

Impact Assessment – Floreat Brentford Primary School

Current school capacity / surpluses

1. The table below details the potential impact on the 7 primary schools within a 0.9 mile radius (the average distance travelled by pupils to primary schools for the area). Surplus places at point of entry (POE) in 2013/14 are included in addition to surplus places covering all primary year groups.

School name	Type	Distance from FS (miles)	School Capacity (May 2014)	Number of surplus places (May 2014)	KS2 Attainment 2014 (% achieving Level 4 or above in reading, writing and maths)	Inspection rating	Impact Rating
St Paul's CofE Primary School	Voluntary Aided School	0.5	240	11 1 surplus place at POE	89%	Good (3 October 2012)	Minimal The school is in close proximity, however as a Good school with well above average attainment and low surplus places, the free school is unlikely to affect the long term viability of the school.
Marlborough Primary School	Community School	0.5	660	9 1 surplus place at POE	87%	Requires Improvement (10 May 2013)	Moderate As a Requires Improvement school in close proximity, the free school may have an impact in the short term. However, this potential impact may be reduced by the fact the attainment is above average and has increased steadily over the last three years.
The Smallberry Green Primary School	Community School	0.6	420	45 No surplus places at POE	80%	Good (8 February 2013)	Minimal This is a Good school with above average attainment. It has medium-high surplus places, but not at point of entry (Reception). The free school is unlikely to affect the long term viability of the school.
Our Lady and St John's RC Primary School	Voluntary Aided School	0.7	210	3 0 surplus	100%	Good (22 October 2014)	Minimal As a Good school with 100% attainment and very low surplus places, the free school is unlikely to affect the

				places at POE			long term viability of the school.
Nishkam School West London	Free Schools	0.7	1400	1312 Recently opened school - still filling up year groups 50 surplus places at POE	No KS2 data	No Ofsted grade	Moderate This is an all-through (4-19) school that opened in 2013. Although there is no attainment data available and there were 50 surplus places in 2013/14, it admits on the basis of faith. The free school is unlikely to affect the long term viability of the school by attracting pupils who would have attended.
Isleworth Town Primary School	Community School	0.8	630	6 No surplus places at POE	78%	Good (12 October 2012)	Minimal Attainment is below average, however it has increased by 10% since the previous year and has low surplus places despite being a reasonably large primary. The free school is unlikely to affect the long term viability of the school.
The Blue School CofE Primary	Voluntary Aided School	0.9	270	-10 No surplus places at POE	94%	Outstanding (14 May 2008)	Minimal This is an Outstanding school with well above average attainment. The school is also oversubscribed, therefore the free school is unlikely to affect the long term viability of the school.
