

30 March 2016

Year: 2016 Week: 12

In This Issue:

- Key Messages.
- Weekly summary.
- Total contacts.
- Syndromic indicators.
- Notes and caveats.
- Further information.
- Acknowledgements.

Syndromic indicators at a glance:

Number of contacts and percentage of Read coded contacts.

1: Total out-of-hours contacts:

Daily total number of out-of-hours and unscheduled contacts and 7 day average (adjusted for bank holidays).

Key messages

Data to: 28 March 2016

The proportion of GP out of hours consultations for acute respiratory infections and influenza like illness remained higher in week 12 than the same time last year (figures 2 & 3).

A Cold Watch System operates in England from 1 November to 31 March each year. As part of the Public Health England Cold Weather Plan for England the PHE Real-time Syndromic Surveillance team will be monitoring the impact of cold weather on syndromic surveillance data during this period.

Cold weather alert level (current reporting week): **Level 1 Winter Preparedness and Action**
<http://www.metoffice.gov.uk/weather/uk/coldweatheralert/>

Key indicator	No. of contacts	% Week 12	% Week 11	Trend*
All OOH contacts, all causes	259,378			
Acute respiratory infection	28,287	22.55	21.70	↔↔
Influenza-like illness	735	0.59	0.60	↔↔
Bronchitis/bronchiolitis	313	0.25	0.23	↔↔
Difficulty breathing/wheeze/asthma	2,819	2.25	2.20	↔↔
Pharyngitis	203	0.16	0.13	↔↔
Gastroenteritis	5,326	4.25	4.55	↓
Diarrhoea	1,194	0.95	0.92	↔↔
Vomiting	1,770	1.41	1.67	↓
Myocardial infarction	1,041	0.83	0.99	↓

*Trend: reports on the trend seen over previous weeks in the percentage of Read coded contacts.

Year: 2016 Week: 12

**5: Difficulty breathing/
wheeze/asthma
daily contacts.**

Shown as a percentage of the total contacts with a Read code and as a 7 day average*.

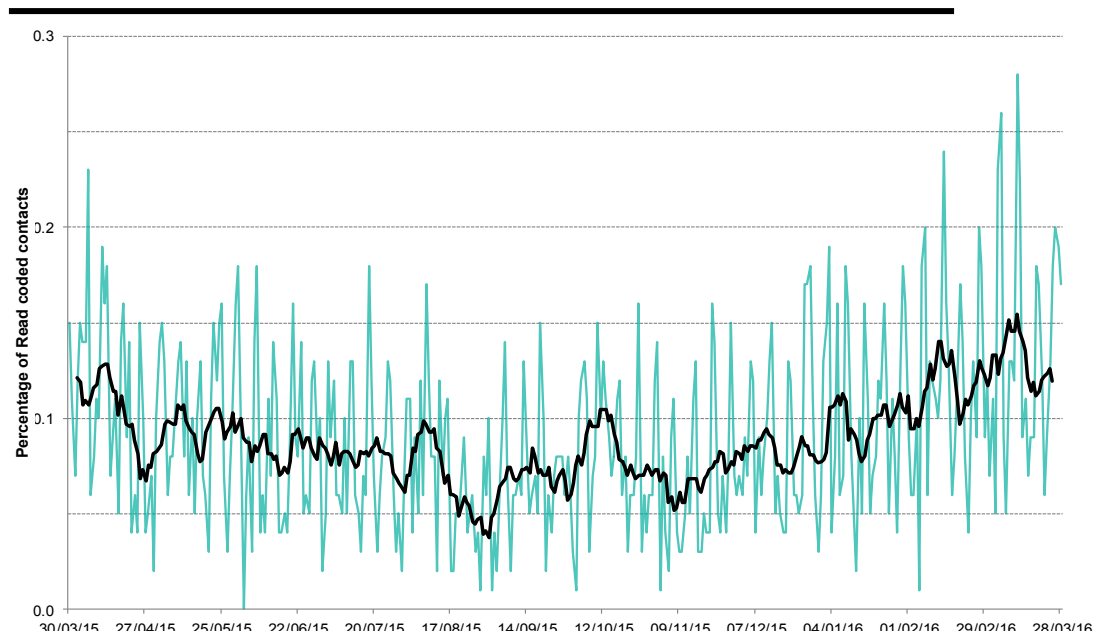

**5a: Difficulty
breathing/wheeze/
asthma weekly
contacts by age
group.**

**6: Acute pharyngitis
and persistent sore
throat.**

Shown as a percentage of the total contacts with a Read code and as a 7 day average*.

*7-day moving average
adjusted for bank
holidays.

30 March 2016

Year: 2016 Week: 12

7: Gastroenteritis daily contacts

Shown as a percentage of the total contacts with a Read code and as a 7 day average*.

8: Diarrhoea daily contacts.

Shown as a percentage of the total contacts with a Read code and as a 7 day average*.

9: Vomiting daily contacts.

Shown as a percentage of the total contacts with a Read code and as a 7 day average*.

*7-day moving average adjusted for bank holidays.

**9a: Vomiting contacts
by age group.**

Shown as a percentage of the total contacts with a Read code and as a 7 day average*.

**10: Myocardial
Infarction daily
contacts.**

Intentionally left blank.

*7-day moving average adjusted for bank holidays.

Year: 2016 Week: 12

Notes and caveats:

- This bulletin presents data from the Public Health England (PHE) GP Out-of-hours\Unscheduled Care Surveillance System (GP OOHSS).
- Fully anonymised data from GP out-of-hours (OOH) and unscheduled care service providers in England are being transferred to the PHE for analysis and interpretation by the PHE Real-time Syndromic Surveillance Team (ReSST).
- This new system supplements existing PHE syndromic surveillance systems by monitoring data on general practitioner consultations outside of routine surgery opening times (evenings, weekends and bank holidays) and unplanned contacts within NHS primary care.
- The key indicators presented within this bulletin are derived by grouping selected Read coded consultations.
- GP OOH consultation data are analysed on a daily basis to identify national and regional trends. A statistical algorithm underpins each system, routinely identifying activity that has increased significantly or is statistically significantly high for the time of year. Results from these daily analyses are assessed by the ReSST, along with analysis by age group, and anything deemed of public health importance is alerted by the team.

Further information:

The GP Out-of-Hours Surveillance System Bulletin can also be downloaded from the PHE Real-time Syndromic Surveillance website which also contains more information about syndromic surveillance:
