

We were asked:

Q1. Please would you attach, with a response, any and all prepared media statements or press releases that were not made public, or published, within the last 12 months.

This would include any press releases, statements from officials, and responses to anticipated media enquiries that were pre-prepared, and any other sort of statement that would fall under the category of 'media release' that was never released into the public domain for any reason, for example, because the media enquiry was never made.

I would appreciate if the information be sent to me with the date of the individual release, and the particular individual that the statements or any quotes should be attributed to.

We replied:

A1. The department does not hold any copies of media statements or press releases that have not already been released into the public domain.
