Subject: FW: Packaging - appointment Q&A

Dear [REDACTED]

We spoke. I recommend that Sally explains to Cyril that the review will attract a lot of media and public interest so Cyril will want to be sure that there is nothing he has done or said about tobacco/standardised packaging which could suggest that he is not independent. The sorts of things he will want to consider are:

Does he already have known views on standardised packaging?

Does he have any links with the tobacco industry?

Does he have any links to those lobbying for or against standardised packs?

We stand ready to come over for any meeting with Sir Cyril Chantler.

Liz
