

04 March 2015

Year: 2015 Week: 09

## In This Issue:

- Key Messages.
- Weekly summary.
- Total contacts.
- Syndromic indicators.
- Notes and caveats.
- Further information.
- Acknowledgements.

## Syndromic indicators at a glance:

Number of contacts and percentage of Read coded contacts.

## 1: Total out-of-hours contacts:

Daily total number of out-of-hours and unscheduled contacts and 7 day average (adjusted for bank holidays).

## Key messages

Data to: 01 March 2015

Total GP out of hours consultations for gastroenteritis/diarrhoea/vomiting have decreased or remained stable during week 9 (figures 7-9) but increases occurred in young children (figures 7a-9a).

A Cold Watch System operates in England from 1 November to 31 March each year. As part of the Public Health England Cold Weather Plan for England the PHE Real-time Syndromic Surveillance team will be monitoring the impact of cold weather on syndromic surveillance data during this period.

Cold weather alert level (current reporting week): **Level 1—winter preparedness**  
<http://www.metoffice.gov.uk/weather/uk/coldweatheralert/>

Key indicator	No. of contacts	% Week 10	% Week 09	Trend*
All OOH contacts, all causes	21,060			
Acute respiratory infection	1,382	16.18	17.23	↓
Influenza-like illness	13	0.15	0.36	↔
Bronchitis/bronchiolitis	9	0.11	0.25	↔
Difficulty breathing/wheeze/asthma	175	2.05	2.08	↓
Pharyngitis	3	0.04	0.11	↔
Gastroenteritis	382	4.47	4.93	↔
Diarrhoea	80	0.94	1.11	↔
Vomiting	131	1.53	1.80	↔
Myocardial infarction	100	1.17	1.21	↔

\*Trend: reports on the trend seen over previous weeks in the percentage of Read coded contacts.

## Notes and caveats:

- This bulletin presents data from the Public Health England (PHE) GP Out-of-hours\Unscheduled Care Surveillance System (GP OOHSS).
- Fully anonymised data from GP out-of-hours (OOH) and unscheduled care service providers in England are being transferred to the PHE for analysis and interpretation by the PHE Real-time Syndromic Surveillance Team (ReSST).
- This new system supplements existing PHE syndromic surveillance systems by monitoring data on general practitioner consultations outside of routine surgery opening times (evenings, weekends and bank holidays) and unplanned contacts within NHS primary care.
- The key indicators presented within this bulletin are derived by grouping selected Read coded consultations.

## Further information:

---

The GP Out-of-Hours Surveillance System Bulletin can also be downloaded from the PHE Real-time Syndromic Surveillance website which also contains more information about syndromic surveillance:

<https://www.gov.uk/government/collections/syndromic-surveillance-systems-and-analyses>

## Acknowledgements:

---

We are grateful to Advanced Health and Care and the GP out-of-hours and unscheduled care service providers who have kindly agreed to participate in this system.
