

RESTRICTED

patients in home based care programmes have been displaced and no longer have access to ARVs. Some deaths directly attributable to the Operation are beginning to be reported.

4. IOM have expanded their assistance to 42 areas, covering about 5,000 families. DFID previously made available £1 million to IOM for assistance to internally displaced people. IOM have utilised US\$ 400,000 of these DfID resources as part of their response to the Operation. This includes food and non food items. Another US\$ 50,000 of UK funds has been committed through OCHA. DfID-Z is assessing the needs with regard to an anticipated further contribution.
