

Scientific Consultation: SACN Draft Vitamin D and Health Report

Bwrdd Cymru Statement 22rd September 2015:

In accordance with UK British Dietetic Association policy, Bwrdd Cymru (Wales Dietetic Board) represents, nationally in Wales, the interests of the profession and members to key stakeholders.

Bwrdd Cymru is recognized as the expert voice of nutrition and dietetics within Wales and identifies and leads on responding to opportunities for the profession which can influence key decisions and policy initiatives.

The membership of Bwrdd Cymru BDA includes contacts involved as part of a wider communication network. These members will also be involved in co-ordinating specific pieces of work including responses in accordance to the priorities and work plan of the Board.

Scientific Consultation: SACN Draft Vitamin D and Health Report

This extensive and comprehensive review takes an inclusive approach to formulating recommendations aimed at improving population and individual's health related to Vitamin D and muscular skeletal health needs and to possible links to other vitamin D related conditions.

In this instance Bwrdd Cymru defers to specialist Dietitians working in Wales to draft a response to this consultation. Bwrdd Cymru fully endorses and seconds the joint response from the groups Public Health Dietitians in Wales (PHDiW) and Wales Dietetic Leadership Advisory Group (WDLAG), to the SACN Draft Vitamin D and Health Report.

Caroline Bovey, Chairman Bwrdd Cymru (British Dietetic Association)

Joanna Instone, England and Wales Policy officer, British Dietetic Association
