## **Preface**

I am pleased to present my report on the Social Fund for 2013/14.

The year saw significant changes for the Social Fund. As a result of this Government's reforms, complex and poorly targeted Community Care Grants and Crisis Loans ceased to exist from 1 April 2013 and instead we saw the introduction of a more efficiently directed and locally managed welfare provision. This has been delivered through local authorities in England and the devolved administrations in Scotland and Wales. My officials have worked closely all year with representatives from local authorities and the devolved administrations to support the successful implementation of these new services. The early evidence suggests local authorities and the devolved administrations are developing innovative programmes to tailor this support to the specific needs of their communities.

The Social Fund continues to help people and families on low income with certain one-off or occasional expenses, as well as acting as a source of affordable credit for the financially excluded. These reforms, along with ongoing improvements to the other parts of the Social Fund, will also support the Government's aim of improving financial responsibility – leading more people to be able to manage their money and to plan ahead.

**The Rt Hon Iain Duncan Smith MP**  
**Secretary of State for Work and Pensions**

## Annual Report by the Secretary of State for Work and Pensions on the Social Fund 2013/14

# 1. Introduction

- 1.1** This is the 26th annual report to Parliament on the operation of the Social Fund for Great Britain required to be laid by sections 167(5) and (6) of the Social Security Administration Act 1992.
- 1.2** The Social Fund scheme includes a regulated scheme made up of Maternity, Funeral Expenses, Cold Weather and Winter Fuel Payments, and a discretionary scheme comprised of Budgeting Loans.

### Source of data for this report

- 1.3** The figures in this report, unless stated otherwise, are taken from the Department of Work and Pension's Social Fund Policy, Budget and Management Information System and from scans of the Social Fund Computer System<sup>1</sup>. Together these data sources record details of every individual application, subsequent payment decision and any outstanding repayment record. They also provide useful comparative data for policy purposes such as average awards, what needs they cover and how various client groups are using the Fund. These comparisons are shown in the annexes to this report.

---

<sup>1</sup> There is also a statutory requirement to produce a Social Fund White Paper Account. Current arrangements are that this is laid in Parliament separately. <sup>2</sup> <http://www.Department for Work and Pensions.gov.uk/local-authority-staff/social-fund-reform/> <sup>3</sup> The figures in this report, unless otherwise stated, do not include clerical cases that have not yet been built onto the Social Fund Computer System.

## 2. The Regulated Social Fund

### Sure Start Maternity Grants

- 2.1** The Sure Start Maternity Grant (SSMG) is a payment of £500 to provide important help for families with the costs of a new baby (or babies in the event of a multiple birth) if there are no other children under 16 in the claimant's family. The grant is available to recipients, and partners of recipients, of a qualifying benefit or tax credit. For claims in 2013/14 these are: Income Support (IS), income-related Employment and Support Allowance (ESA(IB)), income-based Jobseeker's Allowance (JSA(IB)), Universal Credit, Pension Credit (PC), Child Tax Credit (CTC) (at a rate higher than the family element), or Working Tax Credit (which includes a disability or a severe disability element).
- 2.2** SSMG is also available for the additional children of subsequent multiple births, even though there may already be a child under 16 in the family. This policy change recognises that help is needed with the costs for all but one of the additional children of a subsequent multiple birth. For example, where the birth of twins follows a previous single birth, an SSMG can now be paid to help with costs of the additional child.
- 2.3** Under Universal Credit, polygamous marriages will not be recognised and second or subsequent wives will be required to make their own claim as either single people or lone parents where children are involved. The Social Fund Maternity and Funeral Expense (General) Regulations 2005 have been amended from April 2013 to follow this rule for recipients of Universal Credit.
- 2.4** In 2013/14 over 73,000 SSMG awards were made worth £36.9 million. SSMG statistics are in Annexes 1, 2 and 10.

### Funeral Expenses Payments

- 2.5** The Funeral Expenses Payment scheme continues to provide help towards a simple, respectful, low-cost funeral. Payments are made to a person responsible for funeral costs who is in receipt of (or whose partner is in receipt of) a qualifying benefit or tax credit. In 2013/14 the qualifying benefits and tax credits are the same as for the SSMG (see paragraph 2.1 above), but with the addition of Housing Benefit. Any payments made towards the funeral costs are recoverable from the estate of the deceased, if there are sufficient funds.
- 2.6** Under Universal Credit, as with SSMGs, polygamous marriages will not be recognised and second or subsequent wives will be required to make their own claim as either single people, or lone parents where children are involved. The Social Fund Maternity and Funeral Expense (General) Regulations 2005 have been amended from April 2013 to follow this rule for recipients of Universal Credit.
- 2.7** In 2013/14, over 33,000 awards were made for Funeral Expenses Payments (FEPs) worth £44.7 million.
- 2.8** The Department for Work and Pension's Bereavement Service continues to provide a telephone service for those claiming a Funeral Expenses Payment or people reporting the death of a Department for Work and Pensions benefit recipient. Funeral Expenses Payment claims may also be made by completing and submitting the official Funeral Expenses Payment claim form.
- 2.9** Funeral Expenses Payment statistics are in Annexes 1, 2 and 10.

## Cold Weather Payments

**2.10** Cold Weather Payments (CWPs) provide help with additional costs of heating during periods of severe weather. Every residential postcode in Great Britain is linked to one of the weather stations used in the scheme. A payment is made to someone when the average temperature has been recorded as, or is forecast to be, 0°C or below over seven consecutive days at the weather station linked to their postcode.

**2.11** In 2013/14 eligible recipients of a CWP are:

Benefit in payment	Qualifying conditions for a Cold Weather Payment
Pension Credit	Entitled to a CWP.
Income Support (IS)	Entitled to a CWP if they receive a disability premium, a severe disability premium, any one of the pensioner premiums, a child disability premium within IS or Child Tax Credit (CTC) or they have a child under five years old.
Income-based Jobseeker's Allowance (JSA(IB))	Entitled to a CWP if they receive a disability premium, a severe disability premium, any one of the pensioner premiums, a child disability premium within JSA(IB) or CTC or they have child under five years old.
Income-related Employment Support Allowance (ESA(IR))	Entitled to a CWP if they receive the support component, the work-related activity component, a severe or enhanced disability premium, pensioner premium, or have a child who is disabled for whom they receive a disability premium within CTC or have a child under five years old.
Universal Credit	<p>Those entitled to a CWP under Universal Credit if they are:</p> <ul style="list-style-type: none"> <li>• not employed or self employed; and</li> <li>• they, or their partner, receive a limited capability for work element (with or without a work-related activity element); or</li> <li>• they receive the disabled child element within their assessment; or</li> <li>• have a child under five years old.</li> </ul> <p>Universal Credit recipients who are employed or self-employed will only be eligible for CWPs if they have a disabled child in the family.</p>

**2.12** In November 2010 the Chancellor of the Exchequer announced that the CWP rate would be increased to £25 for each qualifying period of cold weather for winter 2010/11 and subsequent winters for the duration of this administration. In 2013/14 due to the exceptionally mild weather an estimated 1,100 awards were made worth £0.03 million.

- 2.13** The annual review of the CWP scheme took place in the summer of 2013. The review included: an assessment of the continuing availability of the weather stations used to provide temperature data for the scheme; whether any new stations were more suitable or should be introduced in addition to those that were currently being used; and the impact on weather station linkages of changes to the postcode system by the Royal Mail.
- 2.14** As a result of the review, the number of weather stations used in the scheme stayed at 92 in 2013/14. Rostherne weather station was upgraded to a permanent site; Church Fenton was removed as an alternative station for Linton on Ouse and replaced with Brampton. In addition, on the recommendation of the Meteorological Office, Woodford weather station was no longer used as part of the CWP scheme. The postcodes that were linked to Woodford were reassigned to Rostherne weather station.
- 2.15** Representations from Members of Parliament about the suitability of individual weather stations or their links with particular postcode districts were also carefully considered. These were taken into account for the 2014/15 CWP season.
- 2.16** CWP statistics are in Annexes 1 and 3.

### **Winter Fuel Payments**

- 2.17** Winter Fuel Payments help older people to meet heating costs. They are tax free and do not affect entitlement to social security benefits.
- 2.18** In 2013/14, Winter Fuel Payments were made to 12.59 million older people in approximately nine million households at a cost of around £2.124 billion.
- 2.19** Households with someone who had reached State Pension age for women received £200 and households with someone aged 80 or over received £300.
- 2.20** Most people who had reached the State Pension age for women in 2013/14 and who were normally living in Great Britain were eligible for the Winter Fuel Payment. Winter Fuel Payments are paid to people residing in another European Economic Area country or Switzerland, as long as they have a genuine and sufficient link with the UK. The qualifying week for winter 2013/14 payments was the week beginning 16 September 2013.
- 2.21** Over 95 per cent of payments were made automatically before Christmas 2013 without the need to claim. However, newly eligible people needed to make a claim if they were not receiving a Social Security benefit (or receiving only Housing Benefit, Council Tax Reduction, Child Benefit, or Universal Credit as a member of a couple) during the qualifying week.

## 3. The Discretionary Social Fund

### Budgeting Loans

- 3.1** Budgeting Loans (BLs) are interest-free loans which are repayable from benefit awards. They are designed to help people who have been in receipt of a qualifying benefit for at least six months, with intermittent expenses that are considered difficult to budget for. The qualifying benefits are: Income Support (IS), income-related Employment and Support Allowance (ESA(IB)), income-based Jobseeker's Allowance (JSA(IB)), and Pension Credit (PC).
- 3.2** In 2013/14 over 1.02 million awards were made to applicants in the form of BLs, worth £416.3million.
- 3.3** There is a single, nationally managed loans budget. This budget is controlled and managed at a national level to ensure that all BL applicants in the same circumstances are treated in a similar way with no regional variations. From April 2013, this budget has been funded solely from recoveries without any additional Annually Managed Expenditure allocations.
- 3.4** Since 8 May 2012 all eligible BL applicants are able to get an award for maternity or funeral expenses. This facility is available whether or not an eligible person is entitled to an SSMG or a Funeral Expenses Payment from the regulated Social Fund.
- 3.5** The BL scheme will remain in place for applicants in receipt of existing income related benefits until they migrate to Universal Credit (at which point they may be eligible for a Budgeting Advance). There will be no change to how BLs are to be delivered.
- 3.6** BL statistics are in Annexes 1, 4, 5, 6, 7, 8 and 9.

## 4. Welfare Reforms

### Reform of the Discretionary Social Fund

#### Changes from 1 April 2013

- 4.1** The Welfare Reform Act 2012 contained provisions to abolish parts of the current system of discretionary Social Fund payments from 1 April 2013. These changes paved the way for the introduction of locally based welfare provision delivered by local authorities in England and the devolved administrations in Scotland and Wales; national welfare provision in the form of advances of benefit delivered by Department for Work and Pensions to replace Crisis Loan alignment payments for those awaiting first payment of benefit; and national welfare provision in the form of advances of benefit delivered by the Department for Work and Pensions to replace Budgeting Loans (BLs) for those migrated to Universal Credit.

#### Budgeting Loans

- 4.2** The present BL scheme will remain in place until full rollout of Universal Credit to help those still receiving the current income-related benefits. More information on the reforms can be found on the Department for Work and Pensions website.

#### Funeral Expenses Payments

- 4.3** Arrears of the deceased's benefit are no longer treated as assets to be deducted from a Funeral Expenses Payment award. This is due to the fact that many people taking responsibility for funeral costs in the future may not get any help at all. There is also a danger that under Universal Credit the arrears of benefit on death may be so great as to extinguish a Funeral Expenses Payment award altogether. This will help to ensure that help continues to be available and targeted to those where the need is greatest.

#### Cold Weather Payments

- 4.4** The Cold Weather Payment (CWP) scheme has been extended from April 2013 to allow Universal Credit to act as an initial gateway to eligibility.
- 4.5** To ensure that the underlying principles behind the scheme continue to apply, i.e. that additional support is given to help the most vulnerable with the extra costs associated with heating the home during severe weather periods, a further qualifying criterion has been introduced for recipients of Universal Credit, allowing access only to those with zero earnings (i.e. not in employment or gainful self-employment). An exception to this criterion, however, has been made for families with a disabled child.
- 4.6** To summarise, those eligible for a CWP under Universal Credit are those who are:
- not employed or self-employed; and
  - they or their partner receive either a limited capability for work element or a limited capability for work element with a work-related activity element; or
  - receive a disabled child element within their assessment; or
  - have a child under the age of five years in the family.

## **Annual Report by the Secretary of State for Work and Pensions on the Social Fund 2013/14**

- 4.7** Universal Credit recipients who are employed or self-employed will only be eligible for CWP's if they have a disabled child or qualifying young person in the family.
- 4.8** These changes came into force for the start of the 2013/14 winter period on 1 November 2013.

### **Winter Fuel Payments**

- 4.9** There are no current plans for any changes to the Winter Fuel Payment for 2014.

## 5. General administration

- 5.1** In 2013/14 the Social Fund continued to be delivered via Department for Work and Pensions operations – a network of Benefit Delivery Centres, Contact Centres and local Jobcentre Plus frontline offices. This included a dedicated national telephone service to deal with Social Fund enquiries.
- 5.2** The normal method of applying for Funeral Expenses Payments (FEPs), Sure Start Maternity Grants (SSMG) and Budgeting Loans (BLs) is in writing. The Department for Work and Pension's Bereavement Service, however, takes FEP claims over the telephone when a potential FEP recipient prefers this to making a written claim.

### Reviews

- 5.3** A discretionary Social Fund applicant who is dissatisfied with the initial decision on their application may apply to have the decision reviewed. Consideration is given to whether the law (including the Secretary of State's Directions and Guidance) has been applied correctly and the case handled fairly and reasonably.
- 5.4** A reviewing officer within Jobcentre Plus carries out the first review and the outcome is notified to the applicant. In 2013/14, Jobcentre Plus dealt with over 29,200 applications for first review.
- 5.5** In 2013/14, applicants who remained dissatisfied were able to ask for a further review by the office of the Independent Case Examiner (ICE). In 2013/14, ICE reviewed 1,291 reviewing officer decisions.
- 5.6** The Social Fund Commissioner has reported separately on the standard of reviews carried out by Social Fund Inspectors. His final report was published on 24 June 2014.

### Performance management and improvement

- 5.7** The Social Fund Quality Assurance Framework (QAF) is an internal management tool for improving Social Fund decision-making standards. It was designed and developed in conjunction with the Independent Review Service. It provides a robust methodology to check the quality of decisions and is a mechanism for providing feedback and identifying individual training needs for operational staff. The Framework has been assured by the Department's Internal Audit.
- 5.8** The focus of the check has continued to be on areas with complex decision making. Checks were applied to 2.3 per cent of all Social Fund decisions. Overall QAF performance in 2013/14 has dipped to 85.4 per cent from 90.1 per cent in 2012/13. Whilst BL and SSMG accuracy has remained high, the overall accuracy level has been impacted by the FEP QAF results which dropped from 83.7 per cent in 2012/13 to 70.6 per cent in 2013/14. This is very much a reflection of the robust checking regime that has underpinned the centralisation of FEP work in to Balham.
- 5.9** From the outset of centralisation, staff at Balham have been supported through a Line Manager Assessment (LMA) Framework that has ensured the embedding of a quality ethos in all aspects of decision making. In turn, the most common errors found through the LMA process have been used to reposition and target QAF checking to those areas or individuals where error is most likely. Whilst this approach has resulted in an expected drop in QAF performance this year, it has actually improved quality and has contributed to the improved National Audit Office (NAO) regularity results for 2013/14.

## Annual Report by the Secretary of State for Work and Pensions on the Social Fund 2013/14

- 5.10** Overall, the 'most likely value error' on Social Fund has reduced from 45.63 million in 2011/12 to 2.41 million in 2013/14 (0.09% per cent error rate in 2013/14 compared to 0.68 per cent and 1.47 per cent for 2012/13 and 2011/12 respectively).
- 5.11** Significant investment in reviewing customer debt records has meant that the NAO debt qualification has been removed from the Social Fund Account. This, together with the removal of the regularity qualification last year due to the reduction in the 'most likely value of error', demonstrates the quality of decision making and the sound financial control of the Fund.

### Clearance standards

- 5.12** Clearance standards for the operational delivery sites for Social Fund, as well as overall national performance, are monitored against a comprehensive set of clearance standards (see table below). The table shows clearance against: the Average Actual Clearance Times (AACT) standard (column 3); the AACT standard plus two days (column 3); and the AACT standard plus five days (column 5).

(1) Average Actual Clearance Times (AACT) (working days)	(2) AACT Standard	(3) Achieved in 2013/14	(4) % Cleared within AACT Standard	(5) % Cleared within AACT Standard plus 2 days	(6) % Cleared within AACT Standard plus 5 days

## 6. Financial issues

### Background

- 6.1** Payments from the regulated Social Fund are based on eligibility and are not paid from a cash-limited budget. Regulations prescribe the circumstances and amounts that are payable.
- 6.2** National cash-limited budgets are allocated for Budgeting Loans.

### The 2013/14 discretionary Social Fund budget recoveries

- 6.3** Social Fund debt recovery has been centralised within Debt Management, aligning the treatment of debt for customers that are in receipt of benefit and those who are not.
- 6.4** In 2013/14 the Debt Management service received 1,963,898 new debt referrals via its automated Social Fund loan referral system.
- 6.5** £548.1 million was recovered through the repayment of loans.

### The 2013/14 Regulated Social Fund budget recoveries

- 6.6** £0.3 million of Funeral Expenses Payments was recovered from estates.
- 6.7** Details of recoveries are given in Annex 8.

## 7. Summary of financial performance

**7.1** In 2013/14 the Social Fund provided payments of just under £511 million, with an additional £2.124 billion of Winter Fuel Payments paid in Great Britain to 8.98 million households. In 2013/14, Winter Fuel Payments were payable to households that included someone who had reached the then State Pension age for women (of 61 years and 8 months, born on or before 5/1/1952).

**7.2** Compared to 2012/13 the 2013/14 figures show:

- Applications received for Budgeting Loans decreased by 11.6 per cent from 1,572,000 in 2012/13 to 1,389,000 in 2013/14.
- The proportion of Budgeting Loan decisions resulting in an initial award increased from 71.5 per cent in 2012/13 to 73.6 per cent in 2013/14.

**7.3** Gross expenditure on Budgeting Loans for 2013/14 was £415.7 million.

**7.4** Loan recoveries during the year were £548.1 million against a forecast of recovery of £559 million at the beginning of 2014/15. Recoveries provided 100 per cent of the funds needed to meet gross loans expenditure.

### **The 2013/14 Budgeting Loans budget**

**7.5** In April 2014, a single national Budgeting Loans budget of £377 million was allocated, which comprises entirely of loan recoveries.

### Key

SSMG = Sure Start Maternity Grant  
CWP = Cold Weather Payment  
FEP = Funeral Expenses Payment  
BL = Budgeting Loan  
CL = Crisis Loan  
N/A = Not Applicable

### Notes

1. Average SSMG award reflects multiple births.
2. There is no requirement to claim CWP.
3. The number of discretionary awards made after review is not included in the table. However, gross expenditure does include awards made after review, reconsideration or appeal.
4. For the regulated Social Fund, the method of calculating average awards is to divide gross expenditure by the number of awards (including those made after reconsideration or appeal).
5. For the discretionary Social Fund, the method of calculating average awards is to divide initial gross expenditure (excluding the value of review awards) by the number of initial awards.
6. The difference between applications received, initial decisions, awards and initial refusals, is due to: applications being withdrawn; applicants rejecting or not responding to loan offers; and, not decided at the time the count was made.
7. CWP figures are taken from Departmental records.
8. The CWP average award is the amount that is paid to each qualifying individual per trigger. Qualifying individuals can receive more than one payment during each CWP season.
9. Figures and percentages may not sum due to rounding.
10. The net expenditure of BLs is negative as total recoveries exceeded gross expenditure in 2013/14.

### **Notes**

1. There is no requirement to claim Cold Weather Payments.
2. A Cold Weather Payment is made to an eligible customer when the average temperature has been recorded as, or is forecast to be, 0°C or below over seven consecutive days at the weather station linked to the customer's postcode. When the temperature criterion is met, the weather station is said to trigger.
3. Cold Weather Payments are made to benefit units. A benefit unit can be a single person or a couple and can include children.
4. Cold Weather Payment figures are taken from Departmental records.
5. The number of eligible benefit units linked to each weather station is an estimate.
6. The number of payments and expenditure are estimates and do not include payments made clerically.
7. The number of eligible benefit units and payments made are rounded to the nearest 100.
8. The weather stations are mapped to parliamentary constituency by postcode.
9. The boundaries of weather station areas and parliamentary constituencies do not align exactly – different parts of each constituency may be covered by different weather stations.
10. Figures may not sum due to rounding.

**Notes**

1. Discretionary awards made after review are not included in the table. However, gross expenditure does include awards made after review, reconsideration or appeal.
2. The difference between applications received, initial decisions, awards and initial refusals, is due to: applications being withdrawn, applicants rejecting or not responding to loan offers and applications not decided at the time the count was made.
3. Figures are rounded to the nearest 100 and expenditure is shown in £ million.

## Client Groups and Applicant or Claimant Group definitions

### Client Groups

Social Fund payments are wide ranging from payments to help with intermittent unexpected expenses (mainly to those in receipt of qualifying benefits), to payments aimed at certain groups to help with particular events. The fund does not therefore fall exclusively into any one of the Departmental client groups of Children, Working Age and Older People, although Social Fund payments are either paid to, or benefit, all of these groups. Some statistics in this report are shown by applicant or claimant groups that fall into one or more of the wider client groups.

### Applicant or Claimant Group definitions

#### Pensioners

Includes:

- applicant or partner at minimum State Pension age or over with Pension Credit;
- applicant or partner at minimum State Pension age or over in receipt of State Retirement Pension.

Includes also where applicant is under minimum State Pension age and partner is:

- minimum State Pension age or over with Income Support (IS) pensioner premium;
- 80 or over with IS higher pensioner premium;
- minimum State Pension age to 79, disabled with IS higher pensioner premium.

#### Unemployed

Includes:

- unemployed or with training allowance.

#### Disabled

Includes:

- in receipt of Employment and Support Allowance;
- applicant or partner aged under minimum State Pension age with IS disability premium;
- lone parent with IS disability premium;
- family with IS disability premium;
- others with IS disability premium;
- in receipt of other benefit for incapacity or disablement.

## **Annual Report by the Secretary of State for Work and Pensions on the Social Fund 2013/14**

### **Lone parent**

Includes:

- person who has no partner and is receiving Income Support because they are responsible for a child.

### **Others**

Includes:

- others;
- involved in a trade dispute;
- in paid employment;
- not known or unallocated.

Note: It is possible that an applicant who is unemployed may receive a disability or pensioner premium. Such an applicant would be counted as unemployed.
