The Civil Nuclear Constabulary is a specialist armed police service dedicated to the civil nuclear industry, with Operational Policing Units based at 11 civil nuclear sites in England, Scotland and Wales and over 1400 police officers and staff. The Constabulary headquarters is at Culham in Oxfordshire. The civil nuclear industry forms part of the UK's critical national infrastructure and the role of the Constabulary contribute to the overall framework of national security.

The purpose of the Constabulary is to protect licensed civil nuclear sites and to safeguard nuclear material in transit. The Constabulary works in partnership with the appropriate Home Office Police Force or Police Scotland at each site. Policing services required at each site are agreed with nuclear operators in accordance with the Nuclear Industries Security Regulations 2003 and ratified by the UK regulator, the Office for Nuclear Regulation (ONR). Armed policing services are required at most civil nuclear sites in the United Kingdom. The majority of officers in the Constabulary are Authorised Firearms Officers.

The Constabulary is recognised by the National Police Chiefs' Council (NPCC) and the Association of Chief Police Officers in Scotland (ACPOS). Through the National Coordinated Policing Protocol, the Constabulary has established memorandums of understanding with the

local police forces at all 10 Operational Policing Units. Mutual support and assistance enable the Constabulary to maintain focus on its core role.
