Subject: 14th Round UCG and PEDL overlaps

Hi REDACTED,

Trust all is well with you. I just wanted to touch base regarding existing UCG licences and potential 14th Round awards. It was pointed out to me yesterday that the UCG licences in the Firth of Forth etc aren't shown on the 14th Round block availability map and therefore appear to be available for licencing under the PEDL regime. I assume the fact that UCG licences weren't included was simply and oversight as my understanding is that the two regimes are mutually exclusive?

I'll be in DECC offices tomorrow morning to meet with your newly appointed 'head of UCG policy' so might see you then?

Take care,

REDACTED.
