

Live aquatic – Accommodation and care questionnaire

Please complete this form and return it with the application form to the address given at box 7 of form FED 0172 (Application to import /(re)-export). This information is needed to update our records on the type and suitability of accommodation you have available for housing the species applied for. Please continue on a separate sheet if necessary.

1. Application Details

Applicant or business name, full postal address, email address and telephone number:
Application Reference Number (if known):
Species ¹ (Scientific name):
Total number of specimens:

Provide the name(s), full postal address, email address and telephone number of the premises where the specimens will be kept at the place of destination ² (if different to the one provided above)

¹ This may be omitted for coral applications
² The 'place of destination' is defined in Article 2 of Regulation (EC) No. 338/97 as the place at which at the time of introduction into the Community, it is intended that specimens will normally be kept; in the case of live specimens, this shall be the first place where specimens are intended to be kept following any period of quarantine or other confinement for the purposes of sanitary checks and controls.

2. Accommodation Details

Provide a general description of the premises (ie shop, warehouse) and indicate the size in square metres:
