Table 1:	Gazetteer of heritage assets for Greatmoor Sidings	2
----------	--	---

1 Introduction

1.1.1 The cultural heritage appendices for the Proposed Scheme comprise:

- Volume 4.04: Environmental Statement Technical Appendix: Cultural heritage baseline report;
- Volume 4.05: Environmental Statement Technical Appendix: Gazetteer of heritage assets (this appendix);
- Volume 4.06: Environmental Statement Technical Appendix: Cultural Heritage Impact assessment; and
- Volume 4.07: Environmental Statement Technical Appendix: Remote Sensing Survey Summary Report.

1.1.2 Maps referred to throughout the cultural heritage appendices are shown on Map ES-11 to Map ES-14, in Volume 3 of this ES.

1.1.3 HS2 Main ES unique identification numbers refer to the heritage assets number given for the 2013 HS2 ES. 'WAD' unique identification numbers refer to assets identified within Community Forum Area 12; Waddesdon and Quainton¹; 'CAL' unique identification numbers refer to Community Forum Area 13; Calvert, Steeple Claydon, Twyford and Chetwode².

2 Gazetteer

Table 1: Gazetteer of heritage assets for Greatmoor Sidings

Unique ID	Map reference	Asset type	Name	Description	Period	Designation	Grade	Significance/ value	National Heritage List (NHL) reference	Historic Environment Record (HER) reference	HS2 main ES unique ID
GRS001	ES-13	Built heritage	Finemerehill House	Estate house dating to 1875, with an earlier core. Constructed with a timber frame and brick infills. The value of the asset is derived from its character as an example of a post-medieval vernacular residence. Its picturesque quality (an intended aspect of its design) contributes to this value. It is a locally prominent building, set within a rural agricultural landscape with open views. Its setting is considered to contribute to the asset's value. However, the presence of the Greatmoor EfW facility to the north west has diminished the view from the house over Aylesbury Vale, although the asset is still prominent in the surrounding landscape.	Post medieval	Listed building	II	Moderate	1117815	1150700000	WAD098
GRS002	ES-13	Built heritage	Doddershall House	Doddershall is a Grade II* listed country house, dating from the early 16th century (the south-east wing includes a 1689 datestone). It is constructed of a mix of red brick around a timber frame, and includes ornate interior decoration, including a 16th century frieze and 15th century tracery. The associated gatepiers and well head are Grade II listed. The value of the asset is derived from its character as a fine example late medieval and early post-medieval vernacular architecture. The building is relatively isolated, and is set in rural and agricultural landscape, although historically this formed part of the grounds of the house. These grounds include extensive earthworks of medieval date, including fishponds and evidence of a deserted medieval village. The asset's setting contributes to its value.	Medieval/post medieval	Listed building	II*	High	1117820	0034300000	WAD066
GRS003	ES-13	Built heritage	Lower Greatmoor Farm	A house with attached barn, forming a single structure. The building is timber-framed with brick infills and a thatched roof, of 17th century date. The asset's value is derived from its character as a typical vernacular post-medieval farmstead. Its setting within the wider rural and agricultural landscape makes a contribution to this value. However the construction of the Greatmoor EfW facility has degraded the setting of asset, as it has reduced the overall rural character of asset by its close proximity to the asset.	Post medieval	Listed building	II	Moderate	1124268	1168500000	WAD101
GRS004	ES-13	Built heritage	Pond Farmhouse	The core of the building is a 17th rubble stone farmhouse with a tiled roof, which has been subsequently extended in brick in the 18th and 19th centuries. The farmhouse is located to the north to the west of a farm track, which provides access to the public road to the north. It is situated immediately adjacent to Granary Cottage, and to the northwest of a small farm compound and former dairy. This collection of buildings is relatively isolated, surrounded by open fields and the small plantation of Shrubs Wood. The value of Pond Farmhouse is derived from its character as an example of a post-medieval vernacular farm building. Its immediate setting comprising the garden, adjacent cottage and farmyard places the building within its context as a working farm. In addition, the historic relationship between the farmhouse and the contemporary adjacent buildings (Granary Cottage and the Old Dairy) illustrates the development of the farm complex. The open fields around the buildings illustrate the traditional relationship between the farm and the rural landscape. Each of these aspects of the asset's setting contributes to its value.	Post medieval	Listed building	II	Moderate	1214849	1120400000	CAL012

Unique ID	Map reference	Asset type	Name	Description	Period	Designation	Grade	Significance/ value	National Heritage List (NHL) reference	Historic Environment Record (HER) reference	HS2 main ES unique ID
GRS005	ES-13	Built heritage	Muxwell Farmhouse	Muxwell House is a 17th century building around a timber frame, with brick infills and a thatched roof. The building is situated in a rural setting, which makes a contribution to the value of the asset.	Post medieval	Listed building	II	Moderate	1288460		WAD137
GRS006	ES-13	Built heritage	Well Head in Courtyard at Doddershall House	18th century well head. Ashlar. Circular with 2 shallow steps. 2 square piers, originally to support chain gear, with moulded cornices and ball finials. Listed due to its group value with Doddershall House.	Post medieval	Listed building	II	Moderate	1311394		WAD066
GRS007	ES-13	Built heritage	Gatepiers 60m north west of Doddershall House	Pair of gate piers. Early 19th century. Rendered brick. Square plan piers with moulded cornices and ball finials. Listed due to its group value with Doddershall House.	Post medieval	Listed building	II	Moderate	1319247		WAD066
GRS008	ES-13	Built heritage	Dry Leys Farmhouse	A single Grade II listed building of early 18th century date. This is a typical post-medieval vernacular farmhouse that remains closely associated with its agricultural surroundings. This setting makes a contribution to the asset's value.	Post medieval	Listed building	II	Moderate	1319271		WAD057
GRS009	ES-12	Built heritage	Railway underpass	An underpass of late 19th century date. The asset is considered to have some aesthetic, historical, architectural and archaeological interest. Its setting comprises associated extant historic railway infrastructure which contributes to its value.	Post medieval	N/A	N/A	Low	N/A	N/A	WAD082
GRS010	ES-12	Built heritage	Woodlands Farm	Woodlands Farm is recorded as Leewood Farm on 1st Edition OS mapping (1880). The asset is considered to be of some aesthetic, historical, architectural and archaeological interest. The rural agricultural setting makes a contribution to its value.	Post medieval	N/A	N/A	Low	N/A	N/A	WAD085
GRS011	ES-12	Built heritage	Railway bridge	Bridge constructed as part of the London Extension of the Great Central and of late 19th century date. The asset is considered to be of some aesthetic, historical, architectural and archaeological interest. Its setting comprises associated extant historic railway infrastructure which contributes to its value.	Post medieval	N/A	N/A	Low	N/A	N/A	WAD094
GRS012	ES-12	Built heritage	Railway bridge	Bridge constructed as part of the Grendon Underwood and Princes Risborough line and of late 19th century date. The asset is considered to be of some aesthetic, historical, architectural and archaeological interest. Its setting comprises associated extant historic railway infrastructure which contributes to its value.	Post medieval	N/A	N/A	Low	N/A	N/A	WAD095
GRS013	ES-12	Built heritage	Railway structure, possible points	Small feature recorded on historic mapping, possibly a points control. This asset is not considered to be of heritage value.	Post medieval	N/A	N/A	Negligible	N/A	N/A	WAD096

Unique ID	Map reference	Asset type	Name	Description	Period	Designation	Grade	Significance/value	National Heritage List (NHL) reference	Historic Environment Record (HER) reference	HS2 main ES unique ID
GRS014	ES-12	Archaeology	Earthworks located adjacent to Three Points Lane, near Finemerehill House	Possible location of a medieval hermitage, associated with the Grange at Shipton Lee, which is recorded in this area. Low earthworks are present at the junction of Three Points Lane, which may be the former hermitage. Although a further location for the hermitage has been suggested within Finemere Wood 500m to the south east. This asset may have some evidential interest inherent in the upstanding earthworks and potential buried archaeological remains which it may contain.	Medieval	N/A	N/A	Low	N/A	849700000	WAD099
GRS015	ES-12	Archaeology	Former farm buildings near Finemerehill House	Former farm buildings, no longer extant, potentially of post-medieval date. The value of this asset lies in the evidential interest inherent in the potential buried archaeological remains that the former farmstead may contain.	Post medieval	N/A	N/A	Low	N/A	N/A	WAD097
GRS016	ES-12	Archaeology	Buried archaeological remains north of Upper Greatmoor Farm	Post-medieval settlement remains were recorded during archaeological works to the north of Upper Greatmoor Farm, in advance of the construction of the Greatmoor EfW facility. These are considered to have no evidential interest and as such have no heritage value.	Post medieval	N/A	N/A	Negligible	N/A	0732800000	WAD114
GRS018	ES-12	Built heritage	Railway underpass	Underpass on the London Extension of the Great Centre, constructed in the late 19th century. The asset is considered to have some aesthetic, historical, architectural and archaeological interest. Its setting comprises associated extant historic railway infrastructure which contributes to its value.	Post medieval	N/A	N/A	Low	N/A	N/A	WAD103
GRS019	ES-12	Built heritage	London Extension of the Great Central Railway	The southern section opened as the Aylesbury and Buckingham Railway in 1868. The original course turned north past Quinton and is now dismantled. The London Extension was constructed in 1898 and continues in use up to Calvert. The railway is a non-designated asset and represents one of the last of the Victorian large-scale mainline engineering projects. Non-designated historic elements such as railway overbridges survive at intervals along its length and these, along with associated railway infrastructure are considered to be of some aesthetic, historical and architectural interest and contribute to the asset's value. Its setting within the landscape through which it passes does not contribute to its value.	Post medieval	N/A	N/A	Low	N/A	N/A	WAD018, CAL004
GRS020	ES-12	Built heritage	Former Grendon Underwood and Princes Risborough Railway	Former railway line, opened in 1906. As an unused local line of relatively recent date, this asset is considered to be of some aesthetic, historical and architectural interest. Now partly used as access road for Greatmoor EfW facility.	Modern	N/A	N/A	Low	N/A	579100000	WAD073
GRS021	ES-12	Archaeology	Undated earthwork near Lower Greatmoor.	Earthwork of unknown provenance recorded by Buckinghamshire HER. The asset has partly been removed by the extension of the Calvert brick pits in the mid to late 20th century. The asset may have potentially been used to dam up a stream.	Unknown	N/A	N/A	Low	N/A	24700000	WAD102
GRS022	ES-12	Archaeology	Putative location of watermill north of the River Ray	Approximate location of a medieval watermill. The putative location is based upon a documentary source, but it is not confirmed, and there is no evidence of such a feature on early Ordnance Survey maps. A possible curvilinear ditch was recorded by the recent remote sensing survey, but this may be a natural feature (Volume 5: Appendix 004-012, L11). This asset may have some evidential interest inherent in the potential buried archaeological remains which it may contain.	Medieval	N/A	N/A	Low	N/A	N/A	WAD083

Unique ID	Map reference	Asset type	Name	Description	Period	Designation	Grade	Significance/ value	National Heritage List (NHL) reference	Historic Environment Record (HER) reference	HS2 main ES unique ID
GRSo23	ES-12	Archaeology	Earthworks of unknown date adjacent to the River Ray	Unidentified earthworks noted during a site familiarisation survey. They are of unknown provenance. The asset may therefore have some evidential interest inherent in the potential for the survival of buried archaeological remains.	Undated	N/A	N/A	Low	N/A	N/A	WADo81
GRSo24	ES-12	Built heritage	Railway bridge near Lower Greatmoor	Railway bridge, constructed as part of the London Extension of the Great Central. The asset is considered to be of some aesthetic, historical, architectural and archaeological interest. Its setting comprises associated extant historic railway infrastructure which contributes to its value.	Post medieval	N/A	N/A	Low	N/A	N/A	WAD100
GRSo25		Archaeology	Former Calvert Brickworks Pits	Calvert brickworks was previously an extensive industrial site. This section was recorded on 1938 mapping, is now landfill. The asset is not considered to retain any evidential interest.	Modern	N/A	N/A	Low	N/A	N/A	CALo05
GRSo26		Archaeology	Buried archaeological remains west of Lower Greatmoor Farm	15th to 17th century settlement remains were recorded during archaeological works to the west of Lower Greatmoor Farm, in advance of the construction of the Greatmoor EFW facility.	Post medieval	N/A	N/A	Low	N/A	0732900000	N/A
GRSo27		Ancient woodland	Decoypond Wood	Ancient and semi-natural woodland. A surviving remnant of more extensive forest as part of the mosaic of other stands of surviving ancient woodland in the surrounding landscape. Its value lies in its potential for well-preserved archaeological remains of woodland management and industries typical of woodland such as wood banks, saw pits, quarries and small settlements. They can also preserve features of earlier periods. Earthwork remains of medieval decoypond survive within the wood. Setting is not a factor contributing to the asset's value because ancient woodland is nearly always a surviving fragment of a much larger, since lost landscape; hence the agricultural (or non-woodland) surrounds are rarely contemporary.	N/A	Ancient woodland	N/A	High	N/A	1108028	CALo01
GRSo28	ES-12 and ES-13	Ancient woodland	Doddershall Wood	Ancient and semi-natural woodland and ancient replanted woodland, formerly part of the Doddershall Estate. A surviving remnant of more extensive forest as part of the mosaic of other stands of surviving ancient woodland in the surrounding landscape. Its value lies in its potential for well-preserved archaeological remains of woodland management and industries typical of woodland such as wood banks, saw pits, quarries and small settlements. They can also preserve features of earlier periods. Setting is not a factor contributing to the asset's value because ancient woodland is nearly always a surviving fragment of a much larger, since lost landscape; hence the agricultural (or non-woodland) surrounds are rarely contemporary.	N/A	Ancient woodland	N/A	High	N/A	1108029	WADo87

Unique ID	Map reference	Asset type	Name	Description	Period	Designation	Grade	Significance/ value	National Heritage List (NHL) reference	Historic Environment Record (HER) reference	HS2 main ES unique ID
GRS029		Ancient woodland	Hewitt's Wood	<p>Ancient and semi-natural woodland. A surviving remnant of more extensive forest as part of the mosaic of other stands of surviving ancient woodland in the surrounding landscape. Its value lies in its potential for well-preserved archaeological remains of woodland management and industries typical of woodland such as wood banks, saw pits, quarries and small settlements. They can also preserve features of earlier periods.</p> <p>Setting is not a factor contributing to the asset's value because ancient woodland is nearly always a surviving fragment of a much larger, since lost landscape; hence the agricultural [or non-woodland] surrounds are rarely contemporary.</p>	N/A	Ancient woodland	N/A	High	N/A	1108082	WAD088
GRS030	ES-12 and ES-13	Ancient woodland	Finemere Wood (East)	<p>Ancient and semi-natural woodland and ancient replanted woodland, previously a part of the Royal Forest of Bernwood. A surviving remnant of more extensive forest as part of the mosaic of other stands of surviving ancient woodland in the surrounding landscape. Its value lies in its potential for well-preserved archaeological remains of woodland management and industries typical of woodland such as wood banks, saw pits, quarries and small settlements. They can also preserve features of earlier periods.</p> <p>Setting is not a factor contributing to the asset's value because ancient woodland is nearly always a surviving fragment of a much larger, since lost landscape; hence the agricultural [or non-woodland] surrounds are rarely contemporary.</p>	N/A	Ancient woodland	N/A	High	N/A	1418211, 1418209, 1418211, 1418210, 1418017, 1418208	WAD092
GRS031	ES-12 and ES-13	Ancient woodland	Finemere Wood (West)	<p>Ancient and semi-natural woodland and ancient replanted woodland, previously a part of the Royal Forest of Bernwood. A surviving remnant of more extensive forest as part of the mosaic of other stands of surviving ancient woodland in the surrounding landscape. Its value lies in its potential for well-preserved archaeological remains of woodland management and industries typical of woodland such as wood banks, saw pits, quarries and small settlements. They can also preserve features of earlier periods.</p> <p>Setting is not a factor contributing to the asset's value because ancient woodland is nearly always a surviving fragment of a much larger, since lost landscape; hence the agricultural [or non-woodland] surrounds are rarely contemporary.</p>	N/A	Ancient woodland	N/A	High	N/A	1418212, 1418213, 1418214, 1418216, 1418215	WAD093
GRS032	ES-12 and ES-13	Ancient woodland	Balmore Wood	<p>Ancient and semi-natural woodland and ancient replanted woodland, previously a part of the Royal Forest of Bernwood. A surviving remnant of more extensive forest as part of the mosaic of other stands of surviving ancient woodland in the surrounding landscape. Its value lies in its potential for well-preserved archaeological remains of woodland management and industries typical of woodland such as wood banks, saw pits, quarries and small settlements. They can also preserve features of earlier periods.</p> <p>Setting is not a factor contributing to the asset's value because ancient woodland is nearly always a surviving fragment of a much larger, since lost landscape; hence the agricultural [or non-woodland] surrounds are rarely contemporary.</p>	N/A	Ancient woodland	N/A	High	N/A	1108087	WAD106

Unique ID	Map reference	Asset type	Name	Description	Period	Designation	Grade	Significance/ value	National Heritage List (NHL) reference	Historic Environment Record (HER) reference	HS2 main ES unique ID
GRS033		Ancient woodland	Romer Wood	<p>Ancient and semi-natural woodland and ancient replanted woodland, previously a part of the Royal Forest of Bernwood. A surviving remnant of more extensive forest as part of the mosaic of other stands of surviving ancient woodland in the surrounding landscape. Its value lies in its potential for well-preserved archaeological remains of woodland management and industries typical of woodland such as wood banks, saw pits, quarries and small settlements. They can also preserve features of earlier periods.</p> <p>Setting is not a factor contributing to the asset's value because ancient woodland is nearly always a surviving fragment of a much larger, since lost landscape; hence the agricultural [or non-woodland] surrounds are rarely contemporary.</p>	N/A	Ancient woodland	N/A	High	N/A	1108087	WAD106
GRS034		Ancient woodland	Greatsea Wood	<p>Ancient and semi-natural woodland and ancient replanted woodland, previously a part of the Royal Forest of Bernwood. A surviving remnant of more extensive forest as part of the mosaic of other stands of surviving ancient woodland in the surrounding landscape. Its value lies in its potential for well-preserved archaeological remains of woodland management and industries typical of woodland such as wood banks, saw pits, quarries and small settlements. They can also preserve features of earlier periods.</p> <p>Setting is not a factor contributing to the asset's value because ancient woodland is nearly always a surviving fragment of a much larger, since lost landscape; hence the agricultural [or non-woodland] surrounds are rarely contemporary.</p>	N/A	Ancient woodland	N/A	High	N/A	1108087	WAD107
GRS035	ES-12 and ES-13	Ancient woodland	Sheephouse Wood	<p>Ancient and semi-natural woodland and ancient replanted woodland, previously a part of the Royal Forest of Bernwood. A surviving remnant of more extensive forest as part of the mosaic of other stands of surviving ancient woodland in the surrounding landscape. Its value lies in its potential for well-preserved archaeological remains of woodland management and industries typical of woodland such as wood banks, saw pits, quarries and small settlements. They can also preserve features of earlier periods.</p> <p>Setting is not a factor contributing to the asset's value because ancient woodland is nearly always a surviving fragment of a much larger, since lost landscape; hence the agricultural [or non-woodland] surrounds are rarely contemporary.</p>	N/A	Ancient woodland	N/A	High	N/A	1108081	WAD110

Unique ID	Map reference	Asset type	Name	Description	Period	Designation	Grade	Significance/ value	National Heritage List (NHL) reference	Historic Environment Record (HER) reference	HS2 main ES unique ID
GRS036		Ancient woodland	Shrubs Wood	<p>Ancient and semi-natural woodland and ancient replanted woodland, previously a part of the Royal Forest of Bernwood. A surviving remnant of more extensive forest as part of the mosaic of other stands of surviving ancient woodland in the surrounding landscape. Its value lies in its potential for well-preserved archaeological remains of woodland management and industries typical of woodland such as wood banks, saw pits, quarries and small settlements. They can also preserve features of earlier periods.</p> <p>Setting is not a factor contributing to the asset's value because ancient woodland is nearly always a surviving fragment of a much larger, since lost landscape; hence the agricultural [or non-woodland] surrounds are rarely contemporary.</p>	N/A	Ancient woodland	N/A	High	N/A	1108030	WAD111
GRS037		Historic landscape	Three Points Lane	Field lane depicted on early ordnance survey map, possible earlier foundations. Strong association with neighbouring ancient woodlands (GRS035 and GRS033).	Post medieval	N/A	N/A	Low	N/A	N/A	N/A
GRS038		Archaeology	Extant Ridge and Furrow, south of Knowlhill Farm and east of Sheephouse Wood	An area of extant of ridge and furrow earthworks located adjacent to Sheephouse Wood and Three Points Lane. The asset was identified during the walkover for the Proposed Scheme. The ridge and furrow was not identified during the HS2 Phase One ES due to its location outside of the Air photo/Lidar survey study area.	Medieval/post medieval	N/A	N/A	Low	N/A	N/A	N/A
GRS039		Archaeology / historic landscape	'Greatmoor' drove way	<p>Former droveway identified on ordnance survey map of 1813. The route linked the farmhouse at Finemere Hill (GRS001), Lower Greatmoor Farm (GRS003), the former farm buildings located between Lower Greatmoor and Finemere Hill (GRS015), the former post medieval settlement remains found in advance of construction of the Greatmoor EFW facility (GRS016), with the historic settlements at Quainton and Grendon Underwood.</p> <p>The droveway was partly removed by the construction of the railway in the late 19th century and by the Greatmoor EFW facility but elements survive as field boundaries within the land required for the construction of the Proposed Scheme.</p>	Post medieval	N/A	N/A	Low	N/A	N/A	N/A
