AUTHORIZED AMENDMENT

1. This NAA introduces a new regulation (RA1240) to govern the chartering of civilian aircraft for military purposes. The MOD has a requirement to charter civilian aircraft to supplement shortfalls in the availability of military aircraft. In doing so the MOD has a duty of care to ensure the appropriate safety assurances are met with respect to Risk to Life (RtL); therefore suitable measures are needed when selecting civilian chartered aircraft.
2. The MAA recognises that the Regulated Community requires time to fully implement the measures required to support compliance with the new regulation, although it is acknowledged that a great deal of preparatory work has already taken place. To allow time for this preparation RA1240 will not become effective until 30 Jun 14.
