## Quarterly Location Statistics (QLS)

1 January 2015

This statistical release presents figures on the National and International locations of all UK Regular Forces Personnel and MOD civilian personnel.

The tables present information on the stationed location of all UK Regular service and civilian personnel by UK Unitary Authority and Local Authority Area, as well as all international global locations. Data is presented for each Service by Officer / Rank breakdown and for civilian personnel, non industrial / industrial breakdowns (including Trading Funds and Locally Engaged Civilians).

### Key Points and Trends

- At 1 January 2015, 90% of UK Regular Forces and 93% of MOD civilians excluding LEC personnel were stationed in the UK.
- The strength of UK Regular Forces stationed in the UK fell by 3,750 (2.6%) between 1 January 2014 and 1 January 2015 from 141,800 to 138,050. Over the same period, the number of UK civilian personnel decreased by 640 (1.2%) from 52,190 to 51,550.
- The strength of UK Regular Forces stationed overseas decreased from 18,500 to 15,800 (14.5%) between 1 January 2014 and 1 January 2015. Over the same period, the number of MOD civilian personnel based overseas decreased from 8,800 to 7,680 (12.7%).
- The number of UK Regular Forces personnel stationed in Germany continued to decrease from 13,300 to 10,550 (20.7%) between 1 January 2014 and 1 January 2015 in line with the announcement made during the Strategic Defence & Security Review (SDSR). Despite this decrease, Germany still has the second largest population of MOD personnel after the UK.

## Definitions and Notes to tables

### UK Regular Forces

Figures are for UK Regular Forces (including both Trained and Untrained personnel), and therefore exclude Gurkhas, Full Time Reserve Service personnel and mobilised reservists.

Royal Navy / Royal Marines personnel on sea service are included against the local authority containing the home port of their ship.

Royal Air Force Other Ranks serving in the South Atlantic are shown against the location containing their home base.

### MOD Civilian Personnel

Civilian figures are reported as Full Time Equivalent (FTE). FTE is a measure of the size of the workforce that takes account of the fact that some people work part-time. Part-time staff are counted according to the number of hours they work per week as a proportion of normal hours for their grade and location.

Section -1 civilian personnel total includes Royal Fleet Auxiliary (RFA). RFA civilian personnel cannot be identified by location as the data are not held centrally.

### Data Sources:

UK Regular Forces data are sourced from the Joint Personnel Administration (JPA) system. Location data are based on the stationed location of the individual as recorded in the 'Assignment Location' field of the JPA system. The figures are based on Service personnel's stationed location and not their location of residence - where personnel work isn't necessarily where they live. Personnel deployed on operations to an area away from their stationed location are shown against their most recent stationed location.

MOD civilian data are compiled from several sources:

- 1) Core MOD Personnel** - Data for core MOD personnel are taken from the personnel system - Human Resources Management System (HRMS). Defence Statistics use budgetary UINs and attribute people according to the budgetary area that pays them, using the Standing Data System hierarchy from Financial Management Information Systems.
- 2) Trading Funds** - Trading Funds were introduced by the Government under the Trading Funds Act 1973 as a 'means of financing trading operations of a government department which, hitherto, have been carried out on Vote'. They are self-accounting units that have greater freedom than other government departments in managing their own financial and management activities. They are also free to negotiate their own terms and conditions with their personnel and for this reason their grading structures do not always match that of the rest of the Ministry, and this is reflected in some of the tables. Currently the MOD has three Trading Funds - the Defence Support Group, DSTL and the UK Hydrographic Office. Until 1 October 2011, the Met Office also was reported on by the MOD, but as of 1 October 2011 their responsibility transferred to the Department for Business, Information and Skills (BIS).
- 3) Locally engaged civilians (LEC)** - LEC employees are recruited overseas exclusively for employment in support of the UK Armed Forces deployed in a particular overseas theatre and on terms and conditions of service applicable only to that overseas theatre or Administration. This includes the dependents of UK military personnel or UK-based civilian staff employed in overseas theatre (who are sometimes separately identified as UK Dependents). LECs are not civil servants. LEC data are provided by Top Level Budgetary areas quarterly to Defence Statistics requirements. LEC FTE strengths are based on the actual FTE of part-time LECs where available, and the FTE for those part-time personnel where actual values remain unavailable are estimated with the mean FTE of part-time LECs, increasing the accuracy of LEC FTE.

**4) The Royal Fleet Auxiliary (RFA)** - RFA data are now taken from the Magellan personnel system. Previously these data were taken from the CHIPS payroll system, but moving to the Magellan system allows total personnel numbers to be reported, rather than purely those being paid.

**Data Issues – Strengths/Weaknesses (Data Quality):**

1. All tables presented in this publication meet the high standards of quality and integrity demanded by the Code of Practice for Official Statistics.
2. As a result of improvements in the quality of data sourced from JPA and the monthly data validation processes, Defence Statistics consider all data from 1 November 2011 to be fit for purpose. Consequently strength data published from 1 November 2011 onwards are considered finalised and will no longer be marked as provisional.

Defence Statistics welcome feedback on our statistical products. If you have any comments or questions about this publication or about Defence statistics in general, you can contact us as follows:

**Symbols and Conventions**

**Symbols**

p	provisional
r	revised
rp	revised but still provisional
e	estimate
-	zero or rounded to zero

**Rounding**

Where rounding has been used, totals and sub-totals have been rounded separately and so may not equal the sums of their rounded parts. When rounding to the nearest 10, numbers ending in "5" have been rounded to the nearest multiple of 20 to prevent systematic bias.
