

Key to the MDR One Page Assessment Summaries

The MDR Assessment framework

The MDR Assessment Framework is made up of 16 separate **Assessment Questions**, which are grouped into 6 different areas, known as **Components**. The first three components together make up the '**Match with UK Priorities Index**'. Components four to six collectively make up the '**Organisational Strengths Index**'. The different parts of the MDR assessment framework are shown below.

Multilateral agencies were awarded a score between 0.5 and 4 for each of the 16 assessment questions, with scores taking half point values beginning at 0.5 and going up to 4 (i.e. 0.5, 1, 1.5, 2, 2.5, 3, 3.5, 4). Questions were assessed and scored using the labels shown below, chosen to suggest progression of performance.

Assessment Question Scores and Descriptors

Descriptor	Score
Strong	4
Satisfactory +	3.5
Satisfactory	3
Weak +	2.5
Weak	2
Unsatisfactory +	1.5
Unsatisfactory	1 or less

Assessment question scores were averaged together to produce scores for each agency for each of the six components; for its match with UK priorities; and for its organisational strengths. The formula used for calculating these component and index scores is shown within the MDR Assessment Framework diagram below. Unlike the assessment question scores, component and index scores were categorised using a four colour traffic light categorisation. The table below shows the thresholds chosen for each traffic light rating, along with the descriptor used.

Component and Index Scores and Descriptors

Descriptor	Traffic Light	Score
Very Good		3.01 to 4
Good		2.51 to 3.0
Adequate		2.01 to 2.5
Weak		0 to 2.0

DFID Funding Chart

The funding chart included on each summary assessment page shows DFID's latest published multilateral core and bilateral through multilateral Official Development Assistance (ODA) to the organisation, as included in our National Statistics release, 'Statistics on International Development'. This data is based on payments made in each calendar year.

UK Burden Share

This is the UK's latest burden share, and represents our core funding to the agency as a proportion of all of the core funding it received. Depending on the frequency with which we provide funding to the agency, the burden share could relate to a specific year, a biennium or to a particular replenishment. This has been made clear in the text.

United Nations Peacebuilding Fund (PBF)

Assessment Summary: PBF contributes directly to Global Goal 16 on Peace and Justice. PBF has a strong record of delivering its relatively narrow objectives, and is recognised as addressing a 'market failure' in finance for peacebuilding with a flexible, risk-taking approach. PBF channels funding to other United Nations agencies, which constrains its direct control over costs.

PBF has made progress since the 2013 MAR Update in its approach to girls and women and risk management, and has improved its results-based management. PBF can do more in these areas and should focus on implementing its sound principles. PBF has shown commitment to and innovation in encouraging additional peacebuilding finance, although the wider environment for this has been challenging. PBF needs to further strengthen its commitment to transparency as well as continuing its efforts to deliver cost control and value for money.
