27 May 2015	
Syndromic surveillance summary notes	Key messages are provided from each individual system.
	• The different syndromic surveillance systems in operation within PHE access data from different areas of the national health care system.
	<ul> <li>Each system is able to monitor a different selection of syndromic indicators based upor different case mix of patients.</li> </ul>
	<ul> <li>Access to the full version of each syndromic surveillance bulletin is available through th Syndromic Surveillance website found at: (<u>https://www.gov.uk/government/collections/</u> <u>syndromic-surveillance-systems-and-analyses</u>); reports will be made available on Thursday afternoons.</li> </ul>
	Further weekly and annual reports are available from the RCGP Research and Surveillance web pages <a href="http://www.rcgp.org.uk/clinical-and-research/research-and-surveillance-centre.aspx">http://www.rcgp.org.uk/clinical-and-research/research-and-surveillance-centre.aspx</a>
Syndromic surveillance systems	Remote Health Advice
	A remote health advice syndromic surveillance system that monitors syndromic calls from remote health advice services e.g. NHS 111 each day across England
	GP In-Hours Syndromic Surveillance System
	A large UK-based general practitioner surveillance system monitoring daily consultations for a range of clinical syndromic indicators
	Emergency Department Syndromic Surveillance System (EDSSS)
	A sentinel ED network across England monitoring daily attendances and presenting symptoms/diagnoses
	GP Out-of-Hours Syndromic Surveillance System (GPOOHS)
	A syndromic surveillance system monitoring daily GP out-of hours activity and unschedule care across England using a range of clinical syndromic indicators
	RCGP Weekly Returns Service (RCGP WRS)
	A sentinel GP surveillance network covering England and Wales monitoring weekly consultations for a range of clinical indicators. This surveillance system is coordinated by the RCGP Research and Surveillance Centre
Acknowledgements:	We thank and acknowledge the contribution of all data providers including:
