

SUBJECT INDEX

- ability (general ability) 312-13, 314, 320, 325, 329, 416-7, 463, 466
- accountability
examination standards 145-6
national assessment system 74-5
- aptitude (general aptitude) 114, 315, 351-2, 353, 356, 357, 359, 371, 416, 455, 463
- aptitude-based conception 463, 466, 467
- scholastic aptitude tests 311, 315
- Average Marks Scaling (AMS) 162, 163-4, 342-4, 367, 373-4
- awarding 97-121
awarding bodies 17, 27-8, 34-5, 78-9
awarding process 97-109
criterion referencing 115-8
development of awarding process 110-9
see also grading
- balanced scripts 226, 229, 263-4, 271
- Bloom taxonomy 182-3
- catch-all definition 132-7, 147, 158, 164, 413, 422
- code of practice 34-6, 72, 73, 74, 80, 97, 99-102, 106, 237, 464
- cohort referencing 130-32, 157, 158, 164, 168, 350, 354
- common examinee methods 331-60, 368-72, 373-6
criticisms of 346-8
defence of 353-8
latent trait models 344-5
subject matrix methods 340-4
subject pairs analysis 337-9, 368-71
subject triples 340
see also Average Marks Scaling
- common test methods 6, 301-21, 324-8, 329-30
- explanation 304-10
historical perspective 315-7
strengths and weaknesses 311-4, 455
- conferred power definition 144-6, 159, 164
- construct comparability 159-61, 164, 325, 351-3, 359, 371, 372
and common examinee approach 351-3, 353-4, 355, 356, 357, 359, 371
and common test approach 325
- construct elicitation 176-82, 191-2
- content standards 280-81
- contest model 147, 150, 152, 161
- CRAS scales 168, 185-8, 191, 193
- criterion referencing 115, 117, 137-9, 159, 160, 164
- cross-moderation 173, 212-38, 246, 459-60
classification 219-22
evaluation studies 295-9
evolution of 215-7
- GCEs 58
and paired comparison 247-8, 257-75, 282-4
- rank-ordering method 277-80
study design 222-34
and Thurstone pairs methodology 257
- Curriculum 2000 15-6, 61, 79-81, 109, 134, 146, 216, 219
- demand 197
see also overall demand
- demands of examinations 166-99, 207-9, 211
assessment problems 188-93
conceptions of 169-71
and conceptions of comparability 371-2
definitions 196-8
and difficulty 168-9, 193-6
and grade awarding 236-7, 281

- judging 168-82, 207-9
 scales of cognitive demand 182-8
 diktat model 146-50, 161
 distribution studies 220, 295-6, 455
- equating 30-31, 267, 283, 310, 399
- general aptitude *see* aptitude
 grade descriptions (descriptors) 117, 221-2
 grade inflation 218
 grade-related criteria 69-70, 117
 grading 25, 97-121, 406-7, 464
 A levels 76, 111-13, 120-21
 comparison of awarding bodies 427-32
 CSEs 113-15
 GCSEs 118-19
 O levels 110-11
- HLM software 419-20
- identification method 219-20, 248, 453, 454, 455
- item response models 255, 445-7
 see also Rasch model
- limiting marks 102-4
- linking 31, 32, 146-7, 150, 160, 276, 325, 326, 329, 351
- media attacks on standards 10, 72-3, 125-30
- misfit 260, 262, 263-4, 270, 298, 446
- MLwiN 419-20
- multi-dimensionality 346-7, 354-5, 446, 450-51
 see also uni-dimensionality
- multilevel modelling 377-422, 427-32, 434-6, 438-40, 446-7, 456-7, 458
 advantages 381-7
 applications 387-91
 comparability studies 413-9
 compared with OLS 393-8, 414-5, 434, 438-40
 complex variance models 409-13
 modelling different outcomes 403-9
 multiple forms modelling 398-403
 separate forms modelling 392-8
 software packages 419-20
- multiple regression 377, 456
- National Qualifications Framework 28-9, 78
- norm referencing 350
 see also cohort referencing
- overall demand 170, 175-6, 188, 189, 191, 197, 207, 108
 and construct elicitation 179-80, 181
- paired comparison 218, 224-5, 246-84, 454, 458
 A level grades 187
 and Arrow's BI condition 199-200
 evaluation studies 295-8
 and inter-board comparability studies 256-75
 rank-ordering 275-80
 Rasch modelling 236
 and ratification studies 220
 and real scripts 230
 strengths and weaknesses 247, 283-4, 295
 and timed judgements 231
 see also subject pairs analysis
- performance comparability 159, 349-50
 and common examinee methods 356, 358, 375
 and demands 371-2
- performance standards 280-2, 448
 and demands 168
- question choice 63, 170
- Randomised Control Trial (RCT) 380-1
- rank-ordering 275-80, 283, 284
- Rasch model 236, 276, 344-5, 367, 445-6, 448, 450, 451
 and construct comparability 359
 and Thurstone method 255, 259, 260, 261, 273
- ratification method 220, 222-34, 257, 453, 454, 455
 evaluation studies 295-8

- and judges' internal standards 257-8
- script selection 225, 263
- zero width problem 259
- reference tests
 - Australian Scaling Test 343
 - CSE/O levels 114-15
 - see also* common test methods
- regression 180, 271, 274, 276, 279, 381-7, 393-4, 398
 - average performance reference 340
 - and common tests 304-9, 325-7
 - OLS regression 381-7
 - compared with multilevel modelling 393-8, 414-5, 434, 438-40
- regulation 1, 27, 34-8, 95
 - and comparability 452, 472
 - national assessment system 71-4
- regulators 27, 91
 - QCA 37-8, 74, 78, 79
 - roles 34-8
- re-marking study (method) 220
- repertory grid (technique) 176-7, 179, 192, 264
- representativeness 339
- scaling 33, 150, 373-4
 - Australian Average Marks Scaling 163-4, 342-4, 367, 373-4
 - Cyprus 374
 - Fiji 374
- script selection
 - cross-moderation 225-7
 - paired comparison 262-3
- sociological definition *see* conferred power definition
- Standards Review 38, 175
- statistical comparability 158, 159, 160, 350-51
 - and common examinee methods 350-1, 354, 356, 357, 359, 371, 375
- sub-group differences 335, 347, 349, 350-51, 352, 356-7, 445
- subject pairs analysis 334-5, 337-9
 - A level maths, Singapore 369-70
 - GCEs 59
 - unrepresentativeness 355-6
- subject triples analysis 340
- Thurstone method 249-56, 257-75, 448
 - and Arrow BI condition 199-200
 - model assumptions 273-4
 - psychological validity 272-3
 - and rank ordering 275
 - study design 261-6
- tiers of entry 22, 33, 68-9, 119, 238, 283
 - and common test method 310
 - grade equivalence 228
- TIMSS 169
- UCAS tariff 16, 163
- Unbiased Mean Total (UBMT) method 341, 366
- uni-dimensionality 179, 348, 352, 355, 450-51
