

#### Future Accommodation Project (FAP)

Housing JCB 8 June 2011

**Brig Richard Cary** 

DCDS(Pers&Trg) Head FAP

#### **CONTEXT IN DEFENCE**

- Basing/future estate outcome will affect options for delivering stability and training solutions (Jul 11).
- Estate contracts impact on speed and scope of FAP
- Remuneration package must reflect Hutton-compliant pension options
- NEM must be 'Covenant compliant'
- FR20/WFC will influence force mix and NEM solutions
- DBS/JPA will shape/constrain ability to deliver options
- Annual Planning Round Process/CSR/Defence Reviews will drive resource availability

# Future Accommodation Project (FAP)

In support of future force structures (FF2020), future manpower utilisation (NEM Project 1) and as part of the overall 'offer' (NEM Project 2), develop an accommodation solution which will better meet future needs for affordable and good quality living accommodation during, and on transition from, Service, and which supports the delivery of OC.

## Stakeholder Engagement

How the customer explained it

How the Project Leader understood it

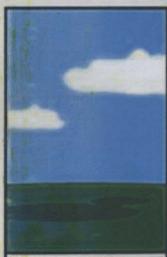

How the Analyst designed it

How the Programmer wrote it

How the Business Consultant described it

How the project was documented

What operations installed

How the customer was billed

How it was supported

What the customer really needed

#### Stakeholder Engagement

# Work Underway.....

- Data Gathering:
  - Cost of ownership of 'As Is' (eg existing) model
  - Service Needs and SP Aspirations endorsed positions
  - Existing personnel policy and entitlements
  - Existing contracts
- Alternative options:
  - Market scoping
  - Other Nation models
- Risks and Issues Management
- Coordination with other NEM projects

#### **Potential Options**

#### **Courses of action**

- Variation on current model / but reduce cost of ownership / future risk
- Contract out to housing service provider / sell off remaining stock
- 3. Provide housing allowance
- 4. Reduce entitlement or taper it over time
- 5. No provision

Filter through benefits Aspirations of Service Personnel Good (enough) quality Needs of the service Fairly priced Affordable

Shortlist of options

#### **Risks and Issues**

- Estate 'Contractual Trap'
  - Economic conditions force homeowners (38%) to opt back in
- Partners/Long-term relationships (26%)

- Cost of Ownership versus Income
- National Housing Availability
  - Compliance with AF Covenant
  - Further reductions on estate and personnel funding
- Political appetite for radical change
