

## Annex B: Impact Assessment

### Basic Need – forecast reception year surplus/shortfall

The table below shows the forecast shortfall in Year 7 places in the free school's likely catchment area. The data has been provided by the relevant local authorities via the department's 2013 School Capacity (SCAP) Survey.

	2015/16		2016/17		2017/18		2018/19	
	Number of shortfall	% shortfall	Number of shortfall	% shortfall	Number of shortfall	% shortfall	Number of shortfall	% shortfall
Local area Year 7 forecast surplus/shortfalls								
Positive number or % represents a shortfall Negative number or % represents a surplus	26	1.4%	70	3.8%	150	8.2%	317	17.4%

### Impact Assessment

As required under section 9 of the Academies Act 2010, we have carried out an assessment on the likely impact of opening the free school on other local schools. This is based on the maximum distance the majority of pupils travel to school in Woking. Impact takes into account proximity, type of school, achievement, surplus places and basic need. We judge that Hoe Valley School will have a minimal impact on 10 schools and colleges and a moderate impact on the remaining two within the catchment area. In view of the predicted increase in demand for year 7 school places in the period to 2018/19 the free school is unlikely to affect the long term viability of any neighbouring schools.

## Local Schools

School name	Type	School Capacity	Surplus places at entry	Distance from FS (miles)	Attainment	Inspection rating and date	Impact rating
St John the Baptist Catholic Comprehensive School, Woking	Voluntary Aided School Roman Catholic	1118	-7	0.9	85%	Outstanding 09/05/2014	<b>Minimal</b> The free school is unlikely to affect the long term viability of the school.
