*“What spend has gone through the FCAS contract in the last 3 years?”*

*What top 10 countries have the majority of spend?”*

Thank you also for your clarification of the FCAS contract dated 7 July 2015:

*“It is my understanding that DFID have led the FCAS framework agreement since July 2011. I do not have a reference number to offer I am afraid but I do have some some further information from this link:*

The total DFID spend in the last 3 years on the FCAS framework was £52.6 million

DFID's spend information is held at department and country office level, we therefore do not hold a list of top 10 recipient countries.
