**Subject:** FW: Chantler Review - Information request

[REDACTED]

I'd be grateful for some help providing some information (via [REDACTED] see below )  
to Sir Cyril Chantler.

We have already given him hard copies of some of the main stakeholder consultation responses but for Japan International Tobacco, this only included their main response and not all the annexes which he is asking for

I have already suggested he look at the JTI website for their response to the consultation-

[http://www.jti.co.jp/corporate/enterprise/import/opinion/packaging\\_consultation/JTI\\_response.pdf](http://www.jti.co.jp/corporate/enterprise/import/opinion/packaging_consultation/JTI_response.pdf)

But I don't think this includes other reports to which they refer. We have a hard copy of their reply with all the annexes. Please can you copy these for [REDACTED] to pass on. –  
I'm putting them on your desk now.

Thanks

**Subject:** Chantler Review - Information request

Dear Tobacco Policy Team,

1. Thank you for the reading material provided to Sir Cyril to inform his proposed review on plain packaging. Please see attached a document listing a series of statements based on Sir Cyril's initial reading. I would be grateful for your view as to the accuracy of these statements; the main sources of information/ data that support (or indeed contradict) them, and any additional information you believe necessary for context/ full appreciation.

2. In addition Sir Cyril has some questions relating to the prevalence data supplied, namely:

- What is your explanation for the 2009 'hike' in smoking amongst 16-19 year olds (and is it statistically significant)?
- What is your explanation of the differences in the prevalence trend between the Integrated Household Survey and the General Lifestyle Survey over the period 2010 to 2012?

3. Finally, it would be helpful to be forwarded – if you are in possession of – any of the expert appraisals that underpin the consultation responses from the tobacco industry. In this connection Sir Cyril notes that he has a copy of the report authored by James J. Heckman.

Please let me know when you will be able to supply a response to the above. I would be particularly grateful if you were able to respond to the prevalence questions by close on Thursday please.

Thank you in anticipation.
