Dear Mr Butcher

I write in response to your invitation to make a submission to your consultation on the NMW.

I am an employer of 12 staff including those with warehouse, office admin and driving responsibilities, which fall in the lower end of the pay scale.

I am fully in support of increasing the NMW substantially, which would improve the quality of life of thousands of households and also have the benefit of increasing consumer spending, helping to drive the economic recovery faster.

We have experienced many years of difficult economic conditions, but now is the time with an improving economy, to increase the real value of the NMW significantly for everyone's advantage and benefit.

Yours sincerely

Phil Boyman
