Permit with introductory note

The Environmental Permitting (England & Wales) Regulations 2010

Mick George Limited

Great Billing II Waste Transfer Station Lower Ecton Lane Great Billing Northampton NN3 5HQ

Permit number

EPR/SP3935AX

Great Billing II Waste Transfer Station Permit number EPR/SP3935AX

Introductory note

This introductory note does not form a part of the permit

The main features of the permit are as follows.

The permitted facility is a hazardous and non-hazardous waste treatment and transfer facility. The specific waste storage and treatment activities undertaken at the facilities are:

- Storage and transfer of hazardous wastes (waste electronic and electrical equipment (WEEE), clinical waste and asbestos)
- Storage and treatment of non-hazardous waste for the purpose of recovery (including screening, crushing, sorting, shredding and baling)
- Storage and transfer of non-hazardous waste for recovery or disposal

The storage and transfer of hazardous wastes is an activity listed under Section 5.6 Part A(1), Schedule 1 of the Environmental Permitting Regulations. The storage, treatment and transfer of non-hazardous wastes are unlisted waste operation activities. The treatment of non-hazardous wastes is undertaken for the purpose of recovery only.

The facility has no point source emissions to air or sewer. The site includes a septic tank for domestic sewage. The facility has one point source emission of uncontaminated surface water (rainwater) to Ecton Brook, which runs along the northern boundary of the site. This discharge is made via a storm water attenuation pond which is provided with an oil interceptor and a penstock valve.

The facility is located to the east of Northampton, to the south-east of Great Billing and south of the A45 and Lower Ecton Lane. Ecton village lies approximately 1.2km to the north-east of the facility. A sewage treatment works is located to the south-west of the facility. To the south are open fields, sand and gravel works and the River Nene.

The closest sensitive human receptors are a caravan park (approximately 160m to the west of the facility), Ecton Brook Primary School (approximately 220m to the north-west), and residential properties that lie beyond the school (approximately 270m to the north-west).

There is one designed Special Protection Area (SPA) and Ramsar Habitat Site (Upper Nene Valley Gravel Pits) within 10km of the facility. The facility lies between two separate designated areas of the Upper Nene Valley Gravel Pits; approximately 2.5km to the north-east of one area and 4.2km to the west of the other. There is also one local nature reserve and seven local wildlife sites within 2km of the facility.

The facility will be managed in accordance with an Environmental Management System certified to ISO 14001, OHSAS 18001 and ISO 9001 standards.

The status log of the permit sets out the permitting history, including any changes to the permit reference number.

End of introductory note

Permit

The Environmental Permitting (England and Wales) Regulations 2010

Permit number

EPR/SP3935AX

The Environment Agency hereby authorises, under regulation 13 of the Environmental Permitting (England and Wales) Regulations 2010

Mick George Limited ("the operator"),

whose registered office is

Mick George Limited 6 Lancaster Way Ermine Business Park Huntingdon Cambridgeshire PE29 6XU

company registration number 02417831

to operate an installation and waste operations at

Great Billing II Waste Transfer Station Lower Ecton Lane Great Billing Northampton NN3 5HQ

to the extent authorised by and subject to the conditions of this permit.

Name	Date
Claire Roberts	01/02/2016

Authorised on behalf of the Environment Agency

Conditions

1 Management

1.1 General management

- 1.1.1 The operator shall manage and operate the activities:
 - (a) in accordance with a written management system that identifies and minimises risks of pollution, including those arising from operations, maintenance, accidents, incidents, non-conformances, closure and those drawn to the attention of the operator as a result of complaints; and
 - (b) using sufficient competent persons and resources.
- 1.1.2 Records demonstrating compliance with condition 1.1.1 shall be maintained.
- 1.1.3 Any person having duties that are or may be affected by the matters set out in this permit shall have convenient access to a copy of it kept at or near the place where those duties are carried out.
- 1.1.4 The operator shall comply with the requirements of an approved competence scheme.

1.2 Energy efficiency

- 1.2.1 For the following activities referenced in schedule 1, table S1.1 (A1 to A4) the operator shall:
 - (a) take appropriate measures to ensure that energy is used efficiently in the activities;
 - (b) review and record at least every four years whether there are suitable opportunities to improve the energy efficiency of the activities; and
 - (c) take any further appropriate measures identified by a review.

1.3 Efficient use of raw materials

- 1.3.1 For the following activities referenced in schedule 1, table S1.1 (A1 to A4) the operator shall:
 - take appropriate measures to ensure that raw materials and water are used efficiently in the activities;
 - (b) maintain records of raw materials and water used in the activities;
 - (c) review and record at least every four years whether there are suitable alternative materials that could reduce environmental impact or opportunities to improve the efficiency of raw material and water use; and
 - (d) take any further appropriate measures identified by a review.

1.4 Avoidance, recovery and disposal of wastes produced by the activities

- 1.4.1 The operator shall take appropriate measures to ensure that:
 - (a) the waste hierarchy referred to in Article 4 of the Waste Framework Directive is applied to the generation of waste by the activities; and
 - (b) any waste generated by the activities is treated in accordance with the waste hierarchy referred to in Article 4 of the Waste Framework Directive; and
 - (c) where disposal is necessary, this is undertaken in a manner which minimises its impact on the environment.

1.4.2 The operator shall review and record at least every four years whether changes to those measures should be made and take any further appropriate measures identified by a review.

2 Operations

2.1 Permitted activities

- 2.1.1 The operator is only authorised to carry out the activities specified in schedule 1 table S1.1 (the "activities").
- 2.1.2 For the following activities referenced in schedule 1, table S1.1 (A1 to A4) waste authorised by this permit shall be clearly distinguished from any other waste on the site.

2.2 The site

2.2.1 The activities shall not extend beyond the site, being the land shown edged in green on the site plan at schedule 7 to this permit.

2.3 Operating techniques

- 2.3.1 The activities shall, subject to the conditions of this permit, be operated using the techniques and in the manner described in the documentation specified in schedule 1, table S1.2, unless otherwise agreed in writing by the Environment Agency.
- 2.3.2 If notified by the Environment Agency that the activities are giving rise to pollution, the operator shall submit to the Environment Agency for approval within the period specified, a revision of any plan or other documentation ("plan") specified in schedule 1, table S1.2 or otherwise required under this permit which identifies and minimises the risks of pollution relevant to that plan, and shall implement the approved revised plan in place of the original from the date of approval, unless otherwise agreed in writing by the Environment Agency.
- 2.3.3 Any raw materials or fuels listed in schedule 2 table S2.1 shall conform to the specifications set out in that table.
- 2.3.4 Waste shall only be accepted if:
 - (a) it is of a type and quantity listed in schedule 2 tables S2.2 and S2.3; and
 - (b) it conforms to the description in the documentation supplied by the producer and holder.
- 2.3.5 The operator shall ensure that where waste produced by the activities is sent to a relevant waste operation, that operation is provided with the following information, prior to the receipt of the waste:
 - (a) the nature of the process producing the waste;
 - (b) the composition of the waste;
 - (c) the handling requirements of the waste;
 - (d) the hazardous property associated with the waste, if applicable; and
 - (e) the waste code of the waste.
- 2.3.6 The operator shall ensure that where waste produced by the activities is sent to a landfill site, it meets the waste acceptance criteria for that landfill.

Hazardous waste storage and treatment

2.3.7 Hazardous waste shall not be mixed, either with a different category of hazardous waste or with other waste, substances or materials, unless it is authorised by schedule 1 table S1.1 and appropriate measures are taken.

2.4 Pre-operational conditions

2.4.1 The activities shall not be brought into operation until the measures specified in schedule 1 table S1.4 have been completed.

3 Emissions and monitoring

3.1 Emissions to water, air or land

- 3.1.1 There shall be no point source emissions to water, air or land except from the sources and emission points listed in schedule 3 table S3.1.
- 3.1.2 The limits given in schedule 3 shall not be exceeded.
- 3.1.3 Periodic monitoring shall be carried out at least once every 5 years for groundwater and 10 years for soil, unless such monitoring is based on a systematic appraisal of the risk of contamination.

3.2 Emissions of substances not controlled by emission limits

- 3.2.1 Emissions of substances not controlled by emission limits (excluding odour) shall not cause pollution. The operator shall not be taken to have breached this condition if appropriate measures, including, but not limited to, those specified in any approved emissions management plan, have been taken to prevent or where that is not practicable, to minimise, those emissions.
- 3.2.2 The operator shall:
 - (a) if notified by the Environment Agency that the activities are giving rise to pollution, submit to the Environment Agency for approval within the period specified, an emissions management plan which identifies and minimises the risks of pollution from emissions of substances not controlled by emission limits;
 - (b) implement the approved emissions management plan, from the date of approval, unless otherwise agreed in writing by the Environment Agency.
- 3.2.3 All liquids in containers, whose emission to water or land could cause pollution, shall be provided with secondary containment, unless the operator has used other appropriate measures to prevent or where that is not practicable, to minimise, leakage and spillage from the primary container.

3.3 Odour

3.3.1 Emissions from the activities shall be free from odour at levels likely to cause pollution outside the site, as perceived by an authorised officer of the Environment Agency, unless the operator has used appropriate measures, including, but not limited to, those specified in any approved odour management plan, to prevent or where that is not practicable to minimise the odour.

3.4 Noise and vibration

- 3.4.1 Emissions from the activities shall be free from noise and vibration at levels likely to cause pollution outside the site, as perceived by an authorised officer of the Environment Agency, unless the operator has used appropriate measures, including, but not limited to, those specified in any approved noise and vibration management plan to prevent or where that is not practicable to minimise the noise and vibration.
- 3.4.2 The operator shall:
 - (a) if notified by the Environment Agency that the activities are giving rise to pollution outside the site due to noise and vibration, submit to the Environment Agency for approval within the period

- specified, a noise and vibration management plan which identifies and minimises the risks of pollution from noise and vibration;
- (b) implement the approved noise and vibration management plan, from the date of approval, unless otherwise agreed in writing by the Environment Agency.

3.5 Pests

- 3.5.1 The activities shall not give rise to the presence of pests which are likely to cause pollution, hazard or annoyance outside the boundary of the site. The operator shall not be taken to have breached this condition if appropriate measures, including, but not limited to, those specified in any approved pests management plan, have been taken to prevent or where that is not practicable, to minimise the presence of pests on the site.
- 3.5.2 The operator shall:
 - (a) if notified by the Environment Agency, submit to the Environment Agency for approval within the period specified, a pests management plan which identifies and minimises risks of pollution from pests;
 - (b) implement the pests management plan, from the date of approval, unless otherwise agreed in writing by the Environment Agency.

3.6 Fire prevention

3.6.1 The operator shall take all appropriate measures to prevent fires on site and minimise the risk of pollution from them including, but not limited to, those specified in any approved fire prevention plan.

4 Information

4.1 Records

- 4.1.1 All records required to be made by this permit shall:
 - (a) be legible;
 - (b) be made as soon as reasonably practicable;
 - (c) if amended, be amended in such a way that the original and any subsequent amendments remain legible, or are capable of retrieval; and
 - (d) be retained, unless otherwise agreed in writing by the Environment Agency, for at least 6 years from the date when the records were made, or in the case of the following records until permit surrender:
 - (i) off-site environmental effects; and
 - (ii) matters which affect the condition of the land and groundwater.
- 4.1.2 The operator shall keep on site all records, plans and the management system required to be maintained by this permit, unless otherwise agreed in writing by the Environment Agency.

4.2 Reporting

- 4.2.1 The operator shall send all reports and notifications required by the permit to the Environment Agency using the contact details supplied in writing by the Environment Agency.
- 4.2.2 For the following activities referenced in schedule 1, table S1.1 (A1 to A4) a report or reports on the performance of the activities over the previous year shall be submitted to the Environment Agency by

- 31 January (or other date agreed in writing by the Environment Agency) each year. The report(s) shall include as a minimum:
- (a) a review of the results of the monitoring and assessment carried out in accordance with the permit including an interpretive review of that data;
- (b) the performance parameters set out in schedule 4 table S4.1 using the forms specified in table S4.2 of that schedule.
- 4.2.3 For the following activities referenced in schedule 1, table S1.1 (A1 to A4) the operator shall, unless notice under this condition has been served within the preceding four years, submit to the Environment Agency, within six months of receipt of a written notice, a report assessing whether there are other appropriate measures that could be taken to prevent, or where that is not practicable, to minimise pollution.
- 4.2.4 Within 1 month of the end of each quarter, the operator shall submit to the Environment Agency using the form made available for the purpose, the information specified on the form relating to the site and the waste accepted and removed from it during the previous quarter.

4.3 Notifications

- 4.3.1 In the event:
 - (a) that the operation of the activities gives rise to an incident or accident which significantly affects or may significantly affect the environment, the operator must immediately—
 - (i) inform the Environment Agency,
 - (ii) take the measures necessary to limit the environmental consequences of such an incident or accident, and
 - (iii) take the measures necessary to prevent further possible incidents or accidents;
 - (b) of a breach of any permit condition the operator must immediately—
 - (i) inform the Environment Agency, and
 - (ii) take the measures necessary to ensure that compliance is restored within the shortest possible time;
 - (c) of a breach of permit condition which poses an immediate danger to human health or threatens to cause an immediate significant adverse effect on the environment, the operator must immediately suspend the operation of the activities or the relevant part of it until compliance with the permit conditions has been restored.
- 4.3.2 Any information provided under condition 4.3.1 (a)(i), or 4.3.1 (b)(i) where the information relates to the breach of a limit specified in the permit, shall be confirmed by sending the information listed in schedule 5 to this permit within the time period specified in that schedule.
- 4.3.3 Where the Environment Agency has requested in writing that it shall be notified when the operator is to undertake monitoring and/or spot sampling, the operator shall inform the Environment Agency when the relevant monitoring and/or spot sampling is to take place. The operator shall provide this information to the Environment Agency at least 14 days before the date the monitoring is to be undertaken.
- 4.3.4 The Environment Agency shall be notified within 14 days of the occurrence of the following matters, except where such disclosure is prohibited by Stock Exchange rules:

Where the operator is a registered company:

- (a) any change in the operator's trading name, registered name or registered office address; and
- (b) any steps taken with a view to the operator going into administration, entering into a company voluntary arrangement or being wound up.

Where the operator is a corporate body other than a registered company:

- (a) any change in the operator's name or address; and
- (b) any steps taken with a view to the dissolution of the operator.

In any other case:

- (a) the death of any of the named operators (where the operator consists of more than one named individual);
- (b) any change in the operator's name(s) or address(es); and
- (c) any steps taken with a view to the operator, or any one of them, going into bankruptcy, entering into a composition or arrangement with creditors, or, in the case of them being in a partnership, dissolving the partnership.
- 4.3.5 Where the operator proposes to make a change in the nature or functioning, or an extension of the activities, which may have consequences for the environment and the change is not otherwise the subject of an application for approval under the Regulations or this permit:
 - (a) the Environment Agency shall be notified at least 14 days before making the change; and
 - (b) the notification shall contain a description of the proposed change in operation.
- 4.3.6 The Environment Agency shall be given at least 14 days notice before implementation of any part of the site closure plan.

4.4 Interpretation

- 4.4.1 In this permit the expressions listed in schedule 6 shall have the meaning given in that schedule.
- 4.4.2 In this permit references to reports and notifications mean written reports and notifications, except where reference is made to notification being made "immediately", in which case it may be provided by telephone.

Schedule 1 – Operations

Activity listed in Schedule 1 of the EP Regulations 5.6 A(1)(a) Temporary storage of hazardous waste with a total capacity exceeding 50 tonnes	Description of activity and V and II operation Temporary sto hazardous was	VFD Annex I ons orage of	Limits of specified activity and waste types Waste types and quantities

Reference	-operational measures Pre-operational measures
IP1	The site shall be provided with an appropriate engineered sealed drainage system, which ensures that potentially contaminated drainage from waste storage, handling and treatment areas will be contained on-site and only clean rain water and surface water will be discharged to the storm water pond and surface water. The sealed drainage system shall be designed and constructed to an appropriate engineering standard in accordance with the requirements of Sector Guidance Note S5.06 Guidance for the Recovery and Disposal of Hazardous and Non Hazardous Waste, Additional guidance for Clinical Waste (EPR 5.07) and CIRIA C736 Containment Systems for the Prevention of Pollution. The operator shall submit to the Environment Agency for approval an updated site drainage plan and written report detailing the sealed drainage system(s) that will be provided at the facility, including details of its construction.
IP2	The operator shall submit to the Environment Agency for approval waste pre- acceptance and acceptance procedures, and any associated procedures contained within the facility's Environmental Management System, in accordance with Section 2.1.1 and 2.1.2 of S5.06. The procedures shall detail how potentially odorous wastes will be identified and managed appropriately through the processes of waste pre- acceptance, acceptance and rejection.
IP3	The operator shall collect additional baseline reference data for the site of the regulated facility in order to establish existing ground conditions and identify any historical contamination. This shall contain a full suite of analysis including metals & sulphates.
IP4	The operator shall review and update the facility's Application Site Report to ensure that it details the activities that the facility is permitted to undertake, the wastes it is permitted to accept and the site containment measures provided at the facility, specifically the site drainage and containment agreed through Pre-Operational Condition IP1. The Site Report shall also be updated with the baseline data collected through Pre-Operational Condition IP3.
IP5	The operator shall review and update the Odour Management Plan (OMP) to ensure that it only includes the activities that the facility is permitted to undertake and the waste types that it is permitted to accept. The OMP shall detail the odour prevention and control measures that will be employed at the facility for these activities and wastes. The OMP shall detail odour monitoring (sniff tests) undertaken by trained staff as part of routine daily site inspections. The odour management plan shall also specify the criteria and associated action levels that monitoring results for material temperature and moisture content will be assessed against. The updated OMP shall be submitted to the Environment Agency for approval.
IP6	The operator shall submit to the Environment Agency for approval a written copy of the inspection and preventative maintenance plan that forms part of the facility's environmental management system, in accordance with the requirements of How to comply with your environmental permit (Part 1) and Section 2.3 of S5.06. The plan shall cover all relevant plant and infrastructure, whose failure could lead to an impact on the environment, including buildings, bays, tanks, surfacing, pipework, bunds and drainage systems.

17 06 01*	insulation materials containing asbestos
17 06 05*	construction materials containing asbestos
18	Wastes from human or animal health care and/or related research (except kitchen and restaurant wastes not arising from immediate health care)
18 01	wastes from natal care, diagnosis, treatment or prevention of disease in humans
18 01 03*	wastes whose collection and disposal is subject to special requirements in order to prevent infection
18 01 08*	cytotoxic and cytostatic medicines
18 01 10*	amalgam waste from dental care
18 02	wastes from research, diagnosis, treatment or prevention of disease involving animals
18 02 02*	wastes whose collection and disposal is subject to special requirements in order to prevent infection
18 02 05*	chemicals consisting of or containing dangerous substances
18 02 07*	cytotoxic and cytostatic medicines

Table S2.3 Permitted waste types and quantities for non-hazardous waste storage, treatment and transfer		
Maximum quantity	Annual throughput of 339,000 tonnes. Additional limits on waste are set in Table S1.1.	
Waste code	Description	
01	Wastes resulting from exploration, mining, quarrying, and physical and chemical treatment of minerals	
01 01	wastes from mineral excavation	
01 01 01	wastes from mineral metalliferous excavation	
01 01 02	wastes from mineral non-metalliferous excavation	
01 03	wastes from physical and chemical processing of metalliferous minerals	
01 03 06	tailings other than those mentioned in 01 03 04 and 01 03 05	
01 03 09	red mud from alumina production other than the wastes mentioned in 01 03 10	
01 04	wastes from physical and chemical processing of non-metalliferous minerals	
01 04 08	waste gravel and crushed rocks other than those mentioned in 01 04 07	
01 04 11	wastes from potash and rock salt processing other than those mentioned in 01 04 07	
01 04 12	tailings and other wastes from washing and cleaning of minerals other than those mentioned in 01 04 07 and 01 04 11	

01 04 13	wastes from stone cutting and sawing other than those mentioned in 01 04 07
01 05	drilling muds and other drilling wastes
01 05 04	freshwater drilling muds and wastes
01 05 07	barite-containing drilling muds and wastes other than those mentioned in 01 05 05 and 01 05 06
01 05 08	chloride-containing drilling muds and wastes other than those mentioned in 01 05 05 and 01 05 06
02	Wastes from agriculture, horticulture, aquaculture, forestry, hunting and fishing, food preparation and processing
02 01	wastes from agriculture, horticulture, aquaculture, forestry, hunting and fishing
02 01 01	sludges from washing and cleaning
02 01 03	plant-tissue waste
02 01 04	waste plastics (except packaging)
02 01 06	animal faeces, urine and manure (including spoiled straw), effluent, collected separately and treated off-site
02 01 07	wastes from forestry
02 01 09	agrochemical waste other than those mentioned in 02 01 08
02 01 10	waste metal
02 02	wastes from the preparation and processing of meat, fish and other foods of animal origin
02 02 03	materials unsuitable for consumption or processing
02 03	wastes from fruit, vegetables, cereals, edible oils, cocoa, coffee, tea and tobacco preparation and processing; conserve production; yeast and yeast extract production, molasses preparation and fermentation
02 03 03	wastes from solvent extraction
02 03 04	materials unsuitable for consumption or processing
02 04	wastes from sugar processing
02 04 01	soil from cleaning and washing beet
02 04 02	off-specification calcium carbonate
02 05	wastes from the dairy products industry
02 05 01	materials unsuitable for consumption or processing
02 06	wastes from the baking and confectionery industry
02 06 01	materials unsuitable for consumption or processing
00.00.00	wastes from preserving agents
02 06 02	wastes from procerving agents
02 06 02	wastes from the production of alcoholic and non-alcoholic beverages (except coffee, tea and cocoa)
	wastes from the production of alcoholic and non-alcoholic beverages (except
02 07	wastes from the production of alcoholic and non-alcoholic beverages (except coffee, tea and cocoa)
02 07 02 07 01	wastes from the production of alcoholic and non-alcoholic beverages (except coffee, tea and cocoa) wastes from washing, cleaning and mechanical reduction of raw materials
02 07 02 07 01 02 07 02	wastes from the production of alcoholic and non-alcoholic beverages (except coffee, tea and cocoa) wastes from washing, cleaning and mechanical reduction of raw materials wastes from spirits distillation
02 07 02 07 01 02 07 02 02 07 04	wastes from the production of alcoholic and non-alcoholic beverages (except coffee, tea and cocoa) wastes from washing, cleaning and mechanical reduction of raw materials wastes from spirits distillation materials unsuitable for consumption or processing Wastes from wood processing and the production of panels and furniture,

03 01 05	sawdust, shavings, cuttings, wood, particle board and veneer other than those mentioned in 03 01 04
03 03	wastes from pulp, paper and cardboard production and processing
03 03 01	waste bark and wood
03 03 07	mechanically separated rejects from pulping of waste paper and cardboard
03 03 08	wastes from sorting of paper and cardboard destined for recycling
03 03 09	lime mud waste
03 03 10	fibre rejects, fibre-, filler- and coating-sludges from mechanical separation
04	Wastes from the leather, fur and textile industries
04 01	wastes from the leather and fur industry
04 01 01	fleshings and lime split wastes
04 01 02	liming waste
04 01 06	sludges, in particular from on-site effluent treatment containing chromium
04 01 07	sludges, in particular from on-site effluent treatment free of chromium
04 01 08	waste tanned leather (blue sheetings, shavings, cuttings, buffing dust) containing chromium
04 01 09	wastes from dressing and finishing
04 02	wastes from the textile industry
04 02 09	wastes from composite materials (impregnated textile, elastomer, plastomer)
04 02 10	organic matter from natural products (for example grease, wax)
04 02 15	wastes from finishing other than those mentioned in 04 02 14
04 02 17	dyestuffs and pigments other than those mentioned in 04 02 16
04 02 20	sludges from on-site effluent treatment other than those mentioned in 04 02 19
04 02 21	wastes from unprocessed textile fibres
04 02 22	wastes from processed textile fibres
05	Wastes from petroleum refining, natural gas purification and pyrolytic treatment of coal
05 01	wastes from petroleum refining
05 01 13	boiler feedwater sludges
05 01 14	wastes from cooling columns
05 01 16	sulphur-containing wastes from petroleum desulphurisation
05 01 17	bitumen
05 06	wastes from the pyrolytic treatment of coal
05 06 04	waste from cooling columns
05 07	wastes from natural gas purification and transportation
05 07 02	wastes containing sulphur
06	Wastes from inorganic chemical processes
06 03	wastes from the MFSU of salts and their solutions and metallic oxides
06 03 16	metallic oxides other than those mentioned in 06 03 15
06 05	sludges from on-site effluent treatment
06 05 03	sludges from on-site effluent treatment other than those mentioned in 06 05 02

06 06	wastes from the MFSU of sulphur chemicals, sulphur chemical processes and desulphurisation processes				
06 06 03	wastes containing sulphides other than those mentioned in 06 06 02				
06 09	wastes from the MSFU of phosphorous chemicals and phosphorous chemical processes				
06 09 02	phosphorous slag				
06 09 04	calcium-based reaction wastes other than those mentioned in 06 09 03				
06 11	wastes from the manufacture of inorganic pigments and opacificiers				
06 11 01	calcium-based reaction wastes from titanium dioxide production				
06 13	wastes from inorganic chemical processes not otherwise specified				
06 13 03	carbon black				
07	Wastes from organic chemical processes				
07 01	wastes from the manufacture, formulation, supply and use (MFSU) of basic organic chemicals				
07 01 12	sludges from on-site effluent treatment other than those mentioned in 07 01 11				
07 02	wastes from the MFSU of plastics, synthetic rubber and man-made fibres				
07 02 12	sludges from on-site effluent treatment other than those mentioned in 07 02 11				
07 02 13	waste plastic				
07 02 15	wastes from additives other than those mentioned in 07 02 14				
07 02 17	waste containing silicones other than those mentioned in 07 02 16				
07 03	wastes from the MFSU of organic dyes and pigments (except 06 11)				
07 03 12	sludges from on-site effluent treatment other than those mentioned in 07 03 11				
07 04	wastes from the MFSU of organic plant protection products (except 02 01 08 and 02 01 09), wood preserving agents (except 03 02) and other biocides				
07 04 12	sludges from on-site effluent treatment other than those mentioned in 07 04 11				
07 05	wastes from the MFSU of pharmaceuticals				
07 05 12	sludges from on-site effluent treatment other than those mentioned in 07 05 11				
07 05 14	solid wastes other than those mentioned in 07 05 13				
07 06	wastes from the MFSU of fats, grease, soaps, detergents, disinfectants and cosmetics				
07 06 12	sludges from on-site effluent treatment other than those mentioned in 07 06 11				
07 07	wastes from the MFSU of fine chemicals and chemical products not otherwise specified				
07 07 12	sludges from on-site effluent treatment other than those mentioned in 07 07 11				
08	Wastes from the manufacture, formulation, supply and use (MFSU) of coatings (paints, varnishes and vitreous enamels), adhesives, sealants and printing inks				
08 01	wastes from MFSU and removal of paint and varnish				
08 01 14	sludges from paint or varnish other than those mentioned in 08 01 13				
08 02	wastes from MFSU of other coatings (including ceramic materials)				
08 02 01	waste coating powders				
08 03	wastes from MFSU of printing inks				
08 03 18	waste printing toner other than those mentioned in 08 03 17				

products) waste adhesives and sealants other than those mentioned in 08 04 09 80 04 12 wastes from the photographic industry 90 91 wastes from the photographic industry 90 91 07 photographic film and paper containing silver or silver compounds 90 91 10 single-use cameras without batteries 90 91 12 single-use cameras without batteries 90 91 12 single-use cameras without batteries 90 91 10 wastes from thermal processes 10 91 91 10 10 wastes from power stations and other combustion plants (except 19) 10 91 01 02 coal fly ash 10 91 03 fly ash from peat and untreated wood 10 91 05 calcium-based reaction wastes from flue-gas desulphurisation in solid form 10 91 15 bottom ash, slag and boiler dust from co-incineration other than those mentioned in 10 01 14 10 91 17 fly ash from co-incineration other than those mentioned in 10 01 16 10 11 18 10 10 12 sludges from on-site effluent treatment other than those mentioned in 10 01 02 ot 18 uastes from fluel storage and preparation of coal-fired power plants wastes from fuel storage and preparation of coal-fired power plants 10 90 126 wastes from the iron and steel industry wastes from the iron and steel industry wastes from the processing of slag 10 90 20 unprocessed slag 10 90 21 wastes from dialiced eaks from gas treatment other than those mentioned in 10 02 07 10 90 12 wastes from the iron and steel industry wastes from the processing of slag 10 90 20 unprocessed slag 10 90 20 unprocessed slag 10 90 21 wastes from dialiced cakes from gas treatment other than those mentioned in 10 02 07 10 90 21 wastes from the processing of slag 10 90 21 wastes from the processing of slag 10 90 21 wastes from the processing of slag 10 90 20 unprocessed slag 10 90 30 wastes from aluminium thermal metallurgy 10 90 30 ande scraps 10 90 30 wastes alumina skimmings other than those mentioned in 10 03 15	08 04	wastes from MFSU of adhesives and sealants (including water proofing

11	Wastes from chemical surface treatment and coating of metals and other materials; non-ferrous hydro-metallurgy				
11 01	wastes from chemical surface treatment and coating of metals and other materials (for example galvanic processes, zinc coating processes, pickling processes, etching, phosphating, alkaline degreasing, anodising)				
11 01 10	sludges and filter cakes other than those mentioned in 11 01 09				
11 01 14	degreasing wastes other than those mentioned in 11 01 13				
11 02	wastes from non-ferrous hydrometallurgical processes				
11 02 03	wastes from the production of anodes for aqueous electrolytical processes				
11 02 06	wastes from copper hydrometallurgical processes other than those mentioned in 11 02 05				
11 05	wastes from hot galvanising processes				
11 05 01	hard zinc				
11 05 02	zinc ash				
12	Wastes from shaping and physical and mechanical surface treatment of metals and plastics				
12 01	wastes from shaping and physical and mechanical surface treatment of metals and plastics				
12 01 01	ferrous metal filings and turnings				
12 01 02	ferrous metal dust and particles				
12 01 03	non-ferrous metal filings and turnings				
12 01 04	non-ferrous metal dust and particles				
12 01 05	plastics shavings and turnings				
12 01 13	welding wastes				
12 01 15	machining sludges other than those mentioned in 12 01 14				
12 01 17	waste blasting material other than those mentioned in 12 01 16				
12 01 21	spent grinding bodies and grinding materials other than those mentioned in 12 01 20				
15	Waste packaging, absorbents, wiping cloths, filter materials and protective clothing not otherwise specified				
15 01	packaging (including separately collected municipal packaging waste)				
15 01 01	paper and cardboard packaging				
15 01 02	plastic packaging				
15 01 03	wooden packaging				
15 01 04	metallic packaging				
15 01 05	composite packaging				
15 01 06	mixed packaging				
15 01 07	glass packaging				
15 01 09	textile packaging				
15 02	absorbents, filter materials, wiping cloths and protective clothing				
15 02 03	absorbents, filter materials, wiping cloths and protective clothing other than those mentioned in 15 02 02				
16	Wastes not otherwise specified in the list				

16 01	end-of-life vehicles from different means of transport (including off-road machinery) and wastes from dismantling of end-of-life vehicles and vehicle maintenance (except 13, 14, 16 06 and 16 08)				
16 01 03	end-of-life tyres				
16 01 12	brake pads other than those mentioned in 16 01 11				
16 01 17	ferrous metal				
16 01 18	non-ferrous metal				
16 01 19	plastic				
16 01 20	glass				
16 01 22	components not otherwise specified				
16 02	wastes from electrical and electronic equipment				
16 02 14	discarded equipment other than those mentioned in 16 02 09 to 16 02 13				
16 02 16	components removed from discarded equipment other than those mentioned in 16 02 15				
16 03	off-specification batches and unused products				
16 03 04	inorganic wastes other than those mentioned in 16 03 03				
16 03 06	organic wastes other than those mentioned in 16 03 05				
16 05	gases in pressure containers and discarded chemicals				
16 05 05	gases in pressure containers other than those mentioned in 16 05 04				
16 05 09	discarded chemicals other than those mentioned in 16 05 06, 16 05 07 or 16 05 08				
16 06	batteries and accumulators				
16 06 04	alkaline batteries (except 16 06 03)				
16 06 05	other batteries and accumulators				
16 08	spent catalysts				
16 08 01	spent catalysts containing gold, silver, rhenium, rhodium, palladium, iridium or platinum (except 16 08 07)				
16 08 03	spent catalysts containing transition metals or transition metal compounds not otherwise specified				
16 11	waste linings and refractories				
16 11 02	carbon-based linings and refractories from metallurgical processes others than those mentioned in 16 11 01				
16 11 04	other linings and refractories from metallurgical processes other than those mentioned in 16 11 03				
16 11 06	linings and refractories from non-metallurgical processes others than those mentioned in 16 11 05				
17	Construction and demolition wastes (including excavated soil from contaminated sites)				
17 01	concrete, bricks, tiles and ceramics				
17 01 01	concrete				
17 01 02	bricks				
17 01 07	mixtures of concrete, bricks, tiles and ceramics other than those mentioned in 17 01 06				
17 02	wood, glass and plastic				
17 02 01	wood				

17 02 02	glass			
17 02 03	plastic			
17 03	bituminous mixtures, coal tar and tarred products			
17 03 02	bituminous mixtures other than those mentioned in 17 03 01			
17 04	metals (including their alloys)			
17 04 01	copper, bronze, brass			
17 04 02	aluminium			
17 04 03	lead			
17 04 04	zinc			
17 04 05	iron and steel			
17 04 06	tin			
17 04 07	mixed metals			
17 04 11	cables other than those mentioned in 17 04 10			
17 05	soil (including excavated soil from contaminated sites), stones and dredging spoil			
17 05 04	soil and stones other than those mentioned in 17 05 03			
17 05 06	dredging spoil other than those mentioned in 17 05 05			
17 05 08	track ballast other than those mentioned in 17 05 07			
17 06	insulation materials and asbestos-containing construction materials			
17 06 04	insulation materials other than those mentioned in 17 06 01 and 17 06 03			
17 08	gypsum-based construction material			
17 08 02	gypsum-based construction materials other than those mentioned in 17 08 01			
17 09	other construction and demolition wastes			
17 09 04	mixed construction and demolition wastes other than those mentioned in 17 09 01, 17 09 02 and 17 09 03			
18	Wastes from human or animal health care and/or related research (except kitchen and restaurant wastes not arising from immediate health care)			
18 01	wastes from natal care, diagnosis, treatment or prevention of disease in humans			
18 01 01	sharps (except 18 01 03)			
18 01 04	wastes whose collection and disposal is not subject to special requirements in order to prevent infection (for example dressings, plaster casts, linen, disposable clothing, diapers)			
18 01 07	chemicals other than those mentioned in 18 01 06			
18 02	wastes from research, diagnosis, treatment or prevention of disease involving animals			
18 02 03	wastes whose collection and disposal is not subject to special requirements in order to prevent infection			
18 02 06	chemicals other than those mentioned in 18 02 05			
19	Wastes from waste management facilities, off-site waste water treatment plants and the preparation of water intended for human consumption and water for industrial use			
19 01	wastes from incineration or pyrolysis of waste			
19 01 02	ferrous materials removed from bottom ash			

19 01 12	bottom ash and slag other than those mentioned in 19 01 11				
19 01 14	fly ash other than those mentioned in 19 01 13				
19 01 16	boiler dust other than those mentioned in 19 01 15				
19 01 18	pyrolysis wastes other than those mentioned in 19 01 17				
19 01 19	sands from fluidised beds				
19 02	wastes from physico/chemical treatments of waste (including dechromatation, decyanidation, neutralisation)				
19 02 03	premixed wastes composed only of non-hazardous wastes				
19 02 10	combustible wastes other than those mentioned in 19 02 08 and 19 02 09				
19 03	stabilised/solidified wastes				
19 03 07	solidified wastes other than those mentioned in 19 03 06				
19 04	vitrified waste and wastes from vitrification				
19 04 01	vitrified waste				
19 04 04	aqueous liquid wastes from vitrified waste tempering				
19 05	wastes from aerobic treatment of solid wastes				
19 05 01	non-composted fraction of municipal and similar wastes				
19 05 02	non-composted fraction of animal and vegetable waste				
19 05 03	off-specification compost				
19 08	wastes from waste water treatment plants not otherwise specified				
19 08 01	screenings				
19 08 02	waste from desanding				
19 09	wastes from the preparation of water intended for human consumption or water for industrial use				
19 09 01	solid waste from primary filtration and screenings				
19 09 03	sludges from decarbonation				
19 09 04	spent activated carbon				
19 09 05	saturated or spent ion exchange resins				
19 10	wastes from shredding of metal-containing wastes				
19 10 01	iron and steel waste				
19 10 02	non-ferrous waste				
19 10 04	fluff-light fraction and dust other than those mentioned in 19 10 03				
19 10 06	other fractions other than those mentioned in 19 10 05				
19 11	wastes from oil regeneration				
19 11 06	sludges from on-site effluent treatment other than those mentioned in 19 11 05				
19 12	wastes from the mechanical treatment of waste (for example sorting, crushing, compacting, pelletising) not otherwise specified				
19 12 01	paper and cardboard				
19 12 02	ferrous metal				
19 12 03	non-ferrous metal				
19 12 04	plastic and rubber				
19 12 05	glass				

19 12 07	wood other than that mentioned in 19 12 06
19 12 08	textiles
19 12 09	minerals (for example sand, stones)
19 12 10	combustible waste (refuse derived fuel)
19 12 12	other wastes (including mixtures of materials) from mechanical treatment of wastes other than those mentioned in 19 12 11
20	Municipal wastes (household waste and similar commercial, industrial and institutional wastes) including separately collected fractions
20 01	separately collected fractions (except 15 01)
20 01 01	paper and cardboard
20 01 02	glass
20 01 08	biodegradable kitchen and canteen waste
20 01 10	clothes
20 01 11	textiles
20 01 25	edible oil and fat
20 01 34	batteries and accumulators other than those mentioned in 20 01 33
20 01 36	discarded electrical and electronic equipment other than those mentioned in 20 01 21, 20 01 23 and 20 01 35
20 01 38	wood other than that mentioned in 20 01 37
20 01 39	plastics
20 01 40	metals
20 01 41	wastes from chimney sweeping
20 02	garden and park wastes (including cemetery waste)
20 02 01	biodegradable waste
20 02 03	other non-biodegradable wastes
20 03	other municipal wastes
20 03 01	mixed municipal waste
20 03 02	waste from markets
20 03 03	street-cleaning residues
20 03 07	bulky waste

Schedule 3 – Emissions and monitoring

Table S3.1 Point Source emissions to water (other than sewer) and land – emission limits and monitoring requirements						
Emission point ref. & location	Source	Parameter	Limit (incl. unit)	Reference Period	Monitoring frequency	Monitoring standard or method
W1 on site plan in schedule 7, emission to Ecton Brook	Uncontaminated surface water and rain water only	No parameters set	No limit set	-	-	-

Schedule 4 – Reporting

Parameters, for which reports shall be made, in accordance with conditions of this permit, are listed below.

Table S4.1 Performance parameters					
Parameter Frequency of assessment Units					
Water usage Annually tonnes					
Energy usage	Annually	MWh			

Table S4.2 Reporting forms				
Media/parameter	Reporting format	Date of form		
Water usage	Form water usage 1 or other form as agreed in writing by the Environment Agency	01/02/16		
Energy usage	Form energy 1 or other form as agreed in writing by the Environment Agency	01/02/16		
Waste returns	E-waste Return Form	-		

Schedule 5 - Notification

These pages outline the information that the operator must provide.

(b) Notification requirements for the breach of a limit

Emission point reference/ source

Measured value and uncertainty

Measures taken, or intended to be

Date and time of monitoring

To be notified within 24 hours of detection unless otherwise specified below

Units of measurement used in information supplied under Part A and B requirements shall be appropriate to the circumstances of the emission. Where appropriate, a comparison should be made of actual emissions and authorised emission limits.

If any information is considered commercially confidential, it should be separated from non-confidential information, supplied on a separate sheet and accompanied by an application for commercial confidentiality under the provisions of the EP Regulations.

Part A

Permit Number

Name of operator

Location of Facility	
Time and date of the detection	
	any malfunction, breakdown or failure of equipment or techniques, nce not controlled by an emission limit which has caused, is pollution
To be notified within 24 hours of	detection
Date and time of the event	
Reference or description of the location of the event	
Description of where any release into the environment took place	
Substances(s) potentially released	
Best estimate of the quantity or rate of release of substances	
Measures taken, or intended to be taken, to stop any emission	
Description of the failure or accident.	

Parameter(s)

Limit

To be notified within 24 hours of	detection unless	otherwise sp	ecified below
taken, to stop the emission			
Time periods for notification follo	owing detection of	of a breach of	a limit
Parameter			Notification period
(a) Natification requirements for	the detection of a		t advance anviscommental affect
(c) Notification requirements for To be notified within 24 hours of		any significan	t adverse environmental effect
	detection		
Description of where the effect on the environment was detected			
Substances(s) detected			
Concentrations of substances			
detected			
Date of monitoring/sampling			
Date of monitoring/sampling			
	ted as soo	n as pra	cticable
Part B – to be submit Any more accurate information on t		n as prac	cticable
	he matters for	n as prac	cticable
Part B – to be submit Any more accurate information on to notification under Part A. Measures taken, or intended to be a recurrence of the incident Measures taken, or intended to be a limit or prevent any pollution of the	taken, to prevent taken, to rectify, environment	n as prac	cticable
Part B – to be submit Any more accurate information on to notification under Part A. Measures taken, or intended to be a recurrence of the incident Measures taken, or intended to be a limit or prevent any pollution of the which has been or may be caused. The dates of any unauthorised emissions.	taken, to prevent taken, to rectify, environment by the emission	n as prac	cticable
Part B – to be submit Any more accurate information on to notification under Part A. Measures taken, or intended to be a recurrence of the incident Measures taken, or intended to be a limit or prevent any pollution of the which has been or may be caused. The dates of any unauthorised emissions.	taken, to prevent taken, to rectify, environment by the emission	n as prac	cticable
Part B – to be submit Any more accurate information on to notification under Part A. Measures taken, or intended to be a recurrence of the incident Measures taken, or intended to be limit or prevent any pollution of the which has been or may be caused. The dates of any unauthorised emissions.	taken, to prevent taken, to rectify, environment by the emission	n as prac	cticable
Part B – to be submit Any more accurate information on to notification under Part A. Measures taken, or intended to be a recurrence of the incident Measures taken, or intended to be limit or prevent any pollution of the which has been or may be caused. The dates of any unauthorised emisfacility in the preceding 24 months.	taken, to prevent taken, to rectify, environment by the emission	n as prac	cticable

Date

^{*} authorised to sign on behalf of the operator

Schedule 6 - Interpretation

"accident" means an accident that may result in pollution.

"application" means the application for this permit, together with any additional information supplied by the operator as part of the application and any response to a notice served under Schedule 5 to the EP Regulations.

"authorised officer" means any person authorised by the Environment Agency under section 108(1) of The Environment Act 1995 to exercise, in accordance with the terms of any such authorisation, any power specified in section 108(4) of that Act.

"building" means a construction that has the objective of providing sheltering cover and minimising emissions of noise, particulate matter, odour and litter.

"disposal" means any of the operations provided for in Annex I to Directive 2008/98/EC of the European Parliament and of the Council on waste.

"emissions to land" includes emissions to groundwater.

"EP Regulations" means The Environmental Permitting (England and Wales) Regulations SI 2010 No.675 and words and expressions used in this permit which are also used in the Regulations have the same meanings as in those Regulations.

"emissions of substances not controlled by emission limits" means emissions of substances to air, water or land from the activities, either from the emission points specified in schedule 3 or from other localised or diffuse sources, which are not controlled by an emission or background concentration limit.

"groundwater" means all water, which is below the surface of the ground in the saturation zone and in direct contact with the ground or subsoil.

"hazardous property" has the meaning given in Schedule 3 of the Hazardous Waste (England and Wales) Regulations 2005 No.894 and the Hazardous Waste (Wales) Regulations 2005 No. 1806 (W.138).

"Industrial Emissions Directive" means DIRECTIVE 2010/75/EU OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL of 24 November 2010 on industrial emissions

"Pests" means Birds, Vermin and Insects.

"guarter" means a calendar year quarter commencing on 1 January, 1 April, 1 July or 1 October.

"recovery" means any of the operations provided for in Annex II to Directive 2008/98/EC of the European Parliament and of the Council on waste.

"waste code" means the six digit code referable to a type of waste in accordance with the List of Wastes (England)Regulations 2005, or List of Wastes (Wales) Regulations 2005, as appropriate, and in relation to hazardous waste, includes the asterisk.

"Waste Framework Directive" or "WFD" means Waste Framework Directive 2008/98/EC of the European Parliament and of the Council on waste

"WEEE" means waste electrical and electronic equipment.

"WEEE Directive" means Directive 2012/19/EU of the European Parliament and of the Council of 4th July 2012 on waste electrical and electronic equipment (WEEE).

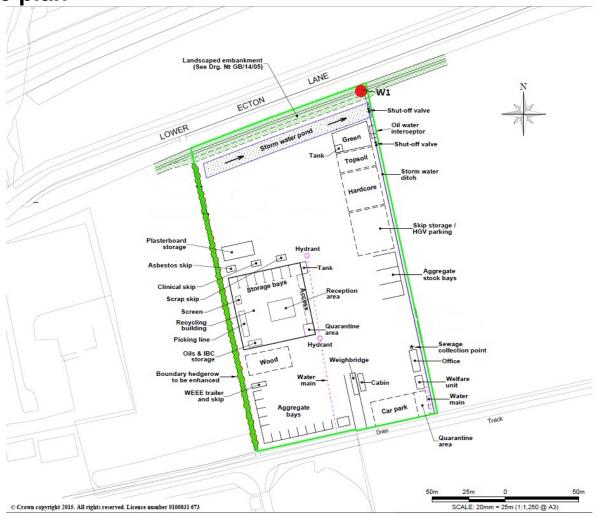

Where a minimum limit is set for any emission parameter, for example pH, reference to exceeding the limit shall mean that the parameter shall not be less than that limit.

Unless otherwise stated, any references in this permit to concentrations of substances in emissions into air means:

- in relation to emissions from combustion processes, the concentration in dry air at a temperature of 273K, at a pressure of 101.3 kPa and with an oxygen content of 3% dry for liquid and gaseous fuels, 6% dry for solid fuels; and/or
- in relation to emissions from non-combustion sources, the concentration at a temperature of 273K and at a pressure of 101.3 kPa, with no correction for water vapour content.

"year" means calendar year ending 31 December.

Schedule 7 – Site plan

END OF PERMIT

Reporting Forms
