications/cereal-usage

## TOTAL WHEAT USAGE UK - June 2013

Table 4: Total wheat usage

Thousand Tonnes

	One-month period			Cro		
	2012	2013		2011/12	2012/13	
	5 weeks to	5 weeks to	%	52 weeks to	52 weeks to	%
	30 June 2012	29 June 2013	change	30 June 2012	29 June 2013	change
TOTAL WHEAT USAGE	625.5	667.0	+6.6	6617.1	7372.9	+11.4
of which: By millers	557.3	587.9	+5.5	5955.0	6578.8	+10.5
By brewers, maltsters and distillers	68.2	79.1	+15.9	662.1	794.1	+19.9
TOTAL WHEAT CLOSING STOCKS of which:	312.2	319.2	+2.2	312.2	319.2	+2.2
Held by millers	303.7	311.0	+2.4	303.7	311.0	+2.4
Held by brewers, maltsters and distillers	8.5	8.2	-3.3	8.5	8.2	-3.3

The crop year begins in July each year.

# BARLEY USAGE BY THE BREWING, DISTILLING AND MALTING INDUSTRY

**UK - June 2013** 

Table 5 : Total barley usage

**Thousand Tonnes** 

	One	-month period	Crop-year to date				
	2012			2011/12 2012/13		<del>,</del>	
	5 weeks to	5 weeks to	%	52 weeks to	52 weeks to	%	
	30 June 2012	29 June 2013	change	30 June 2012	29 June 2013	change	
TOTAL BARLEY USAGE	156.2	160.1	+2.5	1808.5	1821.8	+0.7	
of which:							
Used for malting	150.2	154.8	+3.0	1749.5	1764.8	+0.9	
Used as straight grain	6.0	5.4	-9.7	59.0	57.0	-3.5	
for brewing/distilling							
Sales of barley and barley screenings	5.3	4.3	-19.3	53.6	63.0	+17.5	
Closing Stocks	535.9	555.0	+3.6	535.9	555.0	+3.6	

The crop year begins in July each year.

There have been revisions made to historic annual data from 2008 to 2011.

# OATS USAGE BY THE OATMILLING INDUSTRY

UK Jan - Mar 2013

Table 6 : Oats milled

#### THIS TABLE HAS NOT BEEN UPDATED THIS MONTH, NEXT UPDATE 5 SEP 2013

Thousand Tonnes

	0	Cron wor to date					
	Qua	Quarterly period			Crop-year to date		
	2012	2013		2011/12	2012/13		
	13 weeks to	13 weeks to	%	39 weeks to	39 weeks to	%	
	31 March 2012	30 March 2013	change	31 March 2012	30 March 2013	change	
OATS							
Total Milled	123.7	128.6	+4.0	358.5	360.5	+0.6	
Gross Production of which:	78.9	75.2	-4.7	231.2	214.4	-7.3	
Oat Flakes & Rolled Oats	54.3	52.3	-3.7	155.2	144.8	-6.7	
Oat Flour & Other Cuts (including Groats)	24.7	23.0	-6.8	76.0	69.6	-8.5	
Closing Stocks	16.2	15.1	-7.0	16.2	15.1	-7.0	

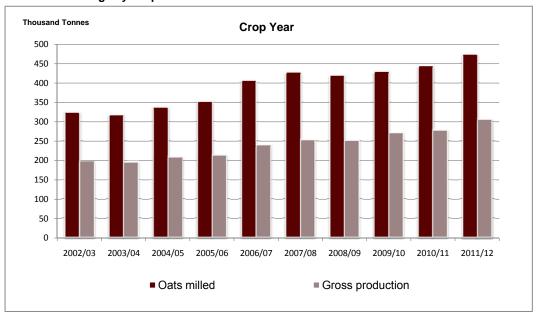

#### Please note:

Oats figures for total milled and closing stocks incorporate DEFRA estimates with the survey data and are subject to future revisions. **Notes** 

## The crop year begins in July each year.

The difference between oats milled and gross production is accounted for by losses in the production process and by-products.

# **CEREALS USAGE SURVEYS METHODOLOGIES**

## Methodologies, Notes and Revisions Policy

#### **User Statement**

The information in this notice is used by the UK government and the EU as evidence for assessing market conditions and evaluating agricultural policy. Other users include the food, feed and farming industry, academia and the general public. Contact details are available on the front page of this notice, for you to send feedback or ask questions about the information provided.

## **Statistical Release History**

This combined statistical release (previously published as separate statistical releases titled Wheat Milled and Flour Production, Cereal Usage by Brewers, Maltsters and Distillers and the Oatmeal Millers) shows usage and stocks statistics on a monthly basis for wheat, barley and quaterly for oats. Historical data can be viwed in the online dataset, along with the most recently published statistical release through the following link: <a href="https://www.gov.uk/government/publications/cereal-usage">https://www.gov.uk/government/publications/cereal-usage</a>

## **Survey Methodologies**

These compulsory surveys, the Wheat Milled and Flour Production, the Cereal Usage by the Brewers, Maltsters and Distillers and the Oatmeal Millers collect data under the Statistics of Trade Act 1947. The data reported in this statistical release are from survey returns of all of the major users of wheat, barley and oats in the UK.

Companies for the Wheat Milled and Flour Production and the Cereal Usage by the Brewers, Maltsters and Distillers are contacted monthly or annually and their usage, stock and sales statistics are recorded. Most companies are sampled monthly, but smaller companies are sampled annually. Estimates for the smaller companies that are not part of the monthly survey are made and included in the published figures. This reduces the chance of a large change in the crop-year to date totals when the actual annual returns are incorporated into the data. For both the Brewers, Maltsters and Distillers and the Wheat Milled and Flour Production Surveys the smaller companies account for less than 5% of the total production.

Companies for the Oatmeal Millers survey are contacted quaterly and data are published quaterly. All known companies are sampled quarterly.

Totals for the current crop year to date are shown (July to June) as well as for the most recent month.

# **Accuracy and Reliability of the Results**

The accuracy of the survey results is very high because a census is carried out of all companies and the typical response rate is 100% per year. However in a particular month it is possible that estimates for a small number of individual companies may need to be used which will be subsequently revised when actual data are received. Occasionally data is not published when it fails strict disclosure and dominance checks. This ensures that statistics cannot be traced back to a particular company. For the Wheat Milled and Flour Production Survey, since October 1999, self raising flour has only been used by a minority of companies so is no longer displayed. For the Cereals Usage by the Brewers, Maltsters and Distillers, maize has only been used by a small number of companies and therefore has not been published. The data are subject to a variety of validation checks which identify any inconsistencies in the data. These would then be verified with the relevant survey respondent and any figures would be amended prior to publication.

# **Revisions Policy**

Figures in this notice are provisional and subject to revision. We will provide information about any revisions we make to previously published information in this statistics notice, and the associated datasets. Revisions could occur for various reasons, including:

- a. if we have not received survey data from respondents we make an estimate based on their previous returns applying any particular trend in the data, as appropriate. These estimates will be replaced with actual survey data when it is received.
- b. when survey respondents occasionally supply amended figures for previous periods.
- c. revising previous estimated data for smaller companies with actual survey data on an annual basis.
