

Use this form

if a copy of form 5911A does not have sufficient space for your claims. The form provides additional space for answers to:

- question 12 and 20
- question 13, 14, 15, 21, 22 and 23
- question 17 and 25
- question 18 and 26
- question 19 and 27

When you use the form

you may use one or more copies of a page.

At the top of each page, there are two boxes (data fields). The left box is for the name of the litigator or the applicant in person. The right box is for the date of the application (the date beside the signature at 29.1 of form 5911A).

The next data field is a drop down list of some of the questions on form 5911A (except for **12** and **20**). Select the question which you will continue to answer with details of your claims.

Give details of your claims for the question that you select, only. If there is an option to answer another question on the same page and you want to do that, use another copy of the page.

You need only provide and, therefore, print the pages of this form that you use.

Application for legal costs from central funds

Continuations (of claims on form 5911A)

If you use one copy of a page from this form to complete an answer to a question, at the bottom of the page, enter:

- the total of the claims on the page
- the total of the claims for the question on form 5911A.

Then add the two figures to give a 'Total of all claims'. Enter that total in the Summary of claims at **28** of form 5911A.

You will not use the second total box ('Total of claims for the question on all other copies of form 5912A').

If you use more than one copy of a page from this form to complete an answer to a question, on the last page you use, enter:

- the total of the claims on the page
- the total of the claims for the question on all other copies of form 5912A
- the total of the claims for the question on form 5911A.

Then add the three figures to give a 'Total of all claims'. Enter that total in the Summary of claims at **28** of form 5911A.

To print a copy of a page of this form

right click on a bookmark in the left window and select 'Print page' from the list of options that shows. You may prefer to do this rather than print the whole form or change your printer settings.
