**Subject:** RE: Public enquiries about the Chantler review

Thanks [REDACTED].

I have attached the standard lines sent to the correspondence section for information, which make clear it is not a consultation and I hope covers your point below.

I think this pretty much covers the extent to which we can respond on issues relating to the commissioning of the review. We will refer anything on the way the review is set up etc on to you and of course you will want to establish lines relating to giving evidence for example as things progress.
