School name	School type	Capacity	Attainment in 2013  KS2 (% achieving level 4 or above in reading, writing and mathematics)	Ofsted grade	Impact rating
St Vincent de Paul Catholic Primary School	Voluntary Aided School (3-11)  Roman Catholic  Mixed	210  30 places at entry point  3 surplus places	96%  Well above average	Outstanding  (May 2013)	<b>Minimal</b> - This school is 0.3 miles from the LIPA site. Impact is judged minimal. School results at St Vincent's are exceptional. In addition, the outstanding Ofsted report is likely to attract parents. There is currently a 1.4% surplus of places; however, this school is likely to be a prominent choice for local parents.
St Patrick's Catholic Primary School	Voluntary aided school (3-11)  Roman Catholic  Mixed	210  30 places at entry point  38 surplus places	79%  Above average	Outstanding  (Dec 2007)	<b>Minimal to Moderate</b> - This school is 0.4 miles from the LIPA site. Impact is judged minimal to moderate. School results at St Vincent's are above national averages. In addition, the outstanding Ofsted report is likely to attract parents. There is currently a surplus of 18% places in the school. This school is likely to be popular with local parents. However, the relatively small school capacity may make this school more sensitive to a

					reduction in numbers. Given the high number of primary schools within a small radius, impact should be minimal to moderate.
Pleasant Street Primary School	Community School (3-11)  No Faith  Mixed	210  30 places at entry point  23 surplus places	68%  Below average	Good  (July 2013)	<b>Minimal to Moderate</b> – This school is 0.5 miles from the LIPA site. Impact is judged minimal to moderate. This school currently has a surplus of 11% of places. This could increase due to competition for school places in an area of surplus. The Ofsted rating of good may go some way to mitigate the impact, however, school results are below the national average.
Windsor Community	Community School	186	84%	Outstanding	<b>Minimal</b> – This school is 0.5 miles from the LIPA site. The lower overall capacity of this
