

PETROLEUM ACT 1998

Notice of Application for a Submarine Pipeline Works Authorisation

Repsol Sinopec Resources UK Limited hereby gives notice on behalf of itself and Repsol Sinopec Oil Trading Limited and Rigel Petroleum (NI) Limited, in accordance with the provisions of Part I of Schedule 2 to the Petroleum Act 1998 that it has made an application to the Secretary of State for Energy & Climate Change for the grant of an authorisation for the construction and use of a pipeline between Tie-in Flange at Tee of PL337 Spool at CASWI Water Injection Template and Tie-in Flange at SCAPA Water Injection Template.

A map delineating the route of the proposed pipeline and providing certain further information may be inspected free of charge at the places listed in the Schedule to this notice from 10am to 4pm on each weekday from the date that this notice is published until the date mentioned in the next paragraph of this notice. Alternatively log on to the following page to view electronically, <https://www.gov.uk/oil-and-gas-infrastructure#public-notice-for-viewing>.

Pursuant to a direction of the Secretary of State, representations with respect to the application may be made in writing and addressed to the Secretary of State for Energy & Climate Change, Oil & Gas Authority, Consents and Authorisations, Second Floor, 48 Huntly Street, Aberdeen, AB10 1SH (marked FAO Mrs Claire Grant, Offshore Pipeline Authorisations) not later than 30th September 2016 and should bear the reference "01.08.04.06/418C" and state the grounds upon which the representations are made.

2nd September 2016

Repsol Sinopec Resources UK Limited

TECHNICAL ANNEX

At the request of the Secretary of State for Energy & Climate Change, Repsol Sinopec Resources UK Limited presents the following information about the Claymore development:

Repsol Sinopec Resources UK Limited will formally notify the Health & Safety Executive of certain details relating to the proposed new pipeline, prior to construction. This is required under regulation 20 of the Pipelines Safety Regulations (SI 1996/825) and applies only to Major Accident Hazard Pipelines, which are defined in the Regulations.

Pre-Commissioning Testing

Suitable pre-commissioning and testing of the pipeline will be undertaken in compliance with the adopted pipeline design code/standard, prior to commissioning.

Design Pressure

This is not applicable to this project as the pipeline is a Water Injection Pipeline, no hydrocarbon fluids are to be conveyed.

Leak Detection

This is not applicable to this project as the pipeline is a Water Injection Pipeline, no hydrocarbon fluids are to be conveyed.

Routine surveillance will be carried out along the pipeline route.

Emergency Action

The pipeline is a Water Injection Pipeline, no hydrocarbon fluids are to be conveyed. In the event of major damage, emergency action would be taken to isolate the Water Injection Pipeline.

Recommissioning

In the event of any pipeline break or damage, the subsequent modification, maintenance or repair work should be carried out in such a way as not to detrimentally affect the pipeline's continuing fitness for purpose. Notification of such modification or repair work will be made to the Health & Safety Executive under regulation 22 of the Pipelines Safety Regulations (SI 1996/825), where appropriate.

On Bottom Stability and Safety

The pipeline will be laid in a manner that will ensure its safety and stability and the safety of users of the sea under all reasonably foreseeable conditions.

Limits of Deviation

The pipeline will be laid within a boundary of 100 metres on either side of the proposed route.
