Key terms:

Affordable Warmth 'minimum' – A requirement on energy suppliers to achieve a minimum proportion of their extended Affordable Warmth target through measures other than qualifying gas boiler replacements

Non-gas property – A property where the main space heating system is not fuelled by mains gas

Non-qualifying boiler replacement – The replacement of a boiler that is not a 'qualifying boiler'

Qualifying boiler replacement – The replacement of a boiler that has is either not functioning efficiently or has broken down, and cannot be economically repaired (a 'qualifying boiler')

Qualifying gas boiler replacement – A qualifying boiler replacement where the existing boiler is gas-fuelled

Qualifying electric storage heater replacement – The replacement of an electric storage heater that is broken down and cannot be economically repaired, or the replacement of an electric storage heater with a SAP responsiveness rating equal to or less than 0.2 that is in the same premises as a broken electric storage heater that cannot be economically repaired.
