Introduction

As announced, the government is consulting on changes to the pension tax rules for qualifying overseas pension schemes and qualifying recognised overseas pension schemes (QROPS).

This document provides draft versions of the main forms for the changes announced.

The forms have been published in draft so that those affected by the changes to the pension tax rules can comment on the forms.

Please send comments to pensions.policy@hmrc.gsi.gov.uk by 1 February 2017.

Chapter 1

Format of the draft forms

These draft forms have been produced in a way that makes it easy to consult on the content and layout of the forms. However the forms are designed to be filled in onscreen, with only the relevant questions displayed.

So if you are reviewing these forms there are a number of things you should note.

Black text

The black text on the draft form is the text that you will see when filling in the form onscreen.

The questions are in a larger font and the text you will see to help you answer each question is shown in a smaller font underneath the question itself.

Green text

The green text on these draft forms is text you will see only if you click on the green question mark icon.

Red text and numbering

The red text and numbering is text that won't feature on the form but is included here to make it easier to work through the form and provide comments on specific questions.

Duplication of questions

These draft forms contain some duplication of questions. This duplication won't appear when the form is being filled in onscreen as only the relevant boxes will appear as you work through the form.

These duplicate questions are shown here for presentation purposes and to help you work through the form

Notes

There are no plans to publish separate notes on how to complete the forms alongside the final versions so we have included the text that will be there to help you complete the form.

If you think that you will need more help to complete any of the forms, it will be useful if you could say exactly what parts of the form caused you difficulty and what information would be helpful for you to know before filling in the form.

Under the UK pension tax rules, the normal minimum pension age is currently age 55.

The ill-health condition means that a member may take benefits at any age if as a result of ill-health the member is unable to carry on their occupation and has qualified medical advice to support this.
