

Section 10: Administration costs

Introduction

1400 Authorities were notified of their DWP Administration subsidy allocation before the start of the relevant year. The overall DWP Administration subsidy is cash-limited and there is no provision for any adjustment to be made to individual LA allocations. The DWP Administration subsidy distribution for the relevant year is shown at Appendix D.

1401-1409

Details of the DWP administration subsidy distribution in the relevant year

1410 For 2015/16 the total distributed amount of administration subsidy for HB is £315.62m. Appendix D shows the individual allocations for each LA in England, Scotland and Wales.

Distribution methodology

1411 Each LA was allocated a share of the total administration subsidy that reflected its share of the national HB work done, with adjustments that reflected some differences in regional costs.

1412 The distribution methodology used caseload information based upon SHBE data.

1413 The methodology reflects differences in labour costs. It used the most up to date Annual Survey of Hours and Earnings (ASHE) available to derive the labour cost indices split between England, Scotland and Wales. The DCLG Labour Cost Adjustments (LCA) ratios were applied to the English LAs.

For **accommodation factors**, we used the information of the Property Market Report provided by the Valuation Office Agency. These have been used to derive the indices to represent a split of accommodation costs between England, Scotland and Wales. The DCLG Rates Cost Adjustment (RCA) were applied to the English LAs.

- 1416 The subsidy is distributed amongst LAs by taking HB caseloads into account, with different weightings to compensate for variations in accommodation and labour costs between regions
- 1417 The administration subsidy for a particular LA is equal to a fraction of the total administration subsidy. The fraction is calculated using the caseloads and the labour and accommodation indices which are scaled by the average which has been weighted by caseload.
- 1418 To provide an element of stability in funding, the main administration subsidy was subject to a 0% cap (meaning no LA will receive more funding than in the preceding year) and a 12% net for England, 5.1% for Wales and 5% for Scotland (meaning no LA will lose more than its respective funding it received in the preceding year).

1419-1420

Payments of subsidy

- 1421 Payments of interim administration subsidy will be made in 12 monthly instalments beginning in April. As always, the overall grant available to support HB administration costs is cash limited and so there is no provision for any adjustments to be made to individual authority's allocations.
