Cumbria flood action plan	Low Crosby & Crosby on Eden better protected		
Low Crosby & Crosby on Eden community action table The purpose of this action table is to highlight the flood management that is currently in place and the specific actions that are happening or proposed within the Cumbria flood action plan for this community. Please read this table in conjunction with the full Cumbria flood action plan and summary document, which can be found online by visiting <u>www.gov.uk</u> and searching Cumbria flood action plan.	<ol> <li>Do now (within next 12 months):         <ul> <li>Complete repair and recovery work</li> <li>Publish and review flood investigation report</li> <li>Complete appraisals of possible actions to manage</li> </ul> </li> <li>Develop (2-5 years):         <ul> <li>Take forward recommendations in the flood investig options to reduce flood risk</li> </ul> </li> </ol>		
Catchment: Eden Impact of December 2015 flood: Approximately 102 homes and businesses were flooded. Description: Low Crosby and Crosby on Eden are neighbouring villages to the northeast of Carlisle and stand on the north bank of the River Eden and Willow Beck	<ul> <li>Continue to support sharing knowledge and best pracommunity Action Groups</li> <li>3) Explore (5+ years): <ul> <li>Develop opportunities for natural flood risk manager feasible</li> </ul> </li> </ul>		

	What's already in place	What we're going to do and what this will achieve	When this work will take place	Who's responsible for this work	How much will it cost/ Sources of funding
Strengthening flood defences	The Environment Agency maintains sections of flood defence embankment that directly protects the village of Low Crosby.	Improved defences Review the recommendations from the Flood Investigation Report and National Resilience Review to develop integrated flood risk management solutions. Although there may be no funding identified in the currently consented Flood Defence Grant in Aid (FDGiA) Investment Programme, we have included this location in the current appraisal package and we will submit a bid for viable projects at the earliest opportunity, when funding becomes available.	Draft Flood Investigation Report published summer 2016	Environment Agency	
		Repairing damages from Storm Desmond Repair local damage to embankment. Clear silt and debris to restore channel capacity on Willow Beck.	Completed By winter 2016	Environment Agency	
		Modelling and forecasting post-event model re-runs Update the river level model with the most recent flow data available from Storm Desmond to develop and support any future schemes.	Short term (within next 12 months)	Environment Agency	£70,000 (Cumbria wide spend)

## ge flood risk

- igation report and identify possible
- practice through the network for
- gement and engineered storage where

	What's already in place	What we're going to do and what this will achieve	When this work will take place	
		Understanding Bridges Review the role that bridges play in flood risk and their vulnerability during a flood.	Short term – strategic review within the next 12 months	
Upstream management	Currently there is no use of upstream management approaches in the sub-catchments upstream of Lower Crosby and Crosby on Eden.	Explore opportunities for engineered and natural flood management solutions to be used upstream in order to 'slow the flow' and manage peak river levels.	Medium term (5 years) or long term (over 5 years)	
Maintenance	The Environment Agency maintains sections of flood defence embankment that directly protects the village of Low Crosby. The Environment Agency also monitor and maintain approximately 2.5km of ancillary embankment near to Low Crosby Village. This includes managing vegetation and channel capacity. The planned maintenance programme is available at:	The new Environment Agency system will make it easier for communities to understand maintenance in their area. Improvements will show exactly when, where and what maintenance is being planned each year. Make sure that communities understand how they can	Short (within next 12 months)	
	https://www.gov.uk/government/publications/river-and-coastal- maintenance-programme This year's scheduled maintenance will be completed by the end of the year.	access information on planned maintenance at: https://www.gov.uk/government/publications/river-and- coastal-maintenance-programme		
Resilience	An Emergency Plan has been developed with support from the Environment Agency. There is a flood action group in this location: Low Crosby Flood Action Group.	Work with communities to establish a network of Emergency Groups to share learning and best practice.	Emergency plan in place	
	Lower Crosby currently receives Flood Warnings with an uptake of nearly 81% of at risk properties registered to the service.	Reassess Flood Warning Areas following December 2015 and work with community to increase uptake.	2017	
	Local authorities are administering the Flood Recovery and Resilience Grants.	People who flooded in December 2015 are being urged to apply for the £5,000 resilience grant from their district/borough council. The deadline for applications has been extended to Friday 31 March 2017. A further £2,000 top up grant can also be applied for from the Cumbria Flood Recovery Fund	Closing date for grant applications – end of March 2017
