Subject: RE: Imports from UK to Maldives

Dear [REDACTED]

Thank you for your e-mail to my colleague, [REDACTED]. I am however afraid that we are not able to identify a potential partner to help you set up a building society or finance company in Global Green

City. I can only suggest you make contact direct with your preferred financial institutions to see if they are

interested in hearing your business case.

Regards

Subject: Re: Imports from UK to Maldives

Dear [REDACTED]

Thank you for your email.

We do comply with the procedures and regulations of UK and Maldives.

Our intention is to import British products and market it in Maldives.

This will promote UK exports to Maldives. We are negotiating with suppliers of kitchen and bedroom units. Since it is a development by a British company, people expect us to supply British products. It will be a great help if you could give us your advise on the areas of support which we could get from UKTI. We are looking for a technical partner to assist us in setting up building society /finance company in GGC. Can you find us a suitable partner?

Best regards

Subject: RE: Imports from UK to Maldives

Dear Mr. [REDACTED]

Hope this finds you well. Grateful if you can let me know what assistance you are seeking from UKTI. Imports from the UK to Maldives will need to abide by Maldivian import procedures and regulations including labelling formats and information on the labels.

Kind Regards,

[REDACTED]
