Syndromic Surveillance System: England

#### 17 December 2014 Year: 2014 Week: Key messages In This Issue: Data to: 14/12/2014 Key messages. Syndromic indicators at NHS 111 calls for cold/flu continued to increase during week 50 (figure 2). a glance. Increases in cold/flu calls were recorded across all age groups (figure 2a). Data summary. Indicators by syndrome. Cold/flu. Fever. Cough. Difficulty Breathing. A Cold Watch System operates in England from 1 November to 31 March each year. As part of the Public Health Sore throat. England Cold Weather Plan for England the PHE Real-time Syndromic Surveillance team will be monitoring the impact of cold weather on syndromic surveillance data during this period. Diarrhoea. Cold weather alert level (current reporting week): Level 1 /2 - Winter preparedness / Alert and readiness http://www.metoffice.gov.uk/weather/uk/coldweatheralert/ Vomiting.

### Syndromic indicators at a glance:

Indicator	Trend	Level *
Cold/flu	Increasing	Above baseline levels
Fever	Increasing	Below baseline levels
Cough	Increasing	Above baseline levels
Difficulty breathing	Increasing	Above baseline levels
Sore throat	Increasing	
Diarrhoea	No trend	Similar to baseline levels
Vomiting	No trend	Similar to baseline levels
Eye problems	No trend	Similar to baseline levels

\*Since week 47 2014 new baselines have been introduced for comparison with previous years. Baselines use historical data from the NHS Direct surveillance system to estimate seasonal trend but with levels adjusted to reflect changes since the switch to using NHS 111 data in September 2013.

### Data summary:

Year	Week	Total calls
2014	50	231,412

#### WW Public Health England

### 17 December 2014

### 1: Total calls.

The total number of syndromic calls recorded each day by NHS 111.

### 2: Cold/flu

Daily 'cold/flu' calls as a percentage of total calls. Baselines are constructed from historical data since 2010, including data from NHS111 and NHS Direct.

Cold/flu calls as a percentage of total calls within each age group, shown as a 7 day moving average.
