

ESF Programme Summary – Skills Support for the Unemployed in London

Overview

The purpose of this provision is to ensure that capacity is in place to provide skills support to unemployed individuals across the four Jobcentre Plus districts in London, who are looking for work but face a skills barrier to entering the labour market.

Training and Skills which may include regulated units and qualifications in the training offer in order that individuals can build upon these, once in employment. However, the training must respond to an individual's skills needs and all support must be delivered in the context of a personalised skills training programme whose objective is to secure a job outcome.

Eligible learners are aged 19 or over, must be unemployed; residing in the district area; looking for work, and require skills training to help them enter work.

All of these contracts will end by 31 July 2015.
