## **INTRODUCTION**

### **What is the Africa Prosperity Fund?**

The General Africa Prosperity Fund is Africa Directorate's dedicated fund supporting prosperity work overseas. Through targeted projects, it aims to support the conditions for global and UK growth: Openness, Sustainability, Opportunity and Reputation.

### **Who is this bidding guidance for?**

This document provides comprehensive bidding guidance for:

- prospective implementers; and
- project teams at British Embassies and High Commissions.

### **Before bidding you should also familiarise yourself with:**

- the detailed thematic guidance set out later in this document;
- the standard grant contract; and
- the full bidding form.

Please read all guidance and ensure that project proposals are designed and submitted in accordance with the guidance. Proposals that do not meet the criteria and follow the guidance will be rejected.

**Please send any questions, comments or suggestions to:  
sa.projects@fco.gov.uk**

## **WHAT YOU NEED TO KNOW**

### **Funding available**

In FY 2015/16, the Africa Prosperity Fund will have approximately £600 K available with which to fund approximately four projects with a multi-country/regional focus in sub-Saharan Africa.

The Africa Prosperity Fund is not an appropriate source of funding for small tactical activity.

### **Thematic Priorities**

All project proposals will need to demonstrate how they support the FCO's conditions for growth. Details can be found in the Africa Prosperity Fund strategy document.

### **Official Development Assistance (ODA)**

The Africa Prosperity Fund is specifically reserved for ODA projects (see the [OECD website](#) for a list of ODA eligible countries).

### **Eligibility**

The Africa Prosperity Fund accepts project proposals from civil society, governments, think-tanks, commercial organisations and other UK government departments.

## BIDDING ROUND TIMETABLE FOR 2015/16

STEP	DATE	DESCRIPTION
<b>1</b>	<b>June 2015</b>	<b>Bidding opens</b> Potential implementers are invited to develop concept proposals for submission to the Foreign and Commonwealth Office's Africa Directorate ( <i>Jo'burg to insert e-mail address</i> ).
	<b>15 July 2015</b>	<b>Deadline for potential implementers to submit full project proposals along with activity based budgets to Africa Directorate.</b>
<b>2</b>	<b>w/b 27 July 2015</b>	Appraisal of full project proposals complete. Results issued to implementers.
	<b>w/b 3 August 2015</b>	Final Contracts signed.
<b>3</b>	<b>w/b 10 August 2015</b>	<b>PROJECTS COMMENCE</b>

## STEP-BY-STEP GUIDE TO MAKING PROJECT PROPOSALS

### **STEP 1 – Full Proposal Submission**

A full proposal comprises a project proposal form and an Activity Based Budget (ABB).

Full proposals must be submitted to Africa Directorate by the agreed deadline. They will be assessed by a Programme Board against the relevant strategy. The Board will consist of thematic leads and independent experts.

The Programme Board will agree the final successful projects for funding.

### **STEP 2 Project Approval**

All implementers will be informed of the outcome of the Board by end of July, with the project anticipated to begin in August 2015. Feedback on unsuccessful proposals will be returned by Africa Directorate.

All projects must have the appropriate contract signed by both parties prior to commencement.

# HOW TO WRITE A FULL PROPOSAL

## Section A - Details of the project

This is to be completed by the implementing organisation.

The bidder must also include a detailed [Activity Based Budget](#) (ABB) in Microsoft Excel; the project proposal will not be considered without this.

## Section B – Post Project Officer Assessment

To be completed by Africa Directorate.

## Project Values

As the value of each project should be in the region of £120 000 to £150 000, please ensure you use the form for projects worth above £80 000.

## Guidance on what we look for in the key sections of the full proposal:

- **Context and need for the project:** in no more than 200 words, provide background to the regional context and the prosperity issue(s) that this project will address; state what the expected final outcome will be; and, where applicable, state why the UK should fund this project.
- **Short Project Summary:** in no more than 200 words, explain what the project plans to achieve and how.
- **Cost to the FCO:** the Activity Based Budget should provide a full cost breakdown. So, in this section, please give headline figures: total cost of project, cost per year, and total amount requested from the General Africa Prosperity Fund.
- **Co-funding:** provide details of any co-funding, whether budgetary or in-kind. Include any funding or support from external parties, cost-sharing arrangements and self-financing.
- **Have you bid for funding from the FCO in the past three years?**  
Provide details and dates of any previous full project proposals you have submitted (even if unsuccessful) and/or projects implemented.
- **Project Plan:** detail how the project purpose will be achieved, clearly setting out each output and activity, along with how successful delivery of the outputs and purpose will be measured.
- **Purpose or Objective:** state the project purpose or objective – this must be identical to the purpose set out at the top of the form:

- Indicator: what will be measured
  - Baseline: the current status
  - Sources: where information on the baseline data has come from
  - Milestones: the key points at which progress will be tracked
  - Target: what the project will deliver
  - Date: the date by which the purpose will be delivered
- **Outputs:** list the specific results that the projects will deliver. Outputs are delivered as a direct result of the related activities. The outputs must be sufficient to achieve the project purpose. Each output will also need to be measured, as with the purpose above.
  - **Activities:** list all the tasks to be carried out in order to deliver each output. The activities must be sufficient to deliver the outputs.
  - **Sustainability:** make it clear how the project will ensure that its benefits are sustained after the project has ended. If future funding is likely to be required, specify where it will come from.
  - **Monitoring:** monitoring reports will be required on at least a quarterly basis. In this section, state how the project's progress will be monitored, how often, and by whom.
  - **Project Risk Analysis:** list the key risks involved in running the project and how these risks will be managed. Consider risks at all levels of the project, for example: political; administrative; internal; practical etc. Please ensure the entire risk matrix is complete.
  - **Project Stakeholders:** explain here who the main project stakeholders are, what their interest in the project is, and how you plan to engage or involve them. This is the part of the proposal where you can demonstrate existing buy-in with stakeholders.

**ALL FULL PROPOSALS MUST BE SUBMITTED IN WORD FORMAT.  
PDFS WILL NOT BE ACCEPTED**

## **FULL PROPOSAL: THE ACTIVITY BASED BUDGET**

All budgets must be submitted in an Activity Based Budget (ABB) format. This means that your costs should be broken down in sterling, by cost per activity, per unit per month. An example of an ABB is in [Annex A](#)

For each activity in your project proposal you should:

1. Create and save the budget in Excel (pdfs not accepted);
2. Create a sub-heading in the budget;
3. List all costs associated with that activity;
4. Enter the costs in the month you expect the activities to be completed; and
5. Provide as much detail as possible, (e.g. break down costs for a workshop into venue, catering, travel costs etc.).

### **Points to Consider**

#### **Administration costs**

The combined total of management fees, overheads and administration costs must not exceed 10% of the overall project cost. Administration costs should be broken down into component parts.

#### **Co-funding**

Co-funded activities should be clearly labelled within the ABB. The ABB should be separated to show the total cost to the co-funder and to the FCO (see Activity 1.1 of the example ABB at [Annex A](#)).

#### **Equipment**

Programme funds should not be used to purchase equipment, such as laptops, vehicles etc., unless the provision of the item is essential to the delivery of the project.

#### **Local context**

Please ensure that project costs are reasonable and in line with the costs in the host country/countries.

#### **Personnel costs**

Please make it clear who will be working on the project, and what staff costs will be spent on, i.e. whether overheads are included in the cost or not. Please ensure different types of staff are listed on separate budget lines.

#### **Travel costs**

Please ensure any travel is absolutely necessary for the project, and is of reasonable value. Economy travel should be considered the normal class of travel and exceptions should be clearly specified in the budget.

## HOW PROPOSALS ARE ASSESSED

### 1. Value for money

All FCO-funded projects spend UK taxpayers' money; therefore a significant part of project proposal assessment considers whether the project is value for money. Proposals must be supported by a realistic and detailed Activity Based Budget (ABB). Projects should add to, and not duplicate, other donor activity although co-funding from co-donors or stimulating further host government expenditure is welcomed.

### 2. Alignment with Strategy and FCO's Foreign Policy Priorities

Proposals should clearly align with the Africa Prosperity Fund strategy (a separate document). Projects should be practical and high-impact interventions that will lead to a real and timely transformation in high level policy and action on the ground. Proposals focusing purely on, eg, research or workshops will not be relevant until they lead to specific and measurable benefit and action. If the project is ODA eligible, does it meet the necessary criteria?

### 3. Evidence of local demand or need

The proposal must give clear evidence of local demand and/or need for the project. Evidence of stakeholder engagement and local buy-in (where applicable) is preferred. Key local partnerships should already be established.

### 4. Project viability, including capacity of implementing organisation(s)

Projects should be realistic in the results they aim to deliver in financial year 2015/2016.

### 5. Project design, including clear, achievable impact

It is vital that each project clearly demonstrates how its outputs will deliver real-life impact in its target area.

### 6. Sustainability

To increase the long-term sustainability of projects and their impact, we would expect projects to have host government engagement/support, or there should be good reasons for it to go ahead without such engagement. There should also be evidence that the project's benefits will continue after funding ends.

### 7. Risk and stakeholder management

Risks should be identified and a risk management plan put in place. Projects that can leverage host government support or engagement are more likely to succeed, and proposals should therefore demonstrate how they will engage host governments and key stakeholders to deliver expected outcomes.
