Hi [REDACTED]

I'm sure that you have had a busy few days this week with the below!

I was wondering if you could send me through DH's lines on the recent developments for use in correspondence.

Kind regards,

■

Subject: Announcement on standardised packaging for tobacco products

Dear colleague,

You may be interested to know that our Secretary of State for Health has made the following statement to Parliament today about standardised packaging of tobacco:

<http://www.parliament.uk/documents/commons-vote-office/November-2013/28%20November/7-Health-TobaccoControl.pdf>

The Government also intends to seek regulation-making powers from Parliament in the Children and Families Bill that is currently before Parliament to allow regulations to be made to introduce standardised tobacco packaging later, if the Government decides to proceed with this policy.

The Department of Health's press notice that was issued this morning might also be of interest:

<https://www.gov.uk/government/news/independent-review-of-standardised-packaging-for-tobacco>

Best wishes,

Department
of Health

Tobacco Programme Manager
