Dear Patrick,

**Request for more time to determine your application**

**Application reference:** EPR/ZP3493SQ/V005  
**Applicant:** Magnox Limited  
**Facility:** Bradwell Site

We require more time to determine your application because we are still in the process of determining parallel applications from Magnox Limited to vary the water discharge permits (EPR/DP3217XB and EPR/ PR2TSE10760) at Bradwell Site. Since these applications relate to features that Magnox Limited is also seeking to vary under its separate application to vary its radioactive waste disposal permit for Bradwell Site, which is the subject of this letter, we have decided to join-up our determination of these applications.

As a result of this we propose that the determination of the above application should now take place by 1 June 2016.

If you agree to this proposal we should be grateful if you would sign and date the form overleaf as soon as possible. If you are not able to agree to this proposal please contact me.

Yours sincerely
