AUTHORIZED AMENDMENT

Note to provide a summary/overview of the amendment and to explain/ensure that the reader understands: the rationale for the amendment; the major changes; and, importantly, the full context (including desired outcome) of the amendment.

The input here should be your 'one minute' to explain what, why and how.

With the publication of the Type Airworthiness Engineering (TAE) RA 5000 Series the terms Design Modification Engineering (DME) and Military Flight Test Permit (MFTP) are now obsolete. They have been replaced with Type Airworthiness Engineering (TAE) and Military Permit to Fly (MPTF). In addition, RA 1500 has been withdrawn and the content subsumed into RA 5810 and RA 5820. The Regulations and associated Manuals have been amended to reflect these changes, including references to Regulations where content has been moved.
