NOTICE OF RELEVANT AUTHORITY DECISION FOLLOWING CONSULTATION ON A PROPOSED LONG-TERM RESTRICTION OF CROW ACCESS

Prepared by Forestry Commission

Case reference number: 2016018020
Name of site/land parcel: Windy Slack
Grid reference: NT915114
Access authority: Northumberland
Local access forum: NE England, Northumberland
Consultation began: 14/03/2016
Consultation ended: 11/04/2016

Date of direction notice: 23/05/2016

The Forestry Commission has now decided how to proceed following its consultation about a proposed direction to restrict CROW access on this land. The relevant authority's decision is to give a direction restricting CROW access as originally proposed.

This is because it is necessary to restrict CROW access to this extent to prevent danger to the public.

Details of the restriction will appear on the relevant map of access land on the Open Access website at <http://www.naturalengland.org.uk/openaccess>.

Where a direction restricts access indefinitely, for more than five years, for part of every year, or for part of at least six consecutive years, we are obliged to review it within five years of the date of issue.

Justification for direction

- Official closure of CROW land is needed to exclude the public for safety reasons as timber harvesting operations are extremely hazardous.
