

Help to Buy: mortgage guarantee scheme Quarterly Statistics

5 March 2015

Data from 8 October 2013 to 31 December 2014

Key points:

- Since the launch of the Help to Buy: mortgage guarantee 40,079 mortgages have been completed with the support of the scheme.
- Of these, 78% were purchases by first time buyers.
- The total value of mortgages supported by the scheme is £5.9 billion.
- Compared to total mortgage completions in each region, the scheme is supporting a higher proportion of mortgages in the North West and the East, and a lower proportion in London and the South East.
- The mean value of a property purchased or remortgaged through the scheme was £156,031, compared to a national average house price of £272,000.

Introduction

This statistical release contains Official Statistics on the government's Help to Buy: mortgage guarantee scheme, covering the number of mortgage completions, types and values of properties, borrower incomes and breakdowns by geographical area. Excel tables with all the data set out in this release are available at:

www.gov.uk/government/collections/help-to-buy-mortgage-guarantee-scheme-quarterly-statistics

The release is compatible with the Help to Buy: Equity Loan statistics released by the Department for Communities and Local Government:

www.gov.uk/government/collections/help-to-buy-equity-loan-and-newbuy-statistics

In order to provide context for users of the Help to Buy: mortgage guarantee scheme statistics, comparisons are made to various Council of Mortgage Lending (CML) statistics, which cover the UK mortgage lending market as a whole. More information about CML statistics is available at:

www.cml.org.uk/cml/statistics

Help to Buy: mortgage guarantee

The Help to Buy: mortgage guarantee scheme opened on 8 October 2013 and is available across the United Kingdom. Under the scheme the government offers lenders the option to purchase a guarantee on mortgage loans where the borrower has a deposit of between 5% and 20%. The scheme can be used for mortgages on both new build and existing homes, by first time buyers, home movers and those remortgaging.

In order to qualify for a loan supported by the Help to Buy: mortgage guarantee, there are a number of eligibility criteria which are set out in the scheme rules.¹ For example, the scheme is not available on buy-to-let mortgages or second homes, and the property value must be £600,000 or less. Since 1 October 2014, no new loans with a loan-to-income ratio of 4.5 and above can be included in the scheme.

The guarantee compensates participating mortgage lenders for a portion of net losses suffered in the event of repossession. The guarantee applies down to 80% of the purchase value of the guaranteed property covering 95% of these net losses. The lender therefore retains a 5% risk in the portion of losses covered by the guarantee. This ensures that the lender retains some risk in every mortgage originated.

Over the life of the scheme the government will make available up to £12 billion of guarantees, which is sufficient to support up to £130 billion of high loan-to-value (LTV) mortgages.

Monthly figures

Table 1 below shows the number of mortgage completions through the scheme alongside the total value of these loans, the value of the associated government guarantee and the total value of the properties. There were 40,079 mortgage completions through the scheme to the end of December, which represents 3% of all residential mortgage completions in the UK over the same period.² The corresponding value of the guarantees was £848 million while the overall value of loans supported by the scheme was £5.9 billion. These mortgages were used to finance properties worth £6.3 billion in total.

No claims on the government guarantee have yet been made.

Table 1: Number of mortgage completions and value of guarantees, loans and properties from October 2013 to December 2014³

	Completions	Value of Help to Buy Guarantee (£m)	Value of mortgage loans (£m)	Value of properties (£m)
2013				
October	4	0	1	1
November	162	3	21	22
December	818	17	112	119
2014				
January	1,581	34	226	239
February	2,096	45	307	324
March	2,658	56	384	407
April	3,329	69	480	509
May	4,040	85	587	622
June	3,875	82	567	602
July	4,384	96	662	702
August	3,895	85	587	622
September	3,419	74	515	546
October	3,824	80	562	597
November	3,147	64	460	490
December	2,847	60	425	452
Total to end December	40,079	848	5,896	6,254

³ Minor changes in previously published data are due to lenders updating their total recorded completions.

Property value

Table 2 below shows the number of completed mortgages supported by the scheme broken down by property value.

The mean value of a property purchased or remortgaged through Help to Buy: mortgage guarantee scheme to the end of December 2014 was £156,031 compared to an average UK house price of £272,000.⁴ The median property value was lower at £139,000, reflecting a distribution where most properties are in the lower value bands. Over half of all mortgage completions through the scheme were on properties worth £150,000 or less. 8% of mortgage completions were made on properties valued at £250,000 and above. This reflects the fact that most mortgage completions through the scheme have been on properties outside London and the South East, in regions where prices are lower.

Table 2: Mortgage completions from October 2013 to December 2014, by property value⁵

Price band	Total completions	Percentage of total completions (%)
£0 – £125,000	16,996	42
£125,001 – £150,000	6,069	15
£150,001 – £200,000	8,902	22
£200,001 – £250,000	4,912	12
£250,001 – £350,000	2,162	5
£350,001 – £500,000	917	2
£500,001 – £600,000	121	Negligible
All properties	40,079	100

⁴ Source: <http://ons.gov.uk/ons/rel/hpi/house-price-index/december-2014/rft-monthly-and-qtly-december-14.xls>

⁵ The property value bands match those published by DCLG for the Help to Buy: Equity Loan scheme, to allow comparability between the two schemes.

Chart 1: Completions by property value from October 2013 to December 2014

Property type

Table 3 and Chart 2 show the number of mortgage completions broken down by property type.

The majority of mortgage completions through the scheme were on terraced houses, making up 38% of total completions. The next most popular property type was semi-detached properties (35%), while completions for detached houses and flats were much lower, making up 9% and 14% respectively.

Table 3: Mortgage completions from October 2013 to December 2014, by property type

Property types	Total completions	Percentage of total completions (%)
Terraced	15,331	38
Semi-detached	14,023	35
Flat	5,619	14
Detached	3,745	9
Other	1,361	3
All properties	40,079	100

Chart 2: Completions by property type from October 2013 to December 2014

Borrowers

Table 4 shows the number of Help to Buy: mortgage guarantee scheme completions, broken down by borrowers' household income.⁶

Most households who completed a mortgage with the support of the scheme had a household income of £20,001 - £50,000. Take-up is lower for those on higher incomes: households with an income over £80,000 made up 9% of all completions.

The median household income for borrowers using the scheme was £42,500 which is in line with the median household income across the market for those buying a house with a mortgage (£43,250).⁷ The mean income for borrowers using the Help to Buy: mortgage guarantee was £48,681.

⁶ "Household Income" refers to the total income for all individuals who are party to the mortgage

⁷ Source: The Council of Mortgage Lenders data for median total borrower income for house purchases from Q4 2013 to Q4 2014

Table 4: Mortgage completions from October 2013 to December 2014, by total applicant household income

Total household income	Total completions	Percentage of total completions (%)
£0 – £20,000	1,345	3
£20,001 – £30,000	6,467	16
£30,001 – £40,000	10,036	25
£40,001 – £50,000	7,953	20
£50,001 – £60,000	5,341	13
£60,001 – £80,000	5,214	13
£80,001 – £100,000	1,988	5
Greater than £100,000	1,735	4
All	40,079	100

Table 5 shows the number of mortgage completions through the scheme, split between first time buyers and others (i.e. home movers or those remortgaging).

It shows that 78% of mortgage completions through the Help to Buy: mortgage guarantee scheme to date have been for purchases by first time buyers.

Table 5: Mortgage completions from October 2013 to December 2014, by type of borrower

	Completions (non first time buyer)	Completions (first time buyer)	Total completions
All properties	8,782	31,297	40,079

Country and regional breakdowns

Table 6 shows the regional distribution of the number of mortgage completions through the scheme in each region of England⁸ as well as in the devolved administrations. It also shows a regional breakdown of mean property values, number of first time buyers and borrower incomes.

Mortgage completions in Scotland, Wales and Northern Ireland account for 18% of the total. In Scotland and Wales the number of mortgage completions with the support of the scheme was proportionally higher than in the UK as whole, when compared to total mortgage completions. 8% of all UK mortgage completions have taken place in Scotland since the launch of the scheme, compared to 11% of Help to Buy: mortgage guarantee completions. Mortgage completions in Wales made up 4% of the UK total, compared to a 5% share of Help to Buy: mortgage guarantee.⁹

⁸ The regions used in this publication are based on regions as defined by the ONS. ONS data regions can be found here: www.ons.gov.uk/guide-method/geography/ons-geography/index.html

⁹ Comparison data for all figures on this page is Q4 2013 to Q4 2014 of CML data. Source: The Council of Mortgage Lenders data for regulated mortgage lending. www.cml.org.uk

Completions with the support of the mortgage guarantee scheme in Northern Ireland made up 2% of total UK completions supported by the scheme. This is in line with Northern Ireland's share of overall UK mortgage lending. Since the scheme launched there were 21,900 mortgage completions in Northern Ireland, compared to 1,063,700 in the UK as a whole.

Help to Buy: mortgage guarantee completions in England are proportionally lower, with 82% of completions compared to an 86% share of overall UK residential mortgage completions. At a regional level a higher proportion of mortgages are supported by the scheme in the East and North West. Since the launch of the scheme the East and North West made up 4% and 9%, respectively, of total UK mortgage completions, compared to 10% and 14% of mortgage completions supported by the scheme in the same regions.

London and the South East account for 19% of all completions supported by the scheme. This is below the proportion of UK mortgage completions in these regions, which was 36% over the same period.

Table 6: Mortgage completions, mean property value, first time buyers and mean borrower income, by region¹⁰

Region	Completions	Percentage of total completions (%)	Mean property value (£)	Number of first time buyers	Mean borrower income (£)
Scotland	4,506	11	120,424	3,417	44,345
Wales	1,869	5	117,606	1,530	40,069
Northern Ireland	709	2	103,150	607	38,120
England	32,989	82	164,204	25,740	49,989
South East	5,420	14	211,060	4,235	59,876
London	2,175	5	286,258	1,955	77,369
North West	5,526	14	126,822	4,279	42,686
South West	3,154	8	170,723	2,409	49,628
Yorkshire and Humber	3,589	9	125,206	2,785	42,353
West Midlands	3,496	9	140,505	2,677	45,103
East Midlands	3,579	9	134,388	2,707	42,930
North East	1,871	5	115,919	1,414	41,416
East	4,179	10	184,889	3,279	53,366
Other	6	Negligible	178,120	3	48,499
Total	40,079	100	156,031	31,297	48,681

¹⁰ Median property value and percentage of first time buyers can be found in the accompanying tables. Due to rounding, numbers may not add up to 100%.

Local authority breakdown

Map 1 below shows the location of mortgage completions (shown by dots) through the Help to Buy: mortgage guarantee scheme from 8 October 2013 to 31 December 2014. It also displays the total value of the associated mortgage loans by local authority area (dark shaded areas denote higher value of loans in a local authority).

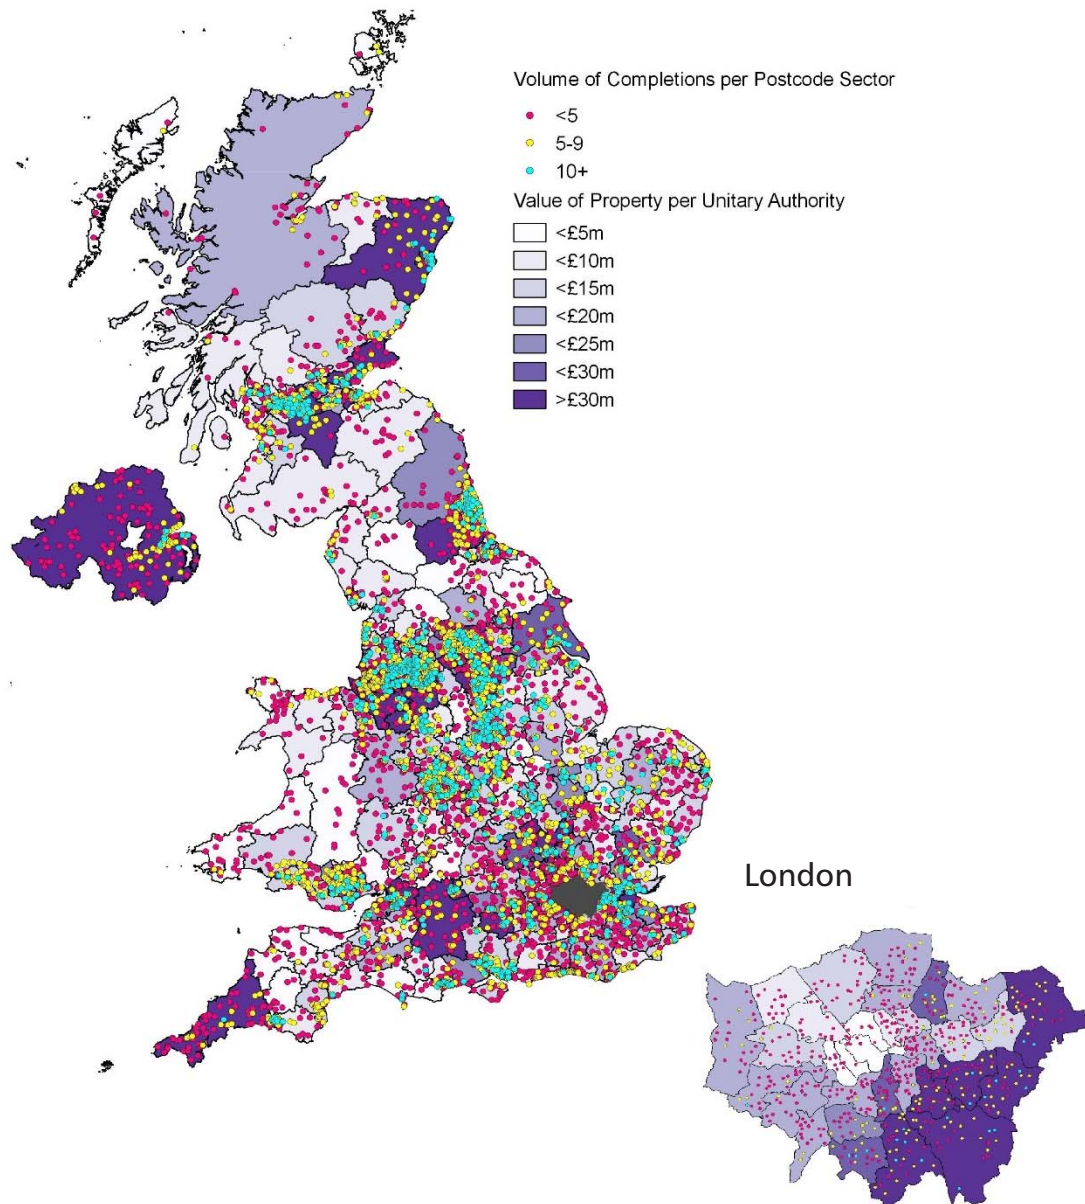

Accompanying tables are available to download alongside this release:

Table 7: Mortgage completions and value of loans and properties supported by Help to Buy: mortgage guarantee completions, by local authority, England, Scotland, Wales and Northern Ireland.

Table 8: Mortgage completions supported by Help to Buy: mortgage guarantee, by postcode district, England, Scotland, Wales and Northern Ireland.

Table 9: Mortgage Completions supported by the Help to Buy: mortgage guarantee, by constituency, England, Scotland, Wales and Northern Ireland.

Map 1: Location and value of completed mortgages supported by the Help to Buy: mortgage guarantee by Local Authority, UK

Background notes

Data collection

UK Asset Resolution corporate services (UKARcs), who administer the scheme on behalf of HM Treasury, collect data from lenders participating in the scheme in accordance with monitoring and reporting requirements set by HM Treasury.

Data quality

Both UKARcs and HM Treasury quality assure the data, using IT solutions and manual processes.

Audit and Financial Reporting

The scheme requires a rigorous audit regime to monitor and enforce compliance with the eligibility criteria and scheme rules. Lenders are required to conduct internal audits, in addition to administrator audits carried out by UKARcs to seek assurance as to the lender's compliance with the scheme rules.

Financial information relating to Help to Buy: mortgage guarantee is included in the HM Treasury resource accounts and the accounts for the Help to Buy: mortgage guarantee scheme.

Mean and median

The following explanation uses property value as an example, but the median and mean are used in the same way throughout the publication. The median property value is the midway point of all the properties values included in the analysis. That is, if there were 101 mortgage completions during a time period and they were ranked by value, the median property value would be the value in the middle i.e., that has 50 house prices above it and 50 house prices below it.

This differs to the arithmetic mean value, which equates to the average price – adding the property values together and then dividing this by the number of completions included in the analysis.

It can be useful to look at both the mean and median with property values. Extreme values at either end of the scale can skew the mean. Therefore the median can give users an additional way of interpreting the data.

Revisions policy

This policy has been developed in accordance with the UK Statistics Authority Code of Practice for Official statistics and the Treasury Revisions policy:

www.gov.uk/Government/uploads/system/uploads/attachment_data/file/191042/statistics_revisions_policy.pdf

There are two types of revision covered by the policy above, unscheduled revisions and scheduled revisions.

In line with the policy above, if a significant unscheduled revision is needed (for example from an error in the result of the compilation, imputation or dissemination process), the statistical release and accompanying tables would be updated with a correction notice as soon as is practical.

There should be relatively few scheduled revisions as the data is compiled from established administrative systems. Where there are scheduled revisions these will be indicated in the time series and highlighted in the Release.

Users of the data

The data is used for monitoring the delivery of the Help to Buy: mortgage guarantee scheme by users including the public, Parliament, financial and housing companies and markets. They are also used to inform wider government policy on housing.

User engagement

Users are encouraged to provide feedback on how these statistics are used and how well they meet user needs. Comments on any issues relating to this statistical release are welcomed and encouraged. Responses should be addressed to the "Public enquiries" contact given in the "Enquiries" section below.

The Department's engagement strategy to meet the needs of statistics users is published here:

www.gov.uk/government/uploads/system/uploads/attachment_data/file/191041/statistics_user_engagement.pdf
