The Clerk
Fire and Rescue Authorities
Combined Fire and Rescue Authorities

LOCAL GOVERNMENT FINANCE: STATUTORY NOTICE OF DATA COLLECTION ***Local Government Finance Act 1988, section 139A*** **Data required from local authorities**

- 1. Each year we collect indicator data in order for the Secretary of State to keep under review the Local Government Finance Settlement. This letter gives statutory notice of data required from the authority by 1 October 2015, or other such date specified, in Annex A. Hard copies of the letter are available on request.**

Statutory Notice

2. As in previous years, we intend to continue to collect indicator data and maintain the time series in order for the Secretary of State to keep the Local Government Finance Settlement under review and assist with any future calculations and analysis. This letter gives statutory notice of data required by 1 October 2015, or other such date specified in Annex A.
3. Therefore in accordance with section 139A of the Local Government Finance Act 1988 (as inserted by paragraph 68 of Schedule 5 to the Local Government and Housing Act 1989, and amended by paragraph 77 of Schedule 13 to the Local Government Finance Act 1992 and section 109(2) of the Greater London Authority Act 1999), the authority is hereby required, **if it has not already done so**, to supply in writing to the relevant departments the information listed in Annex A to this letter for authorities in its

class. The information is to be supplied on or before 1 October 2015, or such other date specified in Annex A.

4. You should be aware that, if an authority cannot supply the required information on or before 1 October 2015 (or such other specified date), the Secretary of State may, pursuant to section 139A(3) of the Local Government Finance Act 1988, assume the information required to be such as he sees fit.
5. In accordance with previous practice, if the Secretary of State considers it appropriate to do so, he may rely on estimates based on information supplied to the relevant department at a date earlier than 1 October 2015.

Practicalities

6. The authority may already have submitted the forms specified in Annex A. There is no need to provide the same information a second time. But you may wish to re-check this data. If any amendments are required, they must reach the relevant government department by 1 October 2015, or other such date as specified.
7. Forms should be returned to the address specified for them; there is **no need to send further copies to this part of the Department for Communities and Local Government**. Where a government department has set a date for the return of a form, that date remains relevant for purposes other than in relation to the local government finance settlement analysis.
8. If you have any enquiries relating to particular forms or data please contact the person who deals with those data. A list of these contacts is at Annex B. If you have any general enquiries arising from this letter, please contact **Shafi Khan** or **Gavin Sayer**: shafi.khan@communities.gsi.gov.uk or gavin.sayer@communities.gsi.gov.uk

Distribution list for notifications of the publication of Settlement documentation

9. We intend to continue to publish local government finance settlement documentation on our website. In order to inform authorities when information is available we need up to date contact email addresses. I would be grateful if you could send any amendments to karen.sussex@communities.gsi.gov.uk or to shafi.khan@communities.gsi.gov.uk.

GAVIN SAYER

Local Government Finance – Business Rates and Settlement

Background

1. The new business rates retention system came into force on 1 April 2013 and enables local authorities to retain a share of business rates, and increases on that share, giving them a significant financial incentive to help deliver growth locally. Full details are available on our website, for example in the Practitioner's Guide:
<http://webarchive.nationalarchives.gov.uk/20140505104649/http://www.local.communities.gov.uk/finance/1314/settle.htm>
2. Indicator data collected from local authorities and other sources during 2012 were used for the calculation of the 2013-14 settlement and to establish the start-up funding assessments for the new business rates retention system. Details of the indicators and data values used in calculating the 2013-14 settlement are available on our website:
<http://webarchive.nationalarchives.gov.uk/20140505104649/http://www.local.communities.gov.uk/finance/1314/tabs1314dat.htm>
3. The 2014-15 and 2015-16 settlements were calculated by scaling back the authority level allocations of Revenue Support Grant of the previous year and did not use indicator data. We nevertheless intend to continue our collection of data and maintain our time series which will assist with future calculations and analysis. Annex A sets out the data required
