[UK Armed Forces Monthly Personnel Statistics](#) This publication provides information on the number of Military Personnel in (defined as the strength), joining (intake) and leaving (outflow) the UK Armed Forces. Detail is provided for both the Full-time Armed Forces and Reserves

[Royal Navy Quarterly Pocket Brief](#) This quarterly publication contains information on strengths, requirements, intakes and outflows from the Royal Navy service

This publication is a monthly report providing information on the number of Royal Navy and Royal Marine personnel joining and leaving the Regular service. It also shows the strengths of the Regular and Full Time Reserves Service (FTRS) Royal Navy and Royal Marines by rank and Length of Service. This publication is complemented by the [Royal Navy Quarterly Pocket Brief](#) which also shows breakdown of ethnicity in the RN/RM, Army and RAF.

**Information about some of the tables used in this report** The Royal Marine Aircrew-men are included with Warfare (Air); Royal Marine Medical Assistants are included with Medical. Where an RM/RN total split is given they are included with the RM. Warfare Officers include Royal Marine pilots. From August 2015 Communication and Information Specialists are now counted towards Engineer Technician (Weapon Engineer) having moved from Warfare branch. This has implications for tables 1a, 9b, 10b and 12b. FTRS are only included in table 1, unless otherwise stated.

**Voluntary Outflow (VO)** Voluntary Outflow exit rates are calculated using the 12 month total VO divided by the average strength, which is calculated using a 12 month centered rolling average. This centres the data and gets a midpoint month. 13 months of strengths are used, starting mid-way through one month and ending mid-way through the same month a year later. This way the moving average VO rate falls on a specific month rather than being in between months.

## **Key points for August 2016**

### **Strengths**

- The trained regular strength of the RN/RM including FTRS Regulars was 29,680 giving a deficit of 1.5% against the liability as shown in Table 1a.
- The trained regular strength excluding FTRS regulars was 29,360, an increase of 20 from the previous month, also shown in Table 1a.

### **Outflows**

- The total outflow from the trained regular strength excluding FTRS, was 2,430 in the 12 months to 1 July 2016, made up of 2,050 Ratings and 380 Officers as shown in Tables 9a and 9b.

## Glossary of Terms and Specialisations used within this publication

Term	Definition
Officer	An officer is a member of the Armed Forces holding the Queen's Commission to lead and command elements of the forces. Officers form the middle and senior management of the Armed Forces. This includes ranks from Sub-Lt/2nd Lt/Pilot Officer up to Admiral of the Fleet/Field Marshal/Marshal of the Royal Air Force, but excludes Non-Commissioned Officers
Other Ranks / Ratings	Other Ranks are members of the Royal Marines who are not Officers (but Other Ranks do include Non-Commissioned Officers). The equivalent group in the Royal Navy is known as "Ratings".
Ministry of Defence	The Ministry of Defence (MOD) is the United Kingdom government department responsible for the development and implementation of government defence policy and is the headquarters of the UK Armed Forces. The principal objective of the MOD is to defend the United Kingdom and its interests. The MOD also manages day to day running of the armed forces, contingency planning and defence procurement.
RNR	Royal Naval Reserve is the Volunteer Reserve element of the Royal Navy. Together with the Royal Marine Reserve they make up the <b>Maritime Reserve</b> .
RMR	Royal Marine Reserve is the Volunteer Reserve element of the Royal Marines. Together with the Royal Naval Reserve they make up the <b>Maritime Reserve</b> .
Maritime Reserve	Is the Volunteer Reserve element of the Naval Service that count towards the Future Reserve 2020 (FR20) programme. They comprise the Royal Naval Reserve and the Royal Marine Reserve and include mobilised and High Readiness Maritime Reserve personnel, plus Maritime Reserve personnel serving on FTRS and ADC contracts. The FR20 Trained Strength target for the Maritime Reserve is 3,100.
FTRS	<p><b>FTRS (Full-Time Reserve Service)</b> are personnel who fill Service posts for a set period on a full-time basis (this is different from mobilisation) while being a member of one of the Reserve Forces, either as an ex-regular or as a volunteer.</p> <p>Each Service uses FTRS personnel differently. The Naval Service predominantly uses FTRS to backfill gapped regular posts. However, they do have a small number of FTRS personnel that are not deployable for operations overseas.</p>
FTRS Regular	FTRS Personnel counted against the Regular Liability
FTRS Non Regular	FTRS Personnel not counted against the Regular Liability
Transfer Trainees	Trained Personnel undergoing further training in an alternative discipline
GS	General Service - Surface Fleet
SM	Submarine - Submarines

FAA	Fleet Air Arm – The Royal Navy’s Aviation branch.
VO	Voluntary Outflow - all voluntarily generated exits from trained personnel
TX	Time Expiry - personnel who leave service at the end of their engagement
OW	Other Wastage - outflow from trained strength due to a number of reasons, including (but not limited to) disciplinary, death, medical
JPA	Joint Personnel Administration: the system used by the Armed Forces to deal with matters of pay, leave and other personnel administrative tasks. JPA replaced the Naval Service IT system in November 2006
QARNNS	Queen Alexandra's Royal Naval Nursing Service - the Nursing branch of the Royal Navy which work alongside the Royal Navy Medical branch
Strength	the number of personnel (for each Service, strength is partially determined by its requirement)
Trained Strength	Comprises military personnel who have completed Phase 1 and Phase 2 training: Phase 1 training includes all new entry training to provide basic military skills Phase 2 training includes initial individual specialisation, sub-specialisation and technical training following Phase 1 training prior to joining the trained strength
Untrained Strength	Comprises military personnel who have yet to complete Phase 2 training

#### **Outflow Tables                    9a, 9b, 10a, 10b**

The outflow tables presented in this report give a true reflection of the number of service personnel who have left the Royal Navy or the Royal Marines from each of the branches .

The corresponding figures at the top of each of the tables show how many personnel have left the Royal Navy or the Royal Marines as a summation of the outflows of all of the branches.

The very top line of each table shows the sum of the exits from the Royal Navy and the Royal Marines. As a result, this total figure includes the number of people who have transferred between the Royal Navy and Royal Marines.

The UK Armed Forces Monthly Personnel Statistics, produced by Defence Statistics (Tri Service) reports on the total number of outflows from each of the three services (Royal Navy and Royal Marines are reported together as a single service) in tables 5c and 5d. Since the Tri Service report does not include transfers between the Royal Navy and Royal Marines, the figures reported will differ between the two publications, with the UK Armed Forces Monthly Personnel Statistics indicating a lower number of outflows.

## Background Information

### Revisions

Defence Statistics has undertaken a major review of all Armed Forces personnel data from the Joint Personnel Administration System (JPA). This has resulted in changes to the strengths, intake and outflow reported in this publication, the periods affected are: FLOWS – from period ending 31 March 2009 to the period ending 31 October 2011, changes to monthly outflow range from fewer than 10 to around 50. STRENGTHS – from 1 May 2009 to 1 November 2011 (inclusive), changes of around 20 per month have been made to the headline strengths. The revised data are considered finalised and are therefore no longer marked provisional. Data for 1 November 2011 and subsequent data are considered final.

The number of trained regular outflows (tables 9a, 9b, 10a and 10b) and promotions (table 11a) for financial years 2010/11, 2011/12 was reported incorrectly in previous situation reports dating from November 2012 to August 2014. Correct figures are reported in September 2014 and subsequent situation reports. No previous publications have been revised.

Due to a minor rounding error in the liability figures two values in table 1a have been revised from previous publications. These figures are marked with 'r'.

### Data Sources

Royal Navy/ Royal Marines statistics prior to March 2006 are compiled from pay records held by the Service Personnel and Veterans Agency (SPVA, formerly the Armed Forces Personnel Administration Agency). In March 2006 the transfer of all Regular Service personnel records to the Joint Personnel Administration (JPA) system began. Statistics are compiled from JPA for the Royal Navy/ Royal Marines from November 2006.

### Rounding Policy

All totals are rounded in accordance with the Defence Statistics rounding policy; therefore totals may not equal the sum of their parts. All numbers are rounded to the nearest 10 with numbers ending in 5 rounded to the nearest multiple of 20 to avoid bias. Numbers that would be rounded to 0 are represented by '~'.

### Liability

Liability is also known as requirement. The liability used in this publication is taken from the Planning Liability PL 2-16, scaled to DP16.

## Aug-16 Edition.

Figures marked with 'r' are revised from previous publications

From Jan 10 and elsewhere in this document, liability split by Officer/Rating, Branch & Spec is taken from the relevant Planning Liability (currently PL 2-16) scaled to DP16. Monthly liability figures are calculated using a straight line interpolation between the relevant PL April points (currently April 15 and April 16).

Current month liability figures are provisional pending an adjustment in scaling.

\* In this table only, the FTRS Strength has been split into those that are counted against the Regular liability (FTRS "Regulars"), and those that are not (FTRS "Non-Regulars").

Current month liability figures are provisional pending an adjustment in scaling.

\* The Trained Strength shown in this table does not include the Transfer Trainee Strength, hence the slightly lower figures.

\*\* Smoothed Planning Liability 2-16 has been used and scaled to the interpolated monthly DP16 total figure.

\*\*\* Figures exclude FTRS personnel in regular posts.

<sup>2</sup> Royal Marines are the only part of the RN/RM Service to currently contain OR3 strength.

As no separate liability for OR3 is produced for the RN/RM, the liability for OR2 also includes OR3.

<sup>3</sup> The latest liability (PL2-16) no longer includes RN OR8. This rank will still be reflected in RN strength.
